

The document is divided in three sections:

1. 'Summary - ADM Grievance Log' provides an overview of the cumulative number of grievances associated with ADM’s supply chain, broken down by key dimensions
2. 'Grievance Log' lists grievances received in connection with ADM’s supply chain, along with their investigation status and the actions taken by ADM
3. 'Appendix' lists ineligible grievances (i.e., grievances not linked to ADM’s supply chain)

We will investigate all allegations of non-compliance with our policies in accordance with our protocol and procedures. Concerns can be submitted to responsibility@adm.com.

Grievance Log

List of received grievances linked to ADM's supply chain, and their the investigation status and actions taken by ADM.

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
329	Multi Prima Entakai	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Sintang Agro Mandiri (Prima Lestari Investama)	Mighty Earth	Rapid Response report 50	20-Jul-2026: ADM will continue monitoring the case following verification that approximately 92 ha of land clearing remains associated with company activities, including development on peatland after the NDPE cut-off date. While some reported alerts were confirmed to be linked to community-owned land and excluded from the assessment, the remaining substantiated clearing requires continued engagement with the supplier to track remediation progress and compliance with NDPE commitments. 23-Sep-2025: The clearing was in 2012 and conducted by local communities.	2. Monitoring	20-Jul-26
303	Tetangga Akrab	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Land clearing	Mighty Earth	Rapid Response Report 46	20-Jul-2026: Monitoring remains ongoing following identification of renewed FFB sourcing by Tetangga Akrab Mill from Memaju Jaya Estate in the 2025 MSPO Audit Report and unresolved land clearing activities in the nearby Hutan Simpan Kekat (HSK) Belara area. ADM will continue to assess potential supply chain risks and confirm that no linkage emerges with its indirect supplier base. 06-Apr-2026: Status of the grievance was changed from Closed to Monitoring, external consultant is monitoring the supplier. 22-Oct-2024: ADM's consultancy service investigated on companies'ownership structure and concluded different ownerships than suggested by the grievance. The supply chain analysis found that the indirect supplier of ADM is not supplying to Tetangga Akrab Mill 1 or Mill 2. Finally, the imagery analysis concluded that no clearing was observed within Green DevelopmentMr. Tam Tian Ting's group is not supplying to Tetangga Akrab Mill 1 or Mill 2. In addition, from our high-resolution imagery analysis, we have not observed any clearing within Pure Green Development's concession block.	2. Monitoring	20-Jul-26
299	PT Berau Karetindo Lestari	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Land clearing	Upfield		20-Jul-2026: ADM continues monitoring the case given the group's unresolved historical liability from the 2016-2022 period and ongoing confirmation of the liability context, while monitoring any developments relevant to the group's NDPE performance and commitments. 06-Apr-2026:ADM continues monitoring to track potential developments, ensure there is no resumption of land clearing, and assess whether Karyadeka Group initiates formal commitments or recovery measures in the future. 11-Oct-2024: Engagement with direct supplier in progress.	2. Monitoring	20-Jul-26
294	PT Prasetya Mitra Muda: NSS Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Land clearing	Mighty Earth	Rapid Response Report 45	20-Jul-2026: ADM continues monitoring the case given the group's outstanding NDPE liability of approximately 3,000 ha since the NDPE cut-off date, including liability associated with PT Prasetya Mitra Muda. Follow-up remains ongoing regarding requested evidence and clarifications related to land-use claims and affiliated subsidiaries. ADM will continue to assess any information received, monitor progress toward NDPE alignment, and track the development of any formal remediation measures, including a Stop Work Order and Recovery Plan, which have not yet been publicly disclosed. 26-Aug-2024: PMM had carried out an HCS/HCV study followed by peer review since 2019 (see https://bit.ly/2CyAL4N) and the land development had consistently been based on the "go area" as per the HCSA/HCVRN guidance and therefore GAR's regular monitoring of PMM is also based on the HGU boundary used in the HCS/HCV assessment. Fyi, to be clear, the recent "incident" (the clearance reported by Mighty) occurred in an area that was not included yet in the HCS/HCV study. In a commitment/statement letter to GAR, dated 12 July 2024, PMM admitted the land clearance indications reported by Mighty Earth. The clearance of the area occurred within the license owned by the Company and was part of the process of submission of boundaries and HGU. PMM reiterates that it remains committed to NDPE and the clearance occurred due to miscommunication within PMM's internal team. To mitigate this and demonstrate its commitment, PMM is committed to the following: 1. The Company will immediately stop land clearing in the Company's concession area which has not yet been studied in HCS/HCV. 2. The Company will immediately carry out an (additional) HCS/HCV study in the targeted areas for further development followed by an integrated peer review process by HCVRN. 3. Land development will resume after the (additional) HCS/HCV study is completed for the area that is declared as the "go" area. The company will follow the guidance regarding all changes that might occur in the peer process review, if there is any. 4. The Company acknowledges the calculation of the Company's responsibility for the aforementioned deforestation and will use it as a basis for a recovery plan program if needed according to the results of the HCS/HCV study.	2. Monitoring	20-Jul-26
293	Mutiara Pelita Genaan Plantation – Double Dynasty Group	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Land clearing	Mighty Earth	Rapid Response Report 45	20-Jul-2026: ADM keeps monitoring of the case due to the absence of key policy commitments and remediation measures. Continued engagement will focus on tracking any future land-use developments and assessing progress toward alignment with NDPE requirements. 06-Apr-2026: ADM continues to monitor indirect supplier's progress toward NDPE alignment. 26-Aug-2024: Double Dynansty submitted an action plan and was approved for resuming business with ADM direct supplier. Double Dynasty is being added to ADM grievance log and its progress towards completion of action plan are monitored.	2. Monitoring	20-Jul-26

Grievance Log

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
288	Abdi Budi Mulia	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Kalimantan Hamparan Sawit	Mighty Earth	Rapid Response Report 44	20-Jul-2026: ADM continues to monitor ABM to obtain information on the progress of the Recovery Plan implementation, including restoration of the affected area, completion of the required assessments, and adherence to commitments to prevent further land clearing. ADM also continues to track progress on corrective actions and community-related issues. 06-Apr-2026: ADM keeps monitoring the progress of ABM to ensure the stop Work Order remains enforced, the HCV-HCS assessment is completed and no new land clearing occurs, while tracking progress on corrective actions and community-related issues. 22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring the supplier. 8-Apr-2024: We have been engaging with our direct supplier and it was determined that the land clearing was carried out by local communities, in areas not in control of ADM’s supplier, for the purpose of mix agriculture farming, including paddy, corn as well as oil palm cultivation. PT KHS carried out plasma development since January 2024 following pressure received by both local communities and the local government. Nevertheless, PT KHS has ceased all land clearing activities since May 2024 to mitigate risk of potential deforestation and has committed to conduct relevant assessments, including integrated HCV-HCSA assessment, before resuming plasma development. This decision and action is prior to the release of Mighty Earth Report 44.	2. Monitoring	20-Jul-26
234	Padasa Enam Utama	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - Koto Kampar	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara		20-Jul-2026: ADM continues monitoring the case as the allegations related to potential legality and land-use issues remain unresolved. Ongoing oversight will focus on tracking developments in the legal process, supporting further verification efforts, and assessing any new evidence relevant to the allegations and potential supply chain exposure. 06-Apr-2026: ADM continues monitoring as the allegations related to potential legality and land-use issues have not yet been conclusively resolved. 08-May-2023: ADM reached out to its direct supplier for investigation. Our direct supplier provided detailed information on both allegations. 1) Suspected development of plantations in the convertible production forest (HPK) and protected forest (HL) in Koto Kampar - our direct supplier informed us that this is a legacy issue. PT PEU (Koto Kampar) had obtained legal permits for its land and operations long before the area was categorized/designated as forest zone. PT PEU is a holder of an HGU title No. 14/HGU/BPN/92 issued by the National Land Agency in 1992. HGU is the highest " rank/strata" of land title a palm oil company can possibly obtain. The government (National Land Agency) wouldn't have granted the HGU title for PT PEU if there had been a forest one overlapping issue. PT PEU is also a holder of ISPO certificate. Legality is the most important aspect in ISPO's principles and Criteria. See Principle No.1 in the table here: https://peraturan.go.id/common/dokumen/bn/2020/bn1377-2020.pdf 2) Suspected of purchasing, storing, processing fresh fruit bunches harvested from the area of protected forest in Koto Kampar - this will require further investigation and engagement with PT PEU. The outcome will determine any further actions.	2. Monitoring	20-Jul-26
228	PT Inti Nusa Sejahtera/ PT Capitol	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - PT Mitra Austral Sejahtera	Forest Peoples Programme	Demanding accountability	20-Jul-2026: ADM continues monitoring the case and engaging with relevant stakeholders to assess progress on liability resolution and implementation of commitments. ADM will continue to request evidence from direct supplier's implementation of RSPO decisions, monitor actions taken to address outstanding liabilities, and track the effectiveness of controls to prevent non-compliant FFB from entering ADM's supply chain. 06-Apr-26: No recorded land clearing in 2024 or 2025. However, group has not published an SWO, NDPE policy, or recovery plan.The case is currently under review by the RSPO Complaints Panel. ADM recognizes and heeds the RSPO's Complaints System and is monitoring the outcome through the RSPO case tracker: https://rspo.my.site.com/Complaint/s/case/50090000028ErzsAAC/detail. CP's decision letter has been furnished: https://rspo.my.salesforce.com/sfc/p/#90000000YoJi/a/0o000000zdol/6KzFMyMgMQbXU_ru1JUXMGS7V1pdTqQCbu.Qg'kgIY The Appeals Panel’s decision letter is delivered: https://rspo.my.salesforce.com/sfc/p/#90000000YoJi/a/GB000000109qs/AgKNkKsTq1F.0g6hyYhLiVDJ59b3BfCPsH7valQyABs	2. Monitoring	20-Jul-26
209	Astra Agro Lestari	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Sari Aditya Loka 1 - Land dispute, evictions, violent confrontation, indigenous persons affected	Global Witness		20-Jul-2026: ADM continues monitoring the case given the ongoing nature of land tenure and social conflicts across multiple subsidiaries. ADM will continue to track progress on stakeholder engagement, implementation of commitments, government-led interventions, and actions taken toward long-term resolution of the identified grievances. 6-Apr-2026: ADM continues monitoring, given that the cases remain under ongoing engagement, mediation processes and implementation of action plans, with no new verified evidence warranting escalation at this point. 29-Mar-2023: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that Covid-19 protocol was to ensure only personell of PT SAL entered the premises. A confrontation resulted in unrest, upon which local police was called to avoid any further conflict. Mediation efforts are ongoing, and PT SAL has been providing assitance to the community and the Orang Rimba peoples in the surrounding area. AAL's public response can be found under: https://bit.ly/2Ub1GfU In AAL Response letter, it stated that AAL has provided assitance in form of education, healthcare, and economic opportunities to the orang Rimba dating back to 2001 so as to improve their quality of life. AAL is also committed to a NDPE policy and publishes its sustainability report both annually and quarterly which is publicly available.	2. Monitoring	20-Jul-26

