OILS AND FATS

OILS AND FATS

FOOD

In the bakery, confectionery, snack and cake margarine market segments, our oils and fats add functionality and stability. We provide options for healthier frying, as well as low trans and non-hydrogenated products that perform whilst maintaining texture and functionality.

The confectionery, chocolate and bakery sectors also benefit from our cocoa butter equivalents (CBEs) and cocoa butter improvers (CBIs). These low-trans fat ingredients provide consistency and quality in a variety of applications.

For baby foods and infant formulations needing a balanced composition of nutritional profiles, we offer a good selection of oils and fats.

Our oils and fats also function as cost-effective substitutes for animal or dairy fats in ready meals without damaging organoleptic properties.

FOODSERVICE/RETAIL

ADM offers a selection of high-quality products for foodservice use, including cube shortening, pastry fats, de-boxed pastry fats, salad oils and frying oils, as well as a range of private-label retail oils.

Our portfolio also includes a new range of low trans, non-hydrogenated, stable frying oils.

INDUSTRIAL

Industrial product formulators use our nature-based products to help address ever-changing environmental issues. Manufacturers are using our soybean oils in paints and coatings and our vegetable oils and fully hydrogenated fats to make candles without petrol-based products.

PHARMACEUTICAL/COSMETIC

In the pharmaceutical and cosmetic industries, our speciality oils and esters help companies develop products that are naturally derived and not petroleum based. For the pharmaceutical sector, our selection includes vegetable oils for suppositories and injectibles, as well as products with high melting points for coatings. The cosmetics industry uses our esters to provide softness and coating properties in shampoo and other products.

KEY BENEFITS OF ADM OILS AND FATS

EXCELLENT, CONSISTENT QUALITY AND STABILITY

BROAD PORTFOLIO OF FIRST-RATE OILS AND FATS

**EFFECTIVE IN FOOD, INDUSTRIAL,
COSMETIC AND PHARMA APPLICATIONS**

**AVAILABLE IN SPECIAL BLENDS TAILORED
TO CUSTOMERS' NEEDS**

**SUPPLIED IN BULK OR IN A
RANGE OF PACKAGED SIZES**

**SUPPORTED BY GLOBAL TECHNICAL, RISK MANAGEMENT
AND DISTRIBUTION NETWORKS**

LOOK TO ADM FOR QUALITY OILS & FATS AND A NETWORK OF GLOBAL RESOURCES.

ADM offers one of the broadest portfolios of oils and fats available, with products for many segments of the food, industrial, cosmetic, and pharma industries, as well as the foodservice and retail markets. We pair this wide product range with integrated global support resources.

In our product selection, you will find naturally stable oils and fats, non-hydrogenated interesterified low-trans systems, products with naturally enhanced characteristics, and tailor-made blends with a range of nutritional profiles. We also offer tropical oils and their fractions, industrial oils and fats, and glycerin. Our products are available in both bulk and pack sizes to suit your needs.

Whether you are baking, frying, making chocolate, producing pharmaceuticals or cosmetics, or manufacturing paints and coatings, experience the performance of our oils and fats.

WORLDWIDE INTEGRATION

ADM locations all over the world come together to serve customers everywhere. Our six-continent presence gives us a unique understanding of global markets, as well as the capability to provide sourcing, trading, marketing, and logistical support worldwide.

Local teams provide full-service technical support and applications assistance, whilst integrated global resources offer risk management, research and development, and logistical services.

In addition, we operate one of the world's largest transportation systems, to ensure you receive the products you need when you need them. A range of risk management tools helps minimise your exposure, and ADM Investor Services provides market knowledge businesses can use.

GLOBAL TECHNICAL ASSISTANCE AND APPLICATION SUPPORT

With expertise in a variety of application areas, ADM will work with you to find cost-effective, functional answers to your challenges. Using our advanced pilot plants, test kitchens, and laboratories, we can help find the right oil or fat and formulation for you. We will work closely with you to provide formulation alternatives, assist in product and process improvements, and create solutions customized to your needs.

Our facilities include labs with advanced pilot plants and bakery and fry equipment. In addition, we operate a small-scale refinery including hardening, interesterification and deodorisation. We also have votating capabilities for crystallising fats. This range of advanced equipment lets us replicate your conditions to find functionality solutions. Our facilities feature the latest oil and fat testing and analysis equipment to help ensure the highest performance in your products.

APPLICATIONS INCLUDING:
