OPTIMIZE YOUR ABSORBENT CORE'S PERFORMANCE

Designed for performance and economy, ActyFill[®] 20 is a high-quality, natural functional additive.

This unique additive is made from renewable resources and works in combination with your regular superabsorbent polymers (SAPs) to maximize physiological fluid distribution throughout the absorbent core in baby diapers or incontinence products.

Non-toxic and biodegradable, ActyFill 20 functional additive lets you develop products using an environmentally sustainable ingredient. It has been certified hypoallergenic by the Consumer Product Testing Co. and is used in environmentally friendly diapers and adult incontinence products bearing the Nordic Ecolabelling symbol.

KEY BENEFITS

- Derived from natural, renewable resources
- Environmentally sustainable
- Effectively replace part of SAP content
- Hypoallergenic
- Non-toxic

MAXIMUM ECONOMY

Use ActyFill 20 functional additive to replace part of the SAP content in your products. You can enjoy substantial savings and enhanced profit margins.

PERFORMANCE FOR YOUR PERSONAL HYGIENE PRODUCTS

ActyFill 20 functional additive performs in diapers and incontinence products alike.

When blended with SAPs, it provides similar absorption and retention to all-SAP cores, including optimum fluid acquisition rate and diffusion (depending on the product structure and SAP used).

With physical characteristics similar to typical SAPs, ActyFill 20 functional additive is suited for conventional fluff structures.

WORLD-LEADING BIO-BASED INDUSTRIALS EXPERIENCE

Behind ActyFill 20 functional additive is the knowledge and expertise of ADM, a global leader in bio-based industrials products. From nature's renewable resources, we create high-performance, non-petroleum based ingredients that excel in applications from personal care and cosmetics to paint and coatings.

For customers around the world, ADM draws on its resources—its people, products, and market perspective—to help them meet today's consumer demands and envision tomorrow's needs.