Grievance Log

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
172	Abdi Budi Mulia	PalmOil - Indonesia - Indirect	Environment and/or Human Rights - Multiple	Abdi Budi Mulia 2 - Land dispute, waste dumping, other environmental infractions	Global Witness		20-Jul-2026: ADM continues to monitor ABM to ensure the Recovery Plan is effectively implemented, including restoration of the affected area, completion of the required assessments, and adherence to commitments to prevent further land clearing. ADM also continues to track progress on corrective actions and community-related issues. 06-Apr-2026: ADM keeps monitoring the progress of ABM to ensure the stop Work Order remains enforced, the HCV-HCS assessment is completed and no new land clearing occurs, while tracking progress on corrective actions and community-related issues. 22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring the supplier. 07-Dec-2025: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2015. Based on the assessment, an action plan and a number of development programs were developed. PT ABM confirmed to our direct supplier that they do not have a waste problem, and that all issues regarding community demonstrations were submitted to the responsible authorities.	2. Monitoring	20-Jul-26
171	Abdi Budi Mulia	PalmOil - Indonesia - Indirect	Environment and/or Human Rights - Multiple	Abdi Budi Mulia 1- Land dispute, waste dumping, other environmental infractions	Global Witness		20-Jul-2026: ADM continues to monitor ABM to ensure the Recovery Plan is effectively implemented, including restoration of the affected area, completion of the required assessments, and adherence to commitments to prevent further land clearing. ADM also continues to track progress on corrective actions and community-related issues. 06-Apr-2026: ADM keeps monitoring the progress of ABM to ensure the stop Work Order remains enforced, the HCV-HCS assessment is completed and no new land clearing occurs, while tracking progress on corrective actions and community-related issues. 22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring the supplier. 07-Dec-2025: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2015. Based on the assessment, an action plan and a number of development programs were developed. PT ABM confirmed to our direct supplier that they do not have a waste problem, and that all issues regarding community demonstrations were submitted to the responsible authorities.	2. Monitoring	20-Jul-26
123	QL Resources Sdn Bhd	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Pipit Mutiara Indah	Mighty Earth	Rapid Response 21, 27, 28	20-Jul-2026: ADM continues to monitor the case and track progress on actions. 06-Apr-2026: Based on the verification of the case reported by ME 21, 27, and 28, the alerts are false as they fall outside the PT Pipit Mutiara Indah concession.However, QL Resources Group still holds outstanding and unresolved liability of ~5,000 ha under PT Pipit Mutiara Indah, PT Pipit Mutiara Indah (scheme smallholder), and PT Nunukan Bara Sukses, with the last clearing recorded in 2022, covering more than 1,000 ha. ADM's direct supplier conducted a field visit in June 2023 to PT Pipit Mutiara Indah to check the progress of recovery efforts. These activities included establishing a nursery, installing river buffer signboards, actively planting 622 tree seedlings, and conducting outreach on firefighting and fire prevention for the local community. ADM keeps monitoring the progress regarding liability confirmation, supporting documentation, and a time-bound plan. 10-Jul-2024: ADM reached out to direct supplier for investigation. Our direct supplier informed us that they conducted a field visit to PT PMI in in early 2020 to check the compliance on the NDPE policy and the guidance they had provided to QL Resources Group. The group commitet to the Development Recovery Plan for Non-Compliant Land Clearing and has displayed considerable progress on its commitments. ADM will continue to monitor the case. QL need to publish recovery area boundary in public domain. Due to non-compliance to the NDPE policy, ADM's direct supplier have ceased sourcing from QL. Group of companies where the last purchase was in November 2019. Several meetings have taken place since then to guide QL Group of companies to the compliance of NDPE policy and meeting the re-entry criteria. A field visit to PT PMI was conducted in January 2020 to assess the situation on the ground and develop an action plan for PT PMI to close the gaps identified during the field visit. In April 2020, QL Group met all the criteria stipulated in the re-entry criteria, including their commitment to the Development of Recovery Plan for Non-Compliant Land Clearing to NDPE policy at group level incurred from January 2016 onwards. Based on detailed review of documentation, reports and letter of commitment from QL Group, ADM's direct supplier Suspension Committee have given due consideration of this progress and have lifted the suspension on QL Group in April 2020.	2. Monitoring	20-Jul-26
36	Double Dynasty Holdings Sdn Bhd	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation, clearance prep/Stacking line in the following concessions:	Mighty Earth	Rapid Response Report 15, 16, 18, 19, 20, 25	20-Jul-2026: ADM will maintain monitoring of the case due to the absence of key policy commitments and remediation measures. Continued engagement will focus on tracking any future land-use developments and assessing progress toward alignment with NDPE requirements. 06-Apr-2026: ADM continues to monitor ndirect supplier's progress toward NDPE alignment. 20-Aug-2024: ADM is monitoring the supplier.	2. Monitoring	20-Jul-26
31	Double Dynasty Group	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of clearance prep./stacking lines in the following concessions: – Radiant Lagoon Sdn Bhd	Mighty Earth	Rapid Response Report 1	20-Jul-2026: ADM will maintain monitoring of the case due to the absence of key policy commitments and remediation measures. Continued engagement will focus on tracking any future land-use developments and assessing progress toward alignment with NDPE requirements. 06-Apr-2026: ADM continues to monitor indirect supplier’s progress toward NDPE alignment. 20-Aug-2024: ADM is monitoring the supplier.	2. Monitoring	20-Jul-26

Grievance Log

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
317	ADM Joaçaba	Soybean - Brazil - Indirect	Environment - Deforestation & Conversion	Sourcing grains indirectly grown illegally on Indigenous territory in South of Brazil	ADM self-declaration	IBAMA's notification	10-Jun-26: As no new information has been identified, the investigation is, at this stage, considered concluded from ADM's perspective, while monitoring of any future notices from IBAMA will continue. 16-Sep-25: On August 4th, 2025, ADM has completed the full return of the product under investigation. The supplier has retrieved the entire volume of soybeans delivered to the Joaçaba/SC plant. Additionally, a formal declaration confirming the return of the volume under investigation, as required by IBAMA, has been issued to the supplier. 30-Jun-25: ADM contacted the supplier to request further clarification regarding the alleged sourcing of soybeans from an embargoed indigenous area. All payments to the supplier were suspended pending resolution. 12-Jun-25: ADM responded to IBAMA, clarifying that it had no direct relationship with the producers allegedly involved in cultivating the soybeans in question. ADM also provided maps of the farms referenced in the invoices, demonstrating compliance with local legislation and ADM's Policy. ADM reaffirmed its commitment to sourcing soybeans only from producers in good standing with environmental regulations. 28-May-25: ADM received a notification from IBAMA representatives at the Joaçaba facility requesting clarification regarding soybeans purchased from an indirect supplier. The supplier allegedly sourced soybeans cultivated in an indigenous territory under embargo. ADM immediately reviewed the relevant documentation (invoices and the MRV system) and confirmed that the volumes reported were in compliance with ADM's Policy.	1. Under Investigation	10-Jun-26
328	FAP Agri	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Borneo Bhakti Sejahtera	Mighty Earth	Rapid Response report 57	03-06-2026: Our direct supplier informed us that they are suspended in 2024. FAP Agri was still reflected in the Q1 2025 traceability data due to the time required to complete the transition process and phase out any indirect exposure. ADM continues to monitor this case.	2. Monitoring	3-Jun-26
321	Gunas Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations in respect of human rights in the following concessions: - PT Sumatra Jaya Agro Lestari (PT SJAL)	West Kalimantan Palm Oil Plantation Workers Unions Federation (WIPF)		03-June-2026: Following engagement regarding PT SJAL, discussions were conducted with the indirect supplier and supporting documentation was reviewed. Based on the assessment, the employee transfers in question were attributed to operational workforce allocation and not linked to union activities. Such mobility arrangements are standard practice, reflected in employment agreements, and aligned with Indonesian labor regulations. With regard to the two individuals referenced in the report, both employees elected not to accept the proposed transfers. Termination agreements were subsequently reached on 11-Mar-2026 and 06-Apr-2026. The agreements were developed with the involvement and support of the Manpower and Transmigration Agency in Sanggau and West Kalimantan, ensuring a mutually agreed resolution between all parties. The monetary compensation was mutually agreed and determined in accordance with applicable regulations. 03-Mar-2026: ADM does not maintain a direct commercial relationship with PT SJAL or the Gunas Group; our connection is indirect and occurs through third-party suppliers. Based on currently available information provided by our third party consultant, the reported case concerning PT SJAL appears to be consistent and relates to a job transfer (mutation) involving union officials carried out by the company. ADM is monitoring the situation and will provide and update as further information becomes available.	2. Monitoring	3-Jun-26
327	Rumo Logística	Soybean – Brazil - Direct	Environment and/or Human Rights - Multiple	An email was received referencing a local news regarding an incident in Curitiba involving a railway line operated by Rumo, reportedly related to deficiencies in working condition safeguards	Independent Human Rights Observer (Anonymous)	E-mail Link to local news: https://www.plural.jor.br/capital-nacional-dos-acidentes-com-trens-curitiba-registra-primeira-morte-em-2026/	01-Jun-2026: ADM reached out to Rumo Logística S.A. and received an official response regarding the grievance reported in Brazil. Following ADM's engagement, the supplier confirmed that the incident is under investigation by the competent authorities and that operational safety protocols were applied at the time of the event. Rumo also shared information on its safety and risk management approach, including infrastructure investments, monitoring systems, coordination with public authorities, and community awareness initiatives. Based on the information reviewed through ADM's due diligence process, the supplier has indicated a commitment to respecting human rights and maintaining related management processes. Accordingly, based on the information currently available, the grievance is considered closed at this time. 06-May-2026: ADM reached out to its logistic partner sharing the case and requesting further clarification.	4. Closed	1-Jun-26
326	KSP Agro Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -Bumi Agro Makmur	Mighty Earth	Rapid Response Report 56	16-Apr-2026: No direct connection has been identified; however, an indirect link was found through our suppliers. Our direct supplier is currently engaging with the company to seek clarification, and any updates from this engagement will be recorded in our grievance log.	1. Under Investigation	16-Apr-26
325	Hardaya Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Hardaya Inti Plantations	Mighty Earth	Rapid Response Report 56	16-Apr-2026: No direct connection has been identified; however, an indirect link was found through our suppliers. Our direct supplier is currently engaging with the company to seek clarification, and any updates from this engagement will be recorded in our grievance log.	1. Under Investigation	16-Apr-26
324	Abdi Budi Mulia	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Kalimantan Hamparan Sawit	Mighty Earth	Rapid Response Report 56	16-Apr-2026: No direct connection identified, an indirect link was found through our suppliers. Based on third-party review and ongoing engagement, PT KHS has maintained a land-clearing moratorium since July 22, 2024, and is part of broader recovery efforts (ABM Group) for concessions with identified liabilities. Regarding the 2026 alerts, the company's field verification indicates the issue was caused by a contractor's misinterpretation of operational maps during plasma development, resulting in unintended clearing in certain conservation areas. Activities in the affected area have since been halted, and the company has initiated corrective measures, including: - Strengthening conservation boundary controls - Raising awareness among workers and contractors - Preparing a restoration plan for the impacted areas ADM continues to monitor this case.	2. Monitoring	16-Apr-26

