

# OILS & FATS FOR MARGARINE

## HIGHLY FUNCTIONAL, NON-HYDROGENATED PRODUCTS

When you want to avoid hydrogenation and trans fat while maintaining consistency and taste, choose ADM oils and fats.

ADM offers a wide range of high quality oils and hard stocks that perform well in margarines. Whatever market you are targeting, we can provide the product to help you succeed. Our selection features nonhydrogenated, lower trans fatty acid and high oleic options.

Provide your specifications, and we can develop blends to meet your specific needs.

## R&D AND APPLICATION SUPPORT

With ADM's quality oils and fats, customers have available to them an integrated global network of technical and application support and R&D services. Should you require, our team will visit your plants to help develop new products or optimize your production.

In our advanced facilities, staff experienced in the unique properties of oils and fats in margarine, work to maximize functionality in customers' products.

Pilot plants, analytical laboratories and test kitchens let us work with customer formulations and fully test oils and fats to make certain products meet and exceed customer expectations. Our small-scale refinery gives us the capability to conduct trials and produce samples to help ensure performance.

## KEY BENEFITS

- High quality
- Excellent consistency
- Non-hydrogenated options
- Fully-hydrogenated options
- Enzymatically interesterified products
- Customised blends

## GLOBAL RESOURCES

To serve customers on six continents, ADM sources products from all over the world and provides a full range of services to support them. Multiple plants worldwide, combined with a global distribution system, ensure consistent supply and quality.

A range of risk management solutions helps meet customers' needs while minimizing risk.

For customers around the world, ADM draws on its resources—its people, products, and market perspective—to help them meet today's consumer demands and envision tomorrow's needs.
