

TEXTURED SOY PROTEIN INGREDIENTS

Cleaner Taste with a Mouthfeel-Good Factor

Today's mindful consumers are consciously bringing plant-based alternatives into their health focused lifestyles. Stay ahead of consumer needs and partner with ADM - we bring you the most expansive portfolio of textured soy protein ingredients in the industry. ADM provides ideal texture, technical support and precise application expertise, so you can harvest advantages with faster speed-to-market.

ADM is investing in what's next to bring trusted product performance, first-in-the-industry innovation and sustainable solutions at scale so you can win in today's dynamic market.

TECH SAVVY AND MORE THAN A TREND

Soy protein ingredients are in high demand as they are a key ingredient for the influx of meat alternatives entering the marketplace. ADM helps give you an edge by showcasing positive nutrition, high functionality, desired texture and clean taste behind our top-quality textured protein ingredients. We support our customers in using all of our high performing textured proteins. We're an extension of your resources - our strong technical support and expertise in extrusion are key advantages as competitors are cutting back in this department.

²ADM OUTSIDE VOICE™ Global Protein Consumer Discovery Report, 2025

Lead the Market with Us, The Leader in Textured Protein

ADM pioneered textural advances from the beginning by inventing TVP® in the 1960s and continues building extrusion expertise and capacity with on-going strategic investments (like Kansas Protein Foods and our Protein Solutions Center) to offering the industry's most expansive portfolio of regionally grown and produced textured soy protein ingredients. This enables you to win in the market when you work with ADM, the industry leader in textured protein ingredients.

TRUSTED PRODUCT PERFORMANCE

Superb Taste and Texture

Produced utilizing our unbeatable technical and extrusion expertise to create a cleaner tasting, targeted texture product that functionally performs. Our broad portfolio enables us to provide the precise texture and desired mouthfeel your consumer demands every time.

Applications Expertise

Our in-depth understanding of the intricacies of textured proteins helps you deliver the targeted structure, texture, and expected bite and chew that consumers are looking for in plant-based products.

FIRST IN THE INDUSTRY INNOVATION

By partnering with our trusted technical advisors at our first-of-its-kind 36,000ft Protein Solutions Center we can build, scale and problem-solve the next generation of protein innovation together, to help bring your new products to life.

SUSTAINABLE SOLUTIONS AT SCALE

Sustainable Sourcing Options

Additional optionality for locally sourced and sustainable sourcing from our reputable and acreage-expanding regenerative agriculture program helps you advance your sustainability goals.

Reliable Supply

Our longstanding farmer relationships help enable US grown, sourced and produced soy protein to provide you with a secure supply of locally sourced and produced ADM textured soy proteins.

Come join us at our state-of-the-art Protein Solutions Center in Decatur, Illinois to create delicious next-gen products.

BENEFITS OF TEXTURED SOY

- Clean flavor
- Improved texture and moisture management
 - ☑ *Enhances texture to achieve perfect bite*
 - ☑ *Increases water binding*
- Versatile and highly functional
- Meet vegan and vegetarian requirements, plus flexitarian consumer demand
- Reliable and secure supply – identity preserved (IP)
- Conventional and non-GMO options
- Perfect for adding texture and the density and bite consumers expect
- Uniform product: consistency, reliability, quality

More Applications, More Benefits

With an overwhelming demand and limits to the supply of textured soy protein ingredients, ADM streamlines your path to the right partnership for growth in this field. ADM is a one-stop partner for development with innovative, value-added consumer-preferred solutions. We will combine our winning plant-based proteins with our expert flavor and color capabilities, to craft top-quality textured protein applications, so you can bring industry-disrupting innovation to the market faster. ADM's textured soy protein ingredients can enhance a wide range of alternative solutions including:

meat
alternatives

processed
meat

bars and
snacks

cereal

baking

nutritional
products

pet food
& animal feed

When hydrated, textured soy protein delivers a fibrous meat-like texture with outstanding moisture retention and excellent mouthfeel, making it perfect for meat and meat alternative applications. In dry form, it provides unique textures that characterize many of the most popular bars and snacks in the world.

Quality Products from Harvest to Home

Looking for high functionality, desirable texture and clean tasting soy ingredients to use in flexitarian food and beverage solutions? ADM's vast textured plant protein portfolio meets challenges head-on, as a strategic one-stop solution partner from harvest to home. We have the technical expertise to help you put it all together and get to market sooner.