Grievance Log

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
323	Panca Eka Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - PT Uniseraya	Mighty Earth	Rapid Response Report 55	13-Apr-2026:Two of our direct suppliers have included the company in their suspended list while others are still investigating the issue.Based on their updates, the company has engaged Remark Asia to conduct an HCV-HCS assessment and expected to be completed by May 2026 followed by an independent review. They have committed to accelerating the assessment process and will share the relevant results with their buyers once available. Our direct suppliers continue to urge Uniseraya to implement stop-work order during the HCS/HCV study. We will continue to closely monitor developments. 02-Mar-2026: Based on ADM's third-party review, the alert occurred between 1–17 November 2025 (approximately 0.8 ha), with no further expansion observed up to February 2026. The detected activity appears to be a road located at the edge of an existing plantation block, seemingly functioning as an additional access road. ADM will continue to monitor both cases and update records as new information becomes available.	2. Monitoring	13-Apr-26
320	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation in the - PT Loka Indah Lestari concession	Mighty Earth	Rapid Response Report 54	13-Apr-2026: PT LIL has faced regulatory pressure from the Ministry of Agrarian Affairs and Spatial Planning/National Land Agency to develop and optimize planted areas within its HGU, with potential permit revocation risks due to land abandonment. Two of our direct suppliers have suspended Kencana Agri while others are still monitoring the case. Kencana Agri has removed all heavy machinery from the site since late January 2026 and committed to a moratorium effective 1 February 2026, along with an HCV/HCS and ICLUP review, a corrective action plan, independent expert engagement, restoration of unintentionally cleared areas, and regular public updates.We will continue to monitor the situation closely. 13-Jan-2026: Our findings indicate that PT Loka Indah Lestari has been subject to significant regulatory pressure from the Ministry of Agrarian Affairs and Spatial Planning/National Land Agency to open and optimize planted areas within its HGU, including the potential risk of permit revocation due to land abandonment. Concurrently, Kencana Agri has been required by the Ministry of Forestry and the Ministry of Environment to safeguard designated High Conservation Value Forest (HCVF) areas. We are actively engaging with our direct suppliers to evaluate and implement appropriate actions.	2. Monitoring	13-Apr-26
289	Astra Agro Lestari	PalmOil - Indonesia - Indirect	Environment and/or Human Rights - Multiple	Land grabbing environmental, human rights, and governance violations illegal palm oil cultivation ongoing intimidation criminalization of environmental human rights defenders operations without required permits	Friends of the Earth	https://foe.org/wp-content/uploads/2024/06/AAL_Cultivating Conflict_Eng_final.pdf	06-Apr-2026: ADM continues monitoring, given that the cases remain under ongoing engagement, mediation processes and implementation of action plans, with no new verified evidence warranting escalation at this point. 8-Jul-2024: Our direct suppliers are engaging with AAL to implement appropriate measure to improve practices at AAL concessions, and make sure the situation on site is not violating any of ADM policies. A well-directed and measurable plan, agreed upon by all parties, will help to resolve disputes and conflicts. 1- Concession permits within forest areas and deforestation The presence of concessions in forest areas does not necessarily imply deforestation, as the status of forest areas does not always mean that the area is still forested. If verified that AAL's subsidiaries indeed have concessions overlapping with forest areas, the regulation on encroachment as stipulated in Law No. 6 of 2023 on Job Creation will be applied to these subsidiaries. The biggest challenge is the almost complete lack of public access to this information, as all details of the process and information are managed by the government and are exempt from public disclosure. The government only provides general information such as the number of companies and the area included in categories of articles 110A and 110B. 2- Implementation of FPIC mechanisms as an initial remediation process The argument by AAL and EcoNusantara that the absence of an FPIC mechanism at the start of company operations renders FPIC irrelevant now is incorrect, as Indonesian civil law principles and Supreme Court jurisprudence allow for this to be addressed. 3- Repeated intimidation of communities In its report, FoE reveals that two women from Rio Mukti Village have experienced repeated intimidation by AAL staff in the field, who questioned the reason for their opposition and pressured them to retract their statements and demands. This repeats various instances of intimidation and criminalization previously carried out by AAL's subsidiaries in the past.	2. Monitoring	6-Apr-26

232	First Resources	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - Cilandra Perkasa	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara		6-Apr-26: ADM continues monitoring the case, key allegations involving First Resources remain partially resolved. First resources has published an NDPE Commitment, but still not issued any SWO or recovery plan. Further verification and tracking are still needed before a conclusion can be made. 28-Oct-2025: Additional connections from First Resources to mills were discovered. We have confirmed that our direct suppliers have added First Borneo to their own suspension lists and have engaged their Tier 2 suppliers to cascade the same requirement. Furthermore, one of our direct suppliers confirmed that they will continue monitoring the situation closely through ongoing engagement with relevant stakeholders, a warning letter was issued to mills located within the First Borneo sourcing radius, instructing them not to procure from First Borneo. They also plan to expand the monitoring radius to identify any further potential supply chain links and will reissue an updated warning letter to their partner mills accordingly. 12-Aug-2025: The case is still under active investigation, and ADM has been diligently monitoring the direct supplier. ADM reached out to its direct supplier for investigation. ADM is requesting information from direct supplier to clarify the situation: a. Suspected of developing plantation in forest production area (HP) and convertible production forest (HPK) in Kampar Regency, Riau. b. Suspected of planting, harvesting, processing, selling, and marketing oil palm products illegally developed within a forest area. Regarding the allegation of devloping on land that is within HPT and HPK area / forest area: Our direct supplier has engaged PT CP regarding the overlap of PT CP concession with a designated forest area. This overlap land matters in Indonesia involves the wider palm oil industry in Indonesia. In conducting its operations, PT. Cilandra Perkasa has obtained relevant and appropriate obligations from the government such as Izin Lokasi, Izin Usaha Perkebunan (IUP) and/or Hak Guna Usaha (HGU). To adress these legacy issues, the government has updated the Omnibus Law to include Article 110A paragraph (1) :“Everyone carrying out a business that has been established and having a Business Permit in a forest estate before Job Creation Law is in effect who has not fulfilled the requirements in accordance with the regulations of law in the forestry sector, must fulfil such requirements no later than three (3) years upon the effectiveness of the Job Creation Law.”. Fuji is closely monitoring the case and engaging our direct suppliers for updates. We will keep our stakeholders informed on this	2. Monitoring	6-Apr-26
218	First Resources	PalmOil - Indonesia - Indirect	Environment and/or Human Rights - Multiple	Allegations that Indonesian conglomerate First Resources Ltd. (FRL) controls a network of shadow companies	Aid Environment, Environmental Investigation Agency		06-Apr-26: The related RSPO suspension ended on 16th March, 2026. The cases still involve outstanding questions that require continued review. 22-Sep-2025: ADM engaged with its direct supplier and grievance investigation service to review corporate structures, shareholder data, and notarial deeds. The findings indicated that the four entities in question operate as separate groups, primarily due to the absence of overlapping majority shareholders—a key metric ADM uses to define corporate control. While clear ownership connections through family relations and documented past business ties were identified, these links do not meet the threshold for mandatory group classification, as they do not constitute direct operational or financial control. ADM has reached out to its direct supplier(s) for further investigation and is actively following the case through the RSPO Complaints Panel (CP). The case is currently under review by the RSPO CP. ADM acknowledges and adheres to the RSPO’s Complaints System and is closely monitoring the case progress via the RSPO case tracker (https://askrspo.force.com/Complaint/s/case/5000o00003CLXepAAH/detail). The case is currently pending consideration by the CP on the method of investigation.	2. Monitoring	6-Apr-26
152	Astra Agro Lestari	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Reports of land disputes and resistance by local citizens in the following concessions: - PT Mamuang (Passang Kayu)	Walhi		06-Apr-2026: ADM continues monitoring, given that the cases remain under ongoing engagement, mediation processes and implementation of action plans, with no new verified evidence warranting escalation at this point. 05-Jun-2025: ADM is actively engaged in addressing the situation by maintaining direct communication with its direct supplier to gather the latest updates and monitor ongoing corrective actions. The direct supplier is working with Astra Agro Lestari (PT AAL) and key stakeholders to resolve the matter effectively. As part of this process, ADM has received a detailed 3-year timebound action plan prepared by PT AAL and is monitoring its implementation to track progress and outcomes. 10-Jul-2024: Three companies - namely, PT Lestari Tani Teladan, PT Mamuang, and PT Agro Nusa Abadi - operate in South Sulawesi, West Sulawesi, and Central Sulawesi as subsidiaries of ADM's direct supplier. Several critical issues have been identified, including overlapping claims with local communities, allegations of land grabbing, criminalization, concerns regarding plasma partnerships, activities conducted beyond the boundaries of the Cultivation Right (HGU), and operations being conducted without the necessary HGU permits. Our direct supplier has engaged with Astra Agro Lestari on all listed cases and provided us with an update of occurrences. Please see the summary below. - PT Mamuang - holds a positive relationship with the local community. They are the legal owners of the land which is shown by the operating permits they hold for the land. Nevertheless, they still engaged and negotiated with the complainants through a mediation process with local authorities. An agreement was not reached and a member of the complainant party engaged in activities that resulted in conviction of criminal charges. This decision was made by legal authorities and courts. PT LTT - additional information has been requested by PT LTT in order to investigate the unverified alleged land grab. It was clarified by PT LTT that there are no outsourcing activities for its operations. Pricing runs in accordance with the regulation set by the Minister of Agriculture of the Republic of Indonesia. PT ANA - all relevant permits are in place and laws complied with. Community rights are always respected, and land tenure is obtained through processes that include the community and agreement is reached. Our direct supplier has explained that they continue to invest resources to try and engage with WALHI/FEO in hope of being able to verify allegations and support efforts to identify, develop, and implement resolutions that are accepted by all	2. Monitoring	6-Apr-26

