ADM INFORMATION SERVICES

ELECTRONIC TOOLS TO SIMPLIFY YOUR BUSINESS

At ADM, we're making it our business to simplify yours. When you want to save time, avoid costs, improve management, and leverage your technology investments, turn to Information Services like our admworld.com web site and our customer portal, e-ADM.com. Our complete package of electronic tools offers leading-edge technology answers for today's business challenges.

Whether you want to make payments automatically, have instant access to reports and invoices, set up automatic inventory monitoring and ordering, or simplify your bills, we have the product for you.

And, our Information Services are supported by world-class programmers and technicians. Our customers have access to our global information network, and we'll partner with you to integrate our services with your networks and give you the peace of mind superior technical support provides.

KEY BENEFITS

- Increases collaboration and information sharing with suppliers during product research
- Increases consistent and reliable delivery of inputs to meet production demands
- Expands use and acceptance of electronic trade documents and remittance
- Helps integrate companies with trading partners to facilitate cost avoidance

SUMMARY BILLING & INVOICING

If your business runs a large volume of transactions, this service is designed for you. ADM will consolidate your invoices into business unit reports automatically generated for a time period you define, as often as you like (based on credit line and invoicing terms). Then, you have the flexibility of viewing your data via our secure Extranet or e-ADM.com or receiving it via e-mail or mail.

- Reduces costs associated with document transmission and retention
- Better cash management
- Faster answers to billing and invoicing questions

ONLINE REPORTS

Use our Online Reports service to make better business and inventory management decisions. Through e-ADM.com, you can organize contracts, invoices, and open orders into a variety of report formats. Information can be sorted for individual days or date ranges.

- Searchable information at your fingertips
- Quicker access to detailed account data
- Consolidated and grouped based on customers' needs and business units

DIRECT INTEGRATION

Enter the paperless business world with EDI (electronic data interchange) from ADM. Through EDI or Extensible Markup Language (XML), we can integrate invoices, purchase orders, purchase order acknowledgements and changes, and shipment notifications directly between our networks.

- Reduces time and errors

ADM provides a complete range of services to meet any business or product formulation challenge. **RESOURCEFUL BY NATURE™**

ADM INFORMATION SERVICES

ONLINE INVENTORY SERVICES

ADM Online Inventory Services (OIS) help optimize on-hand inventories by providing inventory monitoring for bulk ADM ingredients at your locations. The system reads tank levels, then archives and reports information through e-ADM.com. You can access this information from any location through the web. If desired, it can even send you automatic reorder notices via e-mail.

- Simplifies and offers just-in-time inventory monitoring
- Delivers hourly updates on inventory levels
- Preserves historical data indefinitely so you can review ingredient usage during past business cycles
- Provides ingredient usage reports in daily, weekly, monthly, and yearly formats available online or via e-mail

PRODUCT SEARCH

Now you have access to a searchable database of ADM's products online through admworld.com and e-ADM.com. Our Product Database includes product overviews, specifications, MSDS information, nutritional data, and more. Products are sorted by application and type to make them easy to reference.

- Search by industry, industry segment, application, ingredient group, or keyword
- No waiting for catalogs via mail or fax
- Provides contact information for specific products

LOGISTICS MANAGEMENT

Monitor most shipments as easily as you monitor mail with Logistics Management from ADM. Through e-ADM.com, you can track rail car and barge orders and pick-up times with secure 24-hour access to your shipments' status.

- Helps optimize on-hand inventories
- Frees up resources
- Improves logistics management

WEB ORDER ENTRY

Web Order Entry lets you place your orders for ADM products and ingredients in a secure environment and apply shipments against open contracts. Plus, choose quantity, account, ship-to location, and product based on a personalized profile and purchasing history. If your system isn't EDI-enabled, this is the perfect option for you.

- Request orders any time, night or day

PAY ADM

With Pay ADM, payments have never been easier. This Internet-based automated clearing house (ACH) lets you easily pay invoices online. You can even review statements of account and payment history, access invoices, and consolidate accounts.

- Reduces wire transfer costs
- No setup
- No cost

BACKED BY THE POWER OF ADM

ADM understands your needs, and we're dedicated to helping you realize the maximum returns on your technology investments. With our Information Services come the knowledge of a world agricultural leader, the advanced technology of a leading commodity processor, and the skill of an experienced trading partner. We even offer XML and third-party integration to help find the best solution for your business.

As technology changes, so does ADM. We're constantly developing new answers to our customers' challenges.

GETTING STARTED

To find out how we can meet your challenges, contact your customer service representative or regional sales manager.
