ADM LOGISTICS

STEVEDORING

With our partner St. James Stevedoring, we put our customers and their cargo at the center of ocean and inland waterway transportation services. With six midstream buoy ship mooring locations along the Gulf Coast, we overlay the primary grain loading area for the United States.

We provide:

DRY BULK STEVEDORING
LIFT OPERATIONS
STEVEDORING LABOR SERVICES

Midstream stevedoring provides the most efficient transfer of bulk cargo between ocean vessel and river barge. This direct transloading of cargo provides five key benefits:

- Maximizes available facility capacity because the number of cranes can be increased or decreased.
- Minimizes cargo loss through a single "touch" of the product and sealed buckets.
- Greatly reduces or eliminates the possibility of contamination.
- Takes advantage of inland waterway flexibility.
- Provides the lowest cost transfers available to shippers.

Managing global supply chains while working to minimize costs is a complex, constantly changing process. We understand these challenges and tailor our stevedoring services to integrate seamlessly into your supply chain and make it as efficient and effective as possible.

A SINGLE SOURCE SOLUTION THAT DELIVERS MORE

ADM Logistics is a third-party logistics provider with access to one of the most far-reaching transportation networks in the world—and the logistics knowledge and expertise that go along with it. We're strategic partners who help you optimize your supply chain and maximize your return on investment.

Your supply chain is affected by hundreds of variables—and ADM has the expertise, the capability and the flexibility to handle them all. Whether your goods are distributed across the nation or around the world, ADM Logistics is a single-source solution that delivers more.