Grievance Log

322	TSH Resources Berhad (THS Group)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - PT Teeuh Swakarsa Seiahtera	Mighty Earth	Rapid Response Report 55	02-Mar-2026: Our direct supplier is currently in communication with the company to seek clarification. Any updates from this engagement will be reflected in our grievance log.	2. Monitoring	2-Mar-26
164	FGV Holdings Berhad and its subsidiaries and joint ventures	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and human rights violations	U.S. Customs and Border Protection		29-Jan-2026: ADM acknowledges and appreciates the actions taken by FGV in response to the issues raised by the U.S. Customs and Border Protection (CBP). The steps implemented demonstrate progress and reflect an important learning process for both FGV and the broader industry. These actions underscore the continued importance of upholding fundamental and normative labor rights through a human rights–based approach across operations and supply chains. Based on the progress observed, ADM considers the human rights grievance reported under the U.S. CBP to be closed, with ongoing engagement and monitoring to continue as part of our standard due diligence process. 22-Jan-2026: FGV is still awaiting a response from U.S. Customs and Border Protection (CBP) regarding its resubmitted petition on 15 February 2025 to modify the Withhold Release Order (WRO) issued in September 2020. This followed an initial petition submitted in June 2024. No updates have been reported to date. RSPO requires FGV to report its remediation progress directly to CBP. Status of teh grievance remains as 'Monitoring' driven by the unresolved WRO process. 31-May-2023: ADM engaged its direct suppliers and FGV to investigate the case. FGV reaffirmed its commitment to human rights and labor standards, publishing an action plan in March 2020 aligned with the Fair Labor Association's (FLA) Principles of Fair Labor and Responsible Sourcing. Following the U.S. Customs and Border Protection's Withhold Release Order (WRO) on FGV's palm oil products, the company revised its sustainability policy, enhanced its grievance and labor monitoring systems, and implemented measures to strengthen migrant worker recruitment and training. In November 2021, FGV appointed ELEVATE to support independent verification. By February 2023, FGV had completed on-site assessments and was implementing recommendations ahead of submitting its final report to CBP. ADM's direct supplier continues to monitor FGV's progress.	4. Closed	29-Jan-26
236	Rimbunan Hijau	PalmOil - Malaysia - Indirect	Environment and/or Human Rights - Multiple	Reports of various NDPE violations including environmental degradation, deforestation, and human rights and health and safety	Global Witness	The True Price of Palm Oil	22-Jan-2026: While investigations pursude by NDPE traders point that reported land clearing was not linked to palm development, our external consultant noted some potential land-use change liabilities in 2024–2025 that merit attention. Although these do not indicate NDPE non-compliance, continued monitoring is recommended to ensure ongoing alignment with NDPE commitments. 29-Mar-2026: Based on a statement from one of NDPE traders, it has been verified that the land clearing is not related to oil palm development.	2. Monitoring	22-Jan-26
231	PT Tasma Puja	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - Batang Cenaku	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara		22-Jan-2026: According to an external consultant, while the company has obtained mandatory permits (ILOK 2006, IUP 2007, and IUP extension 2013), monitoring is still needed to track corrective actions and community engagement outcomes. For more info: https://sdpanel.goldenagri.com.sg/storage/file/hdw8Euploadedgarexecutivesummarytasmapujaverificationnov2021_slhs.pdf 29-Mar-2023: ADM engaged its direct supplier to investigate the allegations involving PT Tasma Puja (PT TP). The supplier confirmed that PT TP had obtained all required permits prior to the area's forest designation and has since submitted a proposal for a forest release permit to address the overlap issue. PT TP also stated that it conducts due diligence on all new FFB suppliers to ensure sourcing does not occur from protected forests, while further evidence is being reviewed. Additionally, a land dispute with local communities has been resolved through an agreement to allocate 378 hectares as plasma land with a 17.5% profit-sharing arrangement, supported by local authorities. A verification visit to PT TP's Batang Cenaku mill was completed, and progress updates are being monitored.	2. Monitoring	22-Jan-26
213	Yayasan Pelajaran Johor (Johor State Government)	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - YPJ Plantations Sdn Bhd (Ladang	Mighty Earth	Rapid Response Report 32	22-Jan-2026: Given the presence of historical land-clearing liabilities without evidence of new clearance, and the absence of formal NDPE commitments, SWOs, or recovery plans from YPJ Holdings, ADM has changed the status of the grievance to "Monitoring". 26-May-2022: ADM reached out to direct supplier for investigation. Our direct supplier informed us that they are working YPJ Plantations to identify any potential NDPE violations in the concession in question. YPJ Plantation is committed to adhere to the NDPE criteria as described in their Sustainability Policy (2021). Additionally, our direct supplier confirmed that their satellite monitoring partner has verified that there was no forest loss/ peat land conversion in 2021. ADM considers this case closed.	2. Monitoring	22-Jan-26
195	Julong	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Rezeki Kencana - Land dispute, waste dumping	Global Witness		22-Jan-2026: Our external consultant indicated constructive dialogue with Julong regarding updates on the ongoing sustainability assessment.While partial confirmation has been provided and engagement has been constructive, follow-up information is requested to indicate that the process is completed. 8-May-2023: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed. Overall, based on the visit, our direct supplier said that waste is fairly well managed. However, some follow up actions were agreed upon: a) Appoint and assign a person in charge to carry out environmental management and monitoring at the unit level; b) File records in LB3 warehouse; c) Strengthen efforts to manage empty bunches and solid citation. Our direct supplier continues to engage PT RK and monitor the progress.	2. Monitoring	22-Jan-26

Grievance Log

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
162	Yayasan Pahang	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - YP Plantation Sdn Bhd	Mighty Earth	Rapid Response Report 30	22-Jan-2026: Despite indications of absence of new clearance and the issuance of an SWO, NDPE Commitment, and Recovery Plan, the grievance status remains “Monitoring”, as recovery actions still need to be tracked to ensure sustained compliance. 29-Jan-2021: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that that YPP conducted and an environmental impact assessment prior to land development, as well as having received approval from local authorities, the department of environment, and abiding by state regulations before developing the area in question. YPP has also adopted an NDPE policy and imposed a moratorium on land clearing. https://ypph.com.my/v4/polisi-mspo/#1599635710116-a294b1da-05dd	2. Monitoring	22-Jan-26
87	Nurdin Tampubolon Corporation (NT Corp)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Bintang Sakti Lengana	Mighty Earth	Rapid Response Report 19	22-Jan-2026: The status remains “Monitoring”, as it is still necessary to track developments and assess the company’s future responses. The corrective actions have not yet been reported as fully implemented. 29-Nov-2022: ADM reached out to direct supplier for investigation. Our direct supplier informed us that HCS/HCV assesments will be used using HCSA/ALS registered assessors followed by a peer review. Furthermore, a commitment to no development on HCS/HCV/peat is in place on a group-level. Direct supplier is monitoring any further land clearance and there are no clearings in 2021 so far. Jun-22: No purchase data reflected as of H2 2021 traceability report.	2. Monitoring	22-Jan-26
276	Runding Putra Persada	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - Mahmudin plantation	RAN - Rainforest Action Network		22-Jan-2026: Our external consultant’s data indicates that the case is associated with the Mr. Santo Sumono Group, rather than PT Runding Putra Persada (PT RPP) as the primary entity. No deforestation liabilities were identified for the 2016–2025 period. The issue originated from indirect exposure through FFB sourcing from a smallholder operating within the Rawa Singkil Wildlife Reserve, supplied via CV Buana Indah to PT RPP. PT RPP has committed to ceasing sourcing from the implicated smallholder, achieving 100% Traceability to Plantation by September 2023, and strengthening its traceability systems. Multiple buyers conducted joint verifications and monitoring activities between 2023 and 2024, confirming that corrective actions were completed. A joint statement issued in December 2023 declared the case resolved. Follow-up monitoring in October 2024 reaffirmed continued compliance, with no new non-compliance identified. 30-Aug-2023: ADM engaged its direct supplier to investigate the case, confirming that PT RPP achieved 100% Traceability to Plantation (TtP) and conducted multiple field verifications between 2022 and 2023. The investigations found no clear evidence linking non-compliant smallholder land to PT RPP’s supply chain. PT RPP implemented an action plan, trained staff on traceability, and committed to full TtP by September 2023. One smallholder refused to release 4 hectares within the Rawa Singkil Wildlife Reserve, PT RPP and CV Buana Indah excluded him from their supply chain and classified him as a high-risk supplier.	4. Closed	22-Jan-26
297	PT Permata Putera Mandiri (Austindo Nusantara Jaya Group)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Land clearing	Upfield		08-Jan-2026: Grievance relates to historical land clearing linked to PT Permata Putera Mandiri, formerly part of Austindo Nusantara Jaya Group, and currently associated with ZarveX Global Limited. Our verification confirms historical deforestation liability for the 2016–2023 period, with no additional liability identified for 2024–2025 based on the information available at this time of review. ANJ Group has publicly disclosed its NDPE Policy, Stop Work Order (SWO), and Recovery Plan, and has demonstrated progress in recovery implementation. The recovery efforts have been acknowledged by multiple downstream buyers, including the lifting of suspensions and case closures by several companies, while others continue monitoring without identifying new deforestation. 11-Oct-2024: PT Permata Putera Mandiri (Austindo Nusantara Jaya Group) (Metamani Estate in Starling data) has consistently provided annual progress updates on their recovery efforts since 2020 until 2023.	4. Closed	8-Jan-26
302	Rimbunan Hijau Group	PalmOil - Papua New Guinea - Indirect	Environment - Deforestation & Conversion	Land clearing	Mighty Earth	Rapid Response Report 46	12-Nov-2025: The case was verified. ADM’s direct supplier clarified that all related cleared areas are located outside the boundaries of the plantation and this case was closed. 22-Oct-2024: Our consultant responsible for investigating deforestation has identified that the area consists of mixed plantations, with some clearing originating from outside the concession boundaries. To ensure clarity and accuracy regarding the type of area that was cleared, ADM will conduct an on-site verification with its dedicated verification consultant.	4. Closed	12-Nov-25
93	Triputra Agro Persada	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Berau Karetindo Lestari (area 2)	Mighty Earth	Rapid Response Report 2, 16, 19, 20, 21	12-Nov-2025: ADM’s direct supplier is no longer connected to Berau Karetindo. Furthermore, ADM’s consultant has thoroughly investigated recent deforestation alerts and confirmed that the activities are occurring outside concession areas and are being carried out by local communities. 12-Aug-2025: The case is still under active investigation, and ADM has been diligently monitoring the direct supplier. 13-Nov-2024: PT Berau Karetindo Lestari has no listed grievances on buyer trackers. While TAP committed to NDPE in July 2022, EQ/ID found an outstanding NDPE liability of 5,425 hectares from 2016–2023. TAP appears on the RACP tracker, but no information is available regarding corrective actions or re-entry and recovery programs. 30-Nov-2019: ADM reached out to direct supplier for investigation. ADM is requesting information to our direct supplier to clarify the situation.	4. Closed	12-Nov-25
309	Grupo Oleoflores S.A.S.	PalmOil - Columbia - Indirect	Environment and/or Human Rights - Multiple	Allegations with respect to human rights	Forest Peoples Programme		07-Nov-2025: Independant auditor with no conflict of interest has been mandated for RSPO investigation. Investigation’s conclusion did not indicate any significant progress yet. 28-Nov-2024: Involved stakeholders submitted a complaint to RSPO. Case in under investigation.	1. Under Investigation	7-Nov-25

