# VEGETABLE OILS & FATS FOR PHARMA

## NATURAL SOURCE INGREDIENTS MADE WITHOUT PETROLEUM PRODUCTS

For applications across the pharmaceuticals sector, ADM offers a strong selection of naturally derived ingredients developed especially for the unique needs of these markets.

Our portfolio features ingredients including fats and masses for suppositories and natural vegetable and injectable ultra-purified oils for human parenteral nutrition and veterinary uses. In addition, we offer a range of tailor made fatty alcohols/fatty acid esters to be used as texturising or emulsifying agents in pharmaceutical creams or emulsions and a selection of vegetable waxes and coating agents for active substances.

We can also create ingredients with composition and fatty acids tailored to the special characteristics of

your end product, whether your emphasis is release properties, dissolving action or liquid emulsions.

## QUALITY CONTROL

We manufacture all ADM products under strict quality assurance conditions.

## R&D AND APPLICATION SUPPORT

With ADM's quality oils and fats, customers have available to them an integrated global network of technical and application support and R&D services. Should you require, our team will visit your plants to help develop new products or optimise your production.

In our advanced facilities, staff experienced in the unique properties of oils and fats help maximise functionality in customers' products. We work with customer formulations and fully test oils and esters to ensure products meet and exceed customer expectations.

## GLOBAL RESOURCES

To serve customers on six continents, ADM sources products from all over the world and provides a full range of services to support them. Multiple plants worldwide, combined with a global distribution system, ensure consistent supply and quality. A range of risk management solutions helps meet customers' needs while minimising risk.

### KEY BENEFITS

- Natural vegetable oils and fats
- For suppositories, parenteral nutrition, injectables
- Strict quality control
- Tailor made to customer requirements
- Strong global R&D and technical support

For customers around the world, ADM draws on its resources—its people, products, and market perspective—to help them meet today's consumer demands and envision tomorrow's needs. **RESOURCEFUL BY NATURE™**
