

Connecting
33 wheat farmers.
52 millers.
Thousands of bakers.
And everyone who
loves good bread.

Kevin Payne, Tony Fountain and Sean Hansen

ADM transforms crops into products that serve vital needs for food and energy. By connecting the harvest to the home, our company plays a unique role in helping to improve quality of life, locally and globally. We do this in many ways: creating jobs and fostering economic opportunity for our communities; helping keep our workers and farm families safe; providing educational opportunities in ADM hometowns; and partnering for environmental sustainability.

Shepherd's Grain, an alliance of 33 progressive family farms dedicated to practicing sustainable agriculture, selected our 52-member Spokane Milling team as its exclusive partner to mill 600,000 bushels of wheat a year. Together, we're creating a sustainable partnership connecting the grower, miller, baker and consumer, so that all can benefit.

Across 40 states and everywhere we operate, ADM employees are dedicated to improving the lives of people in their workplace, their community, our nation and our world.