235	Yayasan Sabah	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - Innoprise Plantations Bhd	Mighty Earth	Rapid Response Report 36	08-Oct-2025: ADM has reopened the grievance status for further review. Additional documentation has been requested to Innopris Palm Oil, ADM's external consultant is waiting for Innoprise Palm Oil reply. 28-Oct-2021: ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they were investigating the case prior to the publication of Rapid Response Report 36, and the outcome of the investigation found that the land development was not related to oil palm operation, but rather tree planting activities (Neolamarckia cadamba). Concession maps, and annual work plans approved by Sabah Forestry Department (SFD), and field visit reports were provided.	1. Under Investigation	8-Oct-25
310	DINANT	PalmOil - Honduras - Indirect	Environment and/or Human Rights - Multiple	Allegations of violence and discrimination against local communities	Christliche Initiative Romero e.V.	Palm Oil Report 2024 – In the shadow of the oil palm	08-Oct-2025: An investigation has been initiated by RSPO. ADM adopts a no-buy position during RSPO's investigation period. 31-Jan-2025: ADM contacted its direct supplier who reaffirmed Dinant's commitment to sustainability and Human-Rights. ADM's direct supplier claims that it is not connected to Dinant's supply chain since January 2024. Dinant published the following public statement: https://www.dinant.com/noticias/dinant-categorically-rejects-the-unfounded-allegations-made-in-the-cir-report-in-the-shade-of-the-oil-palm-oil-palm-report-2024/?lang=en	3. Suspended	8-Oct-25
279	Mr Ricky Tan	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: -PT Sinar Belilals Perkasa	Mighty Earth	Rapid Response 42	08-Oct-2025: Group ownership changed from Mentari Group to Mr Ricky Tan. The subsidiary changed from PT Alamsari Lestari to PT Sinar Belilias Perkasa. 29-Dec-2023: ADM reached out to its supplier for additional information. ADM identified that PT Risman Scham Palm Indonesia is potentially linked through an indirect supplier. Reported concession was suspended. 15-Jun-2022: Mentari Group confirmed that PT. Alamsari Lestari's concession was acquired in 2019. Mentari Group explained that the land clearing was a recovery/replanting of unproductive areas previously cleared and planted by the previous owner but poorly managed. PT ASL gave several statements on the progress that has been made regarding to the case, such as conducted a moratorium, commitment to NDPE, HCV/HCSA and soli survey. ADM has reached out to direct supplier to request evidence on the implementation of such claims , to keep monitoring for evidence of solved land conflicts with local communities and to suspend sourcing from PT Risman Scham Palm. 6-Apr-2022:PHG engaged with Mentari Group, seeking clarification. 5- Apr-2022:Permata Hijau Group grievance website received information that PT. Alamsari Lestari, owned by Mentari Group, was allegedly involved in clearing 6 hectares of peat forest and developing 45 hectares of peatland in January and February 2022.	3. Suspended	8-Oct-25
318	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation in PT Graha Agro Nusantara (KPN Group)	Mighty Earth	Rapid Response Report 50	23-Sep-2025: Supplier provided clarification regarding the detected land-clearing activity. It was explained that, prior to the publication of MERR 50, the activity had been identified during their annual monitoring in May 2024. The following actions were taken in response: - Uprooting palm plantations - Restoring damaged areas and replanting with natural seedlings - Updating and creating new oversight procedures, including land cover change monitoring - Re-socializing procedures to unit management - Monitoring land cover changes regularly	2. Monitoring	23-Sep-25
131	Bumitama Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Damai Agro Sejahtera	Mighty Earth	Rapid Response Report 22, 23, 26, 27, 50	23-Sep-2025: The company has issued an official statement regarding the report (Aug 2025 and Sept 2025). Grievance status was updated to Monitoring. ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT DAS patrols recorded illegal logging activity in the area prior to the incident. The illegal activity has been reported to the police. In addition, the area was also impacted by forest fires in the dry season of 2019. Bumitama has an NDPE and is an RSPO member. The official response can be found here: http://ir.bumitama-agri.com/static-files/f3999275-46d9-466b-b656-53d7dcfe985a PT DAS has conducted a land-use change analysis after allegations, but no land clearing was discovered. Our supplier also verified that there has been no recent deforestation in PT DAS: https://bit.ly/3cVs01U	2. Monitoring	23-Sep-25
102	Kwantas Corporation	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - Miracle Harvest Sdn Bhd	Mighty Earth	Rapid Response Report 20, 21, 29	12-Aug-2025: The case is still under active investigation, and ADM has been diligently monitoring the direct supplier. 13-Nov-2024: Kwantas Corporation Group, through Miracle Harvest, has committed to NDPE since 2018. However, we cannot access their website for updates on corrective actions. Few buyers provide information on this case, and there is no available data regarding Kwantas Corporation's recovery or NDPE re-entry actions. 30-Nov-2019: ADM reached out to direct supplier for investigation. ADM is requesting information to our direct supplier to clarify the situation.	1. Under Investigation	12-Aug-25

278	AAK/AarhusKarlshamn AB	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: -Tesso Nilo Mills	Upfield / Sveriges Natur		12-Aug-2025: The case is still under active investigation, and ADM has been diligently monitoring the direct supplier. Oct-2024: We are collaborating with our Tier 1 suppliers to develop action plans addressing the report's outcomes. ADM reached out to its supplier for investigation. Our direct supplier provided information on the allegations first raised in 2018. Sveriges Natur's reported a list of 20 mills that extract oil from illegally-grown palm fruit inside Tesso Nilo, which is then shipped to customers worldwide. According to the report each mill supplies palm oil to a slew of international businesses, including AAK. Our direct supplier has confirmed that they don't source directly from Tesso Nilo landscape. In 2018, all mills committed to either blacklisting or strengthening monitoring against trucks and dealers in the report. In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas.They have commitments and SOPs against sourcing from illegal concessions in the landscape and will socialize them again with suppliers. In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas. (July 2018) Our trading partners confirmed they do not source from the Tesso Nilo park and the surrounding National parks. Supplying mills to our trading partners (mills mentioned in the EOF report) have been visited by our trading partners and are undergoing the ART transformation program as well as a traceability to plantation program. Our direct supplier initiated dialogues with suppliers after receiving the report, clarifying that they do not directly purchase Fresh Fruit Bunches (FFB) from the mentioned area. They expect their crude palm oil suppliers to comply with their Sustainability Policy. Field audits will be conducted, and a corrective action plan will be developed based on the findings. Our direct supplier attended multi-stakeholder meetings to discuss the establishment of a task force to address illegal farming in the park.	1. Under Investigation	6-Aug-25
165	Palm - 129 entries as listed in the report	PalmOil - N/A - Indirect	Environment and/or Human Rights - Multiple	Reports of land disputes, environmental infractions, human rights violations, corruption, and deforestation	Global Witness		04-Jun-2025: The case Erasakti Wiraforestama (EWF) has been closed as the allegation could not be substantiated. The Department of Manpower and Transmigration in Jambi Province, Indonesia, conducted a field investigation and found no evidence of child labor at the plantation. 13-Nov-24: Most cases were closed following the investigation. Some remain under investigation. - PT Medco Papua Hijau Selaras : Capitol Group still has unresolved NDPE liabilities, notably from PT Medco Papua Hijau Selaras (MPHS). PT MPHS's HCV status is marked as withdrawn on the HCVRN site, and no updates on recovery plans or NDPE re-entry are available. - PT Erasakti Wiraforestama (Muaro Jambi) : Based on the information available from other grievance dashboard, the child labor issue involving PT Erasakti Wiraforestama (EWF) has reportedly been resolved, yet KTN remains without an NDPE commitment and still has unresolved liabilities. Without a company website, detailed progress on recovery and re-entry actions remains inaccessible. - PT Bumi Sawit Kencana : Capitol Group still has unresolved NDPE liabilities, notably from PT Medco Papua Hijau Selaras (MPHS). PT MPHS's HCV status is marked as withdrawn on the HCVRN site, and no updates on recovery plans or NDPE re-entry are available. - PT Anugerah Langkat Makmur: Based on our database, the liability for this group/company remains unresolved, and no specific updates are available regarding the progress of the given labor issue. - PT Delima Makmur- Based on our database, the liability for this group/company remains unresolved, and no specific updates are available regarding the progress of the given labor issue. 07-Jan-2021: ADM has launched an investigation into the 129 listed cases provided by Global Witness. ADM reached out to its direct supplier for investigation and is requesting information to clarify the situations. Each case will be investigated and published in this grievance register as per grievance protocol. Currently, 26 cases remain under investigation.	1. Under Investigation	4-Jun-25
295	Del Monte Kenya	Pineapple - Kenya - Direct	Human Rights - Working Conditions	Accusations of violence by supplier's security guards on the pineapple plantations in Kenya	Refresco Beverages UK	https://www.theguardian.com/world/2024/feb/08/del-monte-kenya-representatives-accused-of-seeking-to-cover-up-circumstances-of-mens-deaths https://www.theguardian.com/world/2024/mar/15/i-saw-many-people-suffer-former-del-monte-kenya-guards-speak-of-violence-on-pineapple-farm	03-Jun-2025: ADM re-engaged with Del Monte and received the latest updates on the completion of the detailed action plan as of June 2025. Del Monte reported that significant progress has been achieved. 21-Aug-2024: ADM engaged with Del Monte again and obtained the latest updates on completion of the action plan from July 2024. Significant progress have been declared achieved. For example, the progress report indicates that security services at the plantation have been outsourced. July-2024: Previously to the case being reported in the press, Del Monte has been assessed in context of the ADM Supply Chain Due Diligence program. Risk assessment resulted in High Risk exposure categorization. According to ADM supply chain due diligence process, ADM requested from Del Monte Kenyan a SEDEX SMETA 4-pilars audit. Del Monte Kenya shared their latest audit that was published in January 2023. The audit does not bring critical non-compliances. In the audit, there is non mentions related to accusations of violence by security guards of plantation. As one of our customer raised a grievance in February 2024, ADM engaged with Del Monte to investigate about the situation and collect additional information. Del Monte informed us that an action plan for Del Monte Kenya has been written and is being implemented in partnership with a local partner.	2. Monitoring	3-Jun-25

