VEGETABLE OILS & ESTERS FOR COSMETICS

NATURALLY DERIVED, NON-PETROLEUM BASED INGREDIENTS

To help manufacturers create products that appeal to consumers' discerning tastes and demands for naturally derived, petroleum-free cosmetics, ADM has developed a range of highly refined vegetable oils and vegetable butters. We also offer tailor made

fatty alcohols/fatty acid esters to be used as texturing and emulsifying agents.

Our portfolio includes a selection of quality ingredients to provide softness and coating properties in hair care, skin care, lotion, lipstick and other products.

We create our ingredients from carefully selected raw materials, which we then refine into forms most suitable for the cosmetics sector.

Our versatile team will work with you to develop vegetable oils, butters and esters with key characteristics for performance in your products, from removing colour and odour to achieving consistency levels and specific textures.

QUALITY CONTROL

We manufacture all ADM products under strict quality assurance conditions.

R&D AND APPLICATION SUPPORT

With ADM's quality oils and esters, customers have available to them an integrated global network of technical and application support and R&D services. Should you require, our team will visit your plants to help develop new products or optimise your production.

In our advanced facilities, staff experienced in the unique properties of oils and esters help maximise functionality in customers' products. We work with customer formulations and fully test oils and esters to ensure products meet and exceed customer expectations.

GLOBAL RESOURCES

To serve customers on six continents, ADM sources products from all over the world and provides a full range of services to support them. Multiple plants worldwide, combined with a global distribution system, ensure consistent supply and quality. A range of risk management solutions helps meet customers' needs while minimising risk.

KEY BENEFITS

- Non-petroleum based oils and esters
- Ingredients for many cosmetic types
- Oils & fats with reduced colour & flavour profiles
- Customisable to customer requirements
- Processing of organic oils & fats
- Rigorous quality control
- Excellent application and technical support

For customers around the world, ADM draws on its resources—its people, products, and market perspective—to help them meet today's consumer demands and envision tomorrow's needs. **RESOURCEFUL BY NATURE™**
