

VEGETABLE OILS & FATS FOR INDUSTRIAL PRODUCTS

NON-PETROL-BASED, NATURAL-SOURCE SOLUTIONS

ADM offers a broad range of oils and fats derived from natural sources to perform effectively in a variety of industrial products.

Our portfolio features excellent alternatives to petroleum-based products or animal fats, helping you address environmental concerns and consumer demands for more natural ingredients.

Choose our linseed, soya bean and sunflower oils for paints and coatings, and make vegetable oil-based inks with

our selection of soya and linseed oils.

Make candles with our vegetable oils instead of animal fats or paraffin. As well, our fully hydrogenated fats effectively replace mineral oils.

QUALITY CONTROL

We manufacture all ADM products under strict quality assurance conditions.

R&D AND APPLICATION SUPPORT

With ADM's quality oils and fats, customers have available to them an integrated global network of technical and application support and R&D services. Should you require, our team will visit your plants to help develop new products or optimise your production.

In our advanced facilities, staff experienced in the unique properties of oils and fats in industrial products help maximise functionality in customers' products. We work with customer formulations and fully test oils and fats to ensure products meet and exceed customer expectations.

GLOBAL RESOURCES

To serve customers on six continents, ADM sources products from all over the world and provides a full range of services to support them. Multiple plants worldwide, combined with a global distribution system, ensure consistent supply and quality. A range of risk management solutions helps meet customers' needs while minimising risk.

KEY BENEFITS

- Non-petroleum based oils and fats
- Range of ready-to-use vegetable waxes developed specifically for candles
- Derived from natural sources
- Extensive ingredient selection
- Strict quality control
- Global technical and application support