18	Tabung Haji Plantations (TH Plantations)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: -PT Persada Kencana Prima	Mighty Earth	Rapid Response Report 5	29-Apr-2025: Following engagement with our partners, as well as a thorough historical analysis and documentation review, ADM has decided to waive all recorded liabilities for TH Plantations in Jerantut, Pahang, Malaysia. This decision is based on the determination that the concession in Pahang does not appear to have been developed for oil palm cultivation. In addition, we acknowledge the ongoing recovery efforts of approximately 5,000 hectares in the Gunung Arong Forest Reserve, which are being carried out by TH Plantations in collaboration with GEC. We recognize this initiative as a form of corrective action in response to their past liabilities. Our supplier began the engagement process with this company in 2016. Through our direct supplier’s monitoring, it was detected land use change at PT PKP in early July 2018. THP clarified that the area was originally cleared several years ago but was not planted due to operational constraints. THP claimed that the land use change detected is due the re-stacking of area now that planting is resuming. In the meantime, PT PKP continues to uphold their commitment to cease all activities on the ground. ADM is monitoring the progress through direct suppliers and public communications.	2. Monitoring	29-Apr-25
145	TH Plantations Bhd	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth	Rapid Response Report 14, 23, 27	22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoringthe supplier. Based on our engagement with partners, and following a historical analysis and review of documents provided by them, we have agreed to drop all recorded liabilities for TH Plantations in Jerantut, Pahang, Malaysia, as the concession in Pahang does not appear to have been planted with oil palm. In addition, we acknowledge the ongoing recovery efforts of approximately 5,000 hectares in the Gunung Arong Forest Reserve, which are being carried out by TH Plantations in collaboration with GEC. We recognize this initiative as a form of corrective action in response to their past liabilities. 2-Jun-2020: ADM reached out to direct supplier for investigation. Our direct supplier informed us that the area in question is outside of Hdroflow's concession, which was verified by a third-party. In addition, a stop work order was put in place at for Hydroflow's operations since September 2018.	2. Monitoring	22-Apr-25
133	Fangiono Agro Plantation	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Tirta Madu Sawit Jaya	Mighty Earth	Rapid Response Report 22, 24, 25, 27	22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring supplier. 29-Jun-2020: ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question is outside of PT Tirta Madu Sawit Jaya's concession boundary.	2. Monitoring	22-Apr-25
75	TH Plantations Bhd	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of peat development in the following concessions: - TH Pelata Meludam Sdn Bhd	Mighty Earth	Rapid Response Report 18	22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring supplier. Based on our engagement with partners, and following a historical analysis and review of documents provided by them, we have agreed to drop all recorded liabilities for TH Plantations in Jerantut, Pahang, Malaysia, as the concession in Pahang does not appear to have been planted with oil palm. In addition, we acknowledge the ongoing recovery efforts of approximately 5,000 hectares in the Gunung Arong Forest Reserve, which are being carried out by TH Plantations in collaboration with GEC. We recognize this initiative as a form of corrective action in response to their past liabilities. 29-Jun-2020: ADM reached out to direct supplier for investigation. Our direct supplier informed us that the land clearing was not conducted by TH Pelata Meludam Sdn Bhd. It happened outside of their concession.	2. Monitoring	22-Apr-25
37	TH Plantations Bhd	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - Ladang Tabung Haji	Mighty Earth	Rapid Response Report 15, 18, 20	22-Apr-2025: Status of the grievance was changed from Closed to Monitoring, consultant is monitoring the supplier. Based on our engagement with partners, and following a historical analysis and review of documents provided by them, we have agreed to drop all recorded liabilities for TH Plantations in Jerantut, Pahang, Malaysia, as the concession in Pahang does not appear to have been planted with oil palm. In addition, we acknowledge the ongoing recovery efforts of approximately 5,000 hectares in the Gunung Arong Forest Reserve, which are being carried out by TH Plantations in collaboration with GEC. We recognize this initiative as a form of corrective action in response to their past liabilities. 28-Jan-2022: Our direct supplier informed us that the concession Ladang Tabung Haji doesn’t belong to TH Plantation Berhad since 2002 after it was divested to a non-related party.	2. 292	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Report of deforestation related to soy supply chain in Maranhão and Bahia	Aid Environment	https://aidenvironment.org/publications/realtime-deforestation-monitoring-report-rdm-21-june-2024/	11-Apr-2025: In July 2024, ADM received the 21 st Realtime Deforestation Monitoring report (RDM 21) including nine case studies linking deforestation and fire events to the soy supply chains in Brazil's Cerrado, Pantanal and Amazon biomes. An investigation was carried out into the producers and areas reported to verify whether they were part of the South American supply chain. It was found that of the nine cases listed, two farms were part of ADM's supply chain in Brazil for the 2023/2024 harvest. Environmental regularization guidance was provided to those involved.	4. Closed	11-Apr-25
272	ADM	Soybean - Brazil - Indirect	Environment - Deforestation & Conversion	Reports of fire events for soy and cattle	Aid Environment	Realtime Deforestation Monitoring- soy and cattle supply chains #8 https://aidenvironment.org/wp-content/uploads/2023/01/LIFE_RDM_Report_8_Dec_2022.pdf	11-Apr-2025: In Realtime Deforestation Monitoring - soy and cattle supply chains #8, we received a case involving the Gameleira III farm in the municipality of Confresa/MT, which has more than 8,342 hectares of land embargoed by IBAMA (Brazilian Institute of Environment and Renewable Natural Resources), for initiating a process of deforestation of native vegetation. An investigation of the three producers involved in the case found that only one of them was part of ADM's supply chain in Brazil, specifically in the 2023 and 2024 harvests. Despite the environmental embargo on the area, an analysis of satellite images for the 2024/2025 harvest showed that there was no continuation of the illegal activity, and agricultural management was not carried out in the areas indicated in the report. All producers involved have formal blocks in our purchasing systems, for socio-environmental analysis before any commercial movement.	4. Closed	11-Apr-25

269	Group of SOY farmers/growers in Paraguay	Soybean - Paraguay - Indirect	Human Rights - Land Dispute	Reports of alleged social conflicts between indigenous communities/agrarian reform settlements and SOY farmers	Global Witness		11-Apr-2025: On August 26th, ADM received from Global Witness an e-mail contact requesting explanation on (7) alleged cases of social conflicts between indigenous communities/agrarian reform settlements and SOY farmers who could be link to ADM in different locations in Paraguay.ndigenous related conflicts: Huguá Po’i Loma Piro’y Campo Agua’e Ka’a Poty Colonia Yeruti Agrarian reform settlements conflicts. All suppliers were engaged and interviewed. Interviewees denied the accusations of illegal use of agrochemicals, illegal land grabbing, using violent forced evictions and/or the destruction of community housing and property. Besides the traceability verification, documents and other evidences were presented to ratify the statements. Some did admit that there is tension with local neighboring communities, something also reported by the local media. The lack of VAT contribution to the Paraguayan treasury in FYs 2020 and 2021, mentioned in sections 8(f) and 8(g) of the Global Witness report, is explained by the fact that such contributions are measured as a result of sales in the domestic market of Paraguay that are taxed by VAT. The main activity of ADM Paraguay is the export of commodities, which, like all other exports, is VAT exempt, so it is only natural, under Paraguayan tax system, that no taxpayer whose main sales are made to the international market through exports make any VAT contribution at all.	4. Closed	11-Apr-25
316	Jalan Abesin Group (PT SSS)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing	Mighty Earth	Rapid Response Report 48	11-Mar-2025: Investigation revealed that allegations are connected to Musirawas company, but not to Jalan Abesin Group. 150	KTS	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - Wawasan Sedar Sdn Bhd	Mighty Earth	Rapid Response Report 25	6-Jan-2025: ADM is currently monitoring the supplier. Via its direct suppliers, ADM obtained a commitment of KTS to comply with NDPE principles. 2023: Supplier was supended as deforestation continued with 248 ha of forest/peat cleared. This activity was carried out by KTS PELITA (Simunjan) Sdn Bhd and Wawasan Sedar Sdn Bhd. 2016-2022: the total liability of Wawasan Sedar was 532 ha. This liability is for first Binary Plantation (Kuching) Sdn Bhd, KTS PELITA (Simunjan) Sdn Bhd, and Wawasan Sedar Sdn Bhd. ADM reached out to direct supplier for investigation. ADM is requesting information to our direct supplier to clarify the situation.	2. Monitoring	6-Jan-25
277	NaturAceites	PalmOil - Guatemala - Indirect	Human Rights - Working Conditions	Allegations with respect to human rights	Christliche Initiative Romero e.V.		14-Nov-2024: According to the NDP monitoring database, Naturaceites currently shows no liability. However, social issues, such as land disputes and worker-related conflicts, have intensified tensions with local communities. Recently, Control Union suspended both of its RSPO P&C certificates. Naturaceites has since appealed, submitting the case to the RSPO complaint panel, which is now under investigation. Based on the latest information, since the appeal is ongoing, we have updated the status to "Monitoring" until a final verdict is issued. 23-Dec-2023: ADM reached out to its supplier for investigation. Our direct supplier provided an official statement by NaturAceites on the allegations raised in February 27, 2023 towards violations to the land rights of the Maya. NaturAceites strongly ratifies its non-involvement or influence in this situation. ADM will continue to monitor the case.	2. Monitoring	14-Nov-24
199	Tayan Bukit Sawit	PalmOil - Indonesia - Indirect	Environment and/or Human Rights - Multiple	Tayan Bukit Sawit - Suspected licensing violations	Global Witness		13-Nov-2024: According to our liability data, PT Tayan Bukit Sawit has no recorded liability. However, the company lacks NDPE, RSPO, and ISPO commitments, and there is limited available information on social issues. Notably, unresolved partnership issues persist, with local cooperatives in Sanggau demanding a 20% revenue share as per regulations. ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they are currently engaging with TBS and awaiting a response. ADM will continue to monitor the case.	2. Monitoring	13-Nov-24

