## The Power of Premixes

Discover the ultimate benefits of premixes in optimizing the micronutrient content of pet food. Our premixes offer a blend that ensures precise and consistent dispersion of vitamins and trace minerals throughout the finished products.

**The ADM Difference: We formulate by combining concentrated ingredients into a single, homogenous mixture to streamline the storage and weighing of ingredients at your facilities.**

What our premixes offer:

Carefully calibrated blend of 20 or more essential vitamins, minerals and amino acids

Formulated to meet the rigorous dietary requirements set by the Association of American Feed Control Officials (AAFCO), European Pet Food Industry Federation (FEDIAF) and National Research Council (NRC) for specific life stages of dogs or cats

## CUSTOMIZED BLENDS FOR WINNING PRODUCTS

Customized blends offer you the freedom to incorporate multiple ingredients seamlessly. By treating these blends as a single ingredient, the addition of new components to your inventory can be simplified while creating a unique and diverse range of finished products.

ADM's custom blend formulas provide the following advantages:

- Flexible packaging and shipping options to suit your specific operational needs
- Increased transparency in your finished foods and treats

## EXPANDING POSSIBILITIES, MAXIMIZING APPEAL

Unleash the full potential of your product offerings with ADM's wide range of options, including vitamin premixes, trace mineral premixes, dry ingredient blends and more:

Dry dog and cat foods

Canned, semi-moist and lightly cooked pet foods

Extruded treats and foods

Health & wellness supplements

## Satisfying Ingredients Made Simple

ADM premixes and customized blends can bring convenience, efficiency and nutritional excellence to your pet food formulations. Choose from various protein sources, carbohydrates, non-GMO, certified organic products and other ingredients that support the overall health & wellness of pets with ADM, to unlock new possibilities for your product portfolio.