Instead, as an RSPO-member, GAR will follow the RSPO Remediation and Compensation Procedure (RaCP) to address any past deforestation by the acquired companies and also to comply with the RSPO P&C. Following extensive engagement with our partners, as well as a thorough historical analysis and documentation review, ADM has decided to waive all recorded liabilities for TH Plantations in Jerantut, Pahang, Malaysia. This decision is based on the determination that the concession in Pahang does not appear to have been developed for oil palm cultivation.	2. Monitoring	7-Nov-24
129	Triputra Agro Persada	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the Triputra Agro Persada, company: Dwiwira Lestari Jaya.	Mighty Earth	Rapid Response 12	07-Nov-2024: ADM reached out to direct supplier for investigation. ADM obtained clairification from its direct supplier. Those information are available on GAR Internal Monitoring website. 30-Aug-2021: TAP updated GAR that PT BBB's revised map was already sent to the RSPO and it was received by the RSPO Membership Executive. TAP also provided GAR with a copy of the receipt dated 23/8/2021 as evidence. Given the evidence, GAR has decided to close this case. 11-May-2021: Given the publication of TAP's NDPE commitment, the completion of PT DLJ peer review, the satisfactory clarification for the allegations, and no more deforestation indication detected, we have closed these cases. 6-Jul-2021: PT BBB shared the results of the ground-truthing at the location. It was verified that the clearance mentioned in the Rapid Response Report 34 is outside the PT BBB concession boundary (using HGU as reference). Based on the ground-truthing, the cleared area is controlled by the local community and was previously a rubber plantation. 14-Dec-2020: in addition to its RSPO commitment, Triputra Agro Persada publicly published NDPE policy at group level.	4. 286	ADM	Soybean - Brazil - Indirect	Environment - Deforestation & Conversion	Report of deforestation related to soy	Aid Environment		In May 2024, ADM received the 20 th Realtime Deforestation Monitoring (RDM 20) report including nine case studies linking deforestation and fire events to the soy and cattle supply chains in Brazil's Cerrado, Pantanal and Amazon biomes.	4. Closed	8-Jul-24
285	SLC Agricola	Cotton - Brazil - Direct	Environment and/or Human Rights - Multiple	Reports of human rights and environmental violations	Earthright		ADM engaged with SLC Agricola who is an active supplier of ADM to have additional information regarding a report publicly available in the media by an NGO with alleged Human Rights and environmental issues linked to farms operated by SLC Agricola. In less than 24 hours, SLC responded with documents and evidence which were also publicly available and accessible to the general public in different medias. All areas in operation have been legally cleared under the Brazilian Forest Code legislation and have the proper licenses. Regarding the area in the Capão Modesto region in Bahia, which the Report claims to have a land dispute, SLC explained that they have a land lease of a farm where they plant cotton which has its legal reserve allocated in a different property/area located 40km away from where they operate (as the Forest code from the country legislation allows). The NGO Report claims that this area, where the legal reserve is allocated, is linked to human rights conflicts as there is a dispute on property rights. SLC presented the documents of the land titles and licenses of the land in dispute, demonstrating who is the rightful owner of the land. About the deforestation accusation of over 1000 hectares in Fazenda Palmares, the company presented evidence that this area of native vegetation, which was never - and still is not - in production, was affected by a natural fire in 2022, something common in the dry season in the Cerrado biome. They have presented documents showing that this unintentional fire, which was fought and controlled by them, was reported to the local environmental authorities. Furthermore, the company has shown that the area is recovering its original native vegetation and is not being used for agricultural purposes.	4. Closed	8-Jul-24
283	Prison Labor in U.S Supply Chains	N/A - United States of America - Direct	Human Rights - Working Conditions	Reports of elevated risk for human rights violations	Associated Press	https://apnews.com/article/prison-to-plate-inmate-labor-investigation-c6f0eb4747963283316e494eadf08c4e	8-Jul-2024: ADM received an inquiry from the Associated Press. The reporter noted elevated risks for human rights violations in various U.S supply chains linked to prison labor. ADM began looking into its supply chains for instances of violations to its Human Rights Policy. ADM has identified a direct supplier who has not been able to provide sufficient documentation to confirm all conditions specified by the ILO for voluntary prison labor have been satisfied. Until such evidence is provided, ADM has ceased doing business.	4. Closed	8-Jul-24
282	Prison Labor in Southeast U.S Peanut Supply Chain	Peanut - United States of America - Indirect	Human Rights - Working Conditions	Reports of elevated risk for human rights violations	Associated Press	https://apnews.com/article/prison-to-plate-inmate-labor-investigation-c6f0eb4747963283316e494eadf08c4e	8-Jul-2024: ADM received an inquiry from the Associated Press. The reporter linked prison labor to ADM's subsidiary, Golden Peanut. ADM communicated to the AP and its customers that our policies explicitly prohibit forced labor of any kind in our operations and supply chains. The supplier in question is indirectly linked to Golden Peanut through a 3rd party commissioned agent. The supplier has not been able to provide sufficient documentation to confirm all conditions specified by the ILO for voluntary prison labor have been satisfied. ADM has communicated to our direct supplier that we are unable to accept grain from the prison until such evidence is provided.	4. Closed	8-Jul-24
290	ADM	Soybean - Brazil - Indirect	Human Rights - Land Dispute	Soy supply chain issue: Sourcing grains indirectly grown illegally on Indigenous territory in South of Brazil	Reuters		ADM engaged with suppliers mentioned and both confirmed there was no commercial relationship or soy sourced from the areas mentioned in the report we received. It is important to note that those two areas are on a process to "officially" become Indigenous Reservations under local legislation, so there are still private areas farming soy legally today within the boundaries of the area that eventually may become an Indigenous Reservation. The COOPs have an extensive network of country elevators spread throughout the state. 1 COOP has a country elevator close to these 2 areas.	4. Closed	12-Jun-24
210	Sime Darby	PalmOil - Malaysia - Direct	Human Rights - Working Conditions	Reports of human rights violations	U.S. Customs and Border Protection		ADM reached out to direct supplier for investigation. Sime Darby (SD) is in the process of clarifying with the U.S. Customs and Border Protection (CBP) what the exact allegations against them are in order to be able to rectify what has caused the implementation of the Withhold Release Order (WRO). SD has openly engaged with the CBP and Liberty Shared, the issuers of the petition to the CBP, and provided a list of their existing practices in relation to the areas of concern outlined in the petition: https://bit.ly/3ogrxbwq SD has been reporting on the progress of its Human Rights and Labor Program for a number of years: https://bit.ly/3Mmh5jO PwC was appointed to strengthen SD's human rights compliance. In order to maintain its RSPO certification, SD must also undergo annual third party audits, which include stringent requirements on labor practices. The latest audit findings of the RSPO did not generate any red flags against SD. However, the RSPO will also conduct an investigation: https://bit.ly/39wX1wB SD appointed Impactt Ltd. to conduct a third party labor assessment of their Malaysian plantations. The outcome of this assessment and the resulting corrective action plan to address issues found shall be a key step towards lifting the CBP's WRO.	4. Closed	17-Apr-24
189	Sumber Jaya Indahnusa	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Kota Terгах - Land dispute, indigenous persons affected	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that land compensation for the community has been carried out. The HGU permit expires in 2021, our direct supplier recommends that 500 ha of land claimed by the Malay community be used as plasma as a conflict resolution effort, even though the company had previously provided plasma with an area of approximately 5000 ha. The company wants to maintain the 500 ha because the land is in the HGU which will be extended. Therefore our direct supplier also suggests that SJJ identify the history of land ownership of 500 ha when it was first obtained and identification of Malay tribes about their relationship with the original owner of the land (from which tribe, is it recognized by the district / provincial customary institutions) and conduct participatory CSR (social) programme analysis with communities affected by company activities.	4. 185	Garuda Food/ Garuda Bumi Perkasa	N/A - Indonesia - Indirect	Human Rights - Land Dispute	Garuda Bumi Perkasa - Land dispute, waste dumping	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed. The main problem that has emerged in publicly reported information (which has been confirmed) is complaints from residents regarding environmental issues. Tracing results with stakeholders indicated that the main problem was poor social relations with the village head, who played a role in the Mesuji area. The mill has fixed the problem and currently relations with the community are quite good.	4. Closed	17-Apr-24
179	Bengkulu Sawit Lestari	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Bengkulu Sawit Lestari - Land dispute, waste dumping	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. The land dispute is being verified in the field. The location permit has indeed expired, but it has no impact on operations because they already have an IUPB. A location permit is only a preliminary permit from the regional government to initiate the compensation process. Currently in the verification process with the village head and local community leaders. The audit team is still on the plantation. So the results of the investigation are not final. Our direct supplier also informed us that the news on waste was incorrect. Based on the Decree of the Minister of Environment and Forestry no SK.696 / Menlhk / Setjen / Kum.1 / 12/2017 dated 15 December 2017, the results of the performance improvement assessment (Proper) program have been issued and PT. BSL gets the blue proper. PT BSL mill is a is used as a pilot in South Bengkulu regarding waste management. After the news appeared in the newspaper, the BSL team contacted the local environmental agency. The results of the examination found that the upstream and downstream river water in the waste storage outlet was in line with the standard.	4. Closed	17-Apr-24
115	PT.Socfindo	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network		ADM conducted a risk analysis of its mill list using the Global Forest Watch Pro Palm Risk Analysis Tool. 39	Ta Ann Group	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - Ladang Selezu Sdn Bhd	Mighty Earth	Rapid Response Report 15	Our supplier is investigating the allegation and a field verification on the deforestation allegation in the week of 23rd July. Moratorium of land clearing has been put in place while investigation is ongoing. A field assessment was done by the supplier's team and it was verified that clearing activities were done outside the concession boundries of Ladang Selezu. Ta Ann Group is suspended due to unresolved case.	3. Suspended	31-Jan-24
281	First Resources	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation claiming connection Fangiono Agro Plantation (FAP) Agri, New Borneo and Clandry Anky Abadi (CAA)	The Gecko Project		Based on an investigation carried out, its was confirmed that First resources, CAA, FAP and New Borneo are separate entities. First Resources mentioned that FAP Agri is a separated entity but one of First Resources suppliers. FAP Agri has been demonstrating good commitment to sustainability with HCV Assessment and compliance with First-Resources' NDPE policy. First Resources claimed that it operates respectfully of its NDPE policy and RSPO is an additional proof of non-deforestation.	4. Closed	31-Jan-24
241	Sumber Tani Agung Tbk	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	The company is sourcing from PT Sawit Sukses Sejati, who allegedly violates NDPE policies	Mighty Earth	Rapid Response Report 39	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Sawit Sukses Sejati (SSS) used to supply FFB to their supplier, PT Sumber Tani Agung (STA) but they are no longer a consistent supplier to PT STA after they built their own mill in 2022. There were some ad hoc FFB delivery to STA in 2022 when PT SSS's mill running into operational issues. When the allegation of deforestation on PT SSS was brought to PT STA's attention, PT STA has immediately shared the Rapid Response report 39 with PT SSS for investigation. In the meantime, PT STA has ceased sourcing from PT SSS. PT Teguhkarsa Wanalestari, PT Asia Sawit Lestari and PT Prima Mas lestari have denied to be associated or buying from PT SSS. It was found that ADM is linked to Sikarakara mill. Sikarakara mill, PT Rimba Mujur Mahkota/Pasifik Agro Sentosa was allegedly sourcing from PT SSS. Sikarakara mill/PT Rimba Mujur Mahkota/Pasifik Agro Sentosa group have confirmed that PT SSS is no longer in their supply chain (last purchase was in January 2022).	4. Closed	29-Dec-23
240	Jernih Kemboja	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concession: - PTD 1815	Mighty Earth	Rapid Response Report 38, 40	ADM reached out to its direct supplier for investigation. ADM is requesting information from direct supplier to clarify the situation. Effective March 31, 2022, our direct supplier suspend Jernih Kemboja Sdn. Bhd from its supply chain following evidence of deforestation in Malaysia obtained via satellite imagery. Our direct suppliers began an engagement process with Jernih Kemboja Sdn. Bhd to support their efforts that meet our policies standards. Sep-22:Concluded investigations have confirmed that there is non-compliance to the No Deforestation commitment in the NDPE Policy. Therefore, our direct suppliers have stop purchasing. from Jernih Kemboja from September-22 onwards and will continue engaging with them to meet the requirements in their re-entry criteria. Our direct supplier has also updated and registered this case on their public grievance log. 109	PT. Perkebunan Lembah Bakti I	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network		ADM reached out to direct supplier for investigation. Our direct supplier informed us that they have sent a letter to them to make sure they are aware of the issue and ask for actions taken/planned especially on their traceability progress. Sep-21: Perkebunan Lembah Bhakti I & II have reached 100% TTP https://www.astra-agro.co.id/en/traceability-4/ . Our direct supplier has stated that they are no longer buying from PT Laot Bangko and PT Indo Sawit Perkasa which are deforesting inside the Leuser Ecosystem.	4. Closed	29-Nov-22
268	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of land clearing for soy and cattle	Aid Environment	Realtime Deforestation Monitoring- soy and cattle supply chains #5	In September, ADM received from Aid Environment the report Realtime Deforestation Monitoring- soy and cattle supply chains #5 by e-mail contact requesting explanation on (7) alleged cases of land clearing for soy and cattle who could be link to ADM in different locations in Bahia - Brazil. Among the 7 farms, ADM made recent negotiations with two of them. The areas were opened after planting soybeans in the 2021/2022 crop, so ADM do not received soybeans from the newly opened area. We have gathered all the necessary documentation to prove the legality of the land conversion of Fazenda Santa Maria. We are waiting for the documentation of Fazenda Indiana, future negotiations were suspended until the presentation of the necessary documentation to validate the legality of the land conversion.	4. Closed	20-Nov-22
221	Triputra Agro Persada	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - PT Brahma Binabakti	Mighty Earth	Rapid Response Report 34	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that the area in question is outside of PT BB's concession area. Based on ground-truthing, the field belongs to the local community and used to be a rubber plantation. According to our direct supplier, they do not source directly from PT brahma Binabakti. Please see the verification report: https://bit.ly/3qONoOi TAP's internal policy is to not share HGU boundaries, but since they are RSPO members, they sent a revised map to the RSPO Membership Executive, and also provided our direct supplier with a copy of the receipt date on August 23, 2021. The map on the geoRSPO website will corrected. Given the evidence, GAR has decided to close this case.	4. Closed	2-Aug-22
242	Eagle High Plantations Tbk	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Khatulistiwa Agro Abadi / First Borneo Group	Mighty Earth	Rapid Response 40	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT AUS is still listed in the EHP's latest Consolidated Financial Statements as receivables and payables due to the absence of an 'offset' agreement. However, EHP confirmed that their CPO purchase contract with PT AUS ended in Sep 2018 and EHP have not sold FFB to PT AUS since 9 Dec 2019 and PT AUS is on their no purchase list. Since then, EHP have not entered into transactions with PT AUS. The reason why PT AUS appears on PT EHP's annual report/ financial statement is because they still have a debt to PT EHP for their previous business transaction before 2019 and that debt is not fully paid. PT AUS and PT EHP have yet reached an agreement on the debt payment; hence, we will still foresee PT AUS being mentioned in the financial report until this issue is resolved.	4. Closed	1-Aug-22
105	PT. Global Sawit Semesta	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Palm oil grown illegally at the expense of the protected peat forests of Rawa Singkil Wildlife	RAN - Rainforest Action Network		ADM reached out to direct supplier for investigation. Our direct supplier informed us that he is engaging with the PT GSS and a field verification visit has occurred. PT GSS has layed out action plan. A sustainability officer and GIS expert have been hired to conduct traceability to plantation work. Based on the results from the verification visit, PT GSS is implmenting its action plan to verify their processes to ensure raw material is procued from compliant sources. Another visit to PT GSS is planned by our direct supplier. The report can be found here: http://bit.ly/2E4moTr .An action plan was been developed between direct supplier and GSS. It includes mapping of high-risk areas, which is to be shared with all FFB suppliers, request all FFB suppliers to commit to sourcing only from non-protected areas, stop FFB purchase from suppliers without a signed commitment letter, suppliers should commit to sourcing from no exploitation, respecting land rights and document traceability of FFB suppliers shed. Action plan will be monitor by direct supplier. An NDPE policy has been signed and TTP at 100%.	4. Closed	1-Aug-22

212	Bunga	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth	Rapid Response Report 32	ADM reached out to direct supplier for investigation. ADM is requesting information to our direct supplier to clarify the situation. Our direct supplier informed us that Bunga has been engaged with and have adopted a group NDPE policy as well as a moratorium for any future oil palm plantation development. Bunga mentioned that the purchasing agreement stated that the land was suitable for planting and contained only shrubs. Bunga group has confirmed that there was no clearing of any primary or secondary forest in the concession in question. ADM will continue to monitor this case. Bunga Group has a commitment to the development of a recovery plan for non-compliant land clearing to the NDPE policy at group level. ADM considers this case closed.	4. Closed	26-May-22
182	Campang Tiga	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Campang Tiga - Land dispute	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. PT Campang Tiga (CT) explained to our direct supplier that the incident was related to a land dispute with another company. The incident was reported to the police. A mediation process was also initiated by the South Sumatera Provincial Government. Our direct supplier requested further information and documents from CT, as well as checking other sources to verify the information. In 2016, our direct supplier met with CT and was told that it is pursuing mediation with the local community. It had also started legal proceedings against the company which is alleged to be involved in the incident. CT will make a public announcement when the verdict is issued by court. ADM continues to monitor the case.	4. Closed	26-May-22
114	PT. Nafasindo	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network		ADM reached out to direct supplier for investigation. Our direct supplier informed us that they have sent a letter to them to make sure they are aware of the issue and ask for actions taken/planned especially on their traceability progress. Nafasindo provided clarification regarding the RAN allegations. It was explained that there was an error due to wrong data issued by the provincial authority (BPN Kanwil Prop Aceh). Nafasindo explained that in 2016, the company acting on the provincial and district governments' letter released 347 hectares of land that had been under its control control as part of the dispute resolution between the communities in 22 villages and the company. ADM considers this case closed.	4. Closed	26-May-22
106	PT. Samudera Sawit Nabati	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Palm oil grown illegally at the expense of the protected peat forests of Rawa Singkil Wildlife Reserve in the Singkil-Bengkung	RAN - Rainforest Action Network		ADM reached out to direct supplier for investigation. Our direct supplier engaged with PT GSS to seek responses to the allegations contained in the RAN report. Furthermore, PT SSN declared that they did not source from CV Buana Indah as mentioned in the RAN report. An on-site field verification of the allegations was conducted. It was found that there are no SOPs in the mill and that TTP was relatively low. An action plans has been laid out by PT SSN in this regard. Based on the results of the verification visit, PT SSN will implement action plans to verify their processes to ensure raw material is procured from compliant sources. A third-party will be commissioned to conduct another visit. The report can be found here: http://bit.ly/2E4moTr PT SNN has verified its achievement of 100% TTP. Our direct supplier has also engaged PT SNN in its supplier program, which has been completed: https://bit.ly/2A0UOYD . ADM considers this case closed.	4. Closed	26-May-22
245	Brazil - Eighteen properties listed in the tracker report	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of land clearing for soy and cattle	Mighty Earth	Rapid Response Soy and Cattle Tracker Report	ADM reached out and engaged with its direct suppliers for investigation. The investigation concluded that there was no volume sourced from areas of deforestation, few suppliers had conversion. Those suppliers with conversion have sent legal land conversion authorizations/licenses, which are in accordance with the local legislation and our No Deforestation Policy. We have decided to discontinue doing business with 1 supplier until he resolves a pending issue.	4. Closed	4-Apr-22

246	Group of SOY farmers/growers in Correntina, Bahia (BRAZIL)	Soybean - Brazil - Direct	Human Rights - Land Dispute	Reports of alleged land tenure issues/social conflicts between traditional local communities and SOY farmers in Correntina, Bahia (Brazil)	Global Witness		On November 3rd, 2021 ADM received from Global Witness an e-mail contact requesting explanations on an alleged case of social conflict between a local traditional community called Capao do Modesto and soy growers who could be linked to ADM in Correntina, Bahia (BRAZIL). Due to Covid-19 restrictions and the short timeframe (6 days) given by GW to respond, all contacts were done over the phone. ADM opened its grievance protocol, conducted a series of individual interviews with the farmers listed in GW's report who are suppliers of ADM, and responded to Global Witness by NOV 9th. Local community members names were not disclosed by GW, making it difficult for ADM to reach out to them. A new Socio-environmental due diligence was redone on all farms under production, including the lands used as offsets which were being disputed. So far the investigation found that: 1) The lands on dispute are more than 150km from the farms from where ADM sources soy - all soy farms are in compliance with the Brazilian Forest Code and the Company's policies. Some of these farms are even certified under sustainable standard schemes. 2)The lands on disputes are owned by the farmers (legal land deeds and environmental permits/licences were provided to ADM). These lands have no farm production, only native vegetation, and serve as offsets of native vegetation (Legal Reserves) to areas under production (150km away) 3) These private areas were being constantly trespassed by 8 local community members who were using theses areas irregularly and in disagreement with the Forest Code. 4) The Farmers/owners went to court to avoid people from trespassing. The case was trialed and farmers won on 3 instances. 5) All supliers interviewed deny having used violence or harrasment against the traditional communities. 6) The investigation concluded that farmers are the legal owners of these lands. That these lands are in compliance with the Brazilian legislation and that the suppliers are in compliance with the Company's policies. No evidences of violent acts/harrasment were found, and all suppliers deny this ever happened.	4. Closed	12-Jan-22
238	Dharma Satya Nusantara Tbk (DSN)	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concession:	Mighty Earth	Rapid Response Report 37	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Kencana Alam Permai (KAP) parent's group, Dharma Satya Nusantara Tbk (DSN) is a member of RSPO since 2008, and all of their land development for palm is bound by RSPO Principles and Criteria. DSN has also made public commitment to NDPE policy (https://bit.ly/32k8M5E) where their last land clearing activities was in 2015. Specifically on the case on PT KAP, our direct supplier has initiated engagement with DSN since October 2021 to seek clarification on deforestation alert detected through their internal monitoring programme. PT KAP has carried out field investigation and confirmed that the clearance was carried out by five local communities for farming, including paddy planting. The area in question has not been surrendered to the company as the local communities are not keen to be involved in oil palm development. Therefore, PT KAP does not have full control over the said area. The outcome of the investigation has also been shared with the head village and endorsed (https://bit.ly/3yMo5k2) by the head village accordingly. PT KAP's official response to the case is available here:	4. Closed	20-Dec-21
237	Musim Mas	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concession: - PT Multipersada Gatramegah	Mighty Earth	Rapid Response Report 37	ADM reached out to its direct suppliers for investigation. Our direct suppliers informed us that area identified in the report is neither HCV nor HCS area. This area has been assessed and covered under the following assessment reports: a) HCV Report of PT Harisa Agro Lestari (https://bit.ly/3EcXZMP) that has obtained satisfactory status (note: the area was part of PT Harisa Agro Lestari, which PT MPG officially acquired on 1st April 2018); b) HCS Report of PT Multipersada Gatramegah in 2018 that has covered the area in question (https://bit.ly/3qa10Uk) which has completed HCSA review process (https://bit.ly/3pe7PVS); c) This area has also undergone the RSPO NPP process (https://bit.ly/3spPEyf). All reports are published and available on HCVRN, HCSA, and RSPO websites, respectively.	4. Closed	20-Dec-21

193	Persada Alam Jaya	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Persada Alam Jaya - Purchasing FFB grown illegally	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. Their development programs for PT PAJ included Collaboration For Transformation (CFT), traceability training, and a special traceability program called Ksatria Sawit (collaboration with our partner Koltiva) PT PAJ reported to our direct supplier that it has achieved 89% TTP for the period of Jan-Jun 2020 and is on track to achieve 100% traceability by end 2020. In April, Persada reported that it has achieved 100% TTP. Considering the progress PT PAJ has made, ADM considers this case closed.	4. Closed	28-Oct-21
148	Capitol Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the	Mighty Earth	Rapid Response Report 25, 26, 27, 28, 29	ADM reached out to direct supplier for investigation. Our direct supplier informed us that HCV/HCS has already been conducted by a qualified assessor, and the company has clarified that their land clearing was guided by the outcome of the assessments. However, some land clearance appears to have occured inside of HCV/HCS areas due to community pressure to develop a plasma smallholders program. PT MPHS has agreed to rehabilitate the identified areas of land clearing in the recent HCV/HCS reports. PT MPHS is working closely with the Indonesian Watershed Monitoring Agency (BPDAS) and has committed to plant 30,000 trees as part of its rehabilitation program. The HCV/HCS report shall be submitted for peer review and a moratorium on any further land clearing has been in place since Q4 2020. An integrated report submitted to HCV Resource Network: https://bit.ly/3bj6163 Management plans for HCV/HCS areas were submitted in the meantime, protecting the areas while preventing similar reoccurrences. Our direct supplier is continuing engagement with and guiding PT MPHS through the peer review process as well as developing a rehabilitation plan.	4. Closed	28-Oct-21
1	Anglo-Eastern Plantations	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Kahayan Agro Plantation	Mighty Earth	Rapid Response Report 1, 14, 15, 18, 19, 20, 24,25,27	ADM reached out to direct supplier for investigation. Our direct supplier informed us that their internal monitoring detected indications of land clearance in KAP concession (4 ha) from May to June 2019. Subsequently, Mighty Earth Rapid Response Report No.18 also mentioned 6 ha land clearing from June 15-July 15 2019 using GLAD Alert coverage. Our direct supplier informed AEP and they answered that they had stopped land clearing activities since the moratorium announcement at the end of May 2019. Our direct supplier checked the exact date of the indication of the land clearing and found AEP's statement was verified. HCSA assessment and peer review has been completed and verified. The HCSA Secretariat and AEP are in the process of discussing further actions. ADM will continue to monitor this process. A moratorium for the disputed area is in place as of May 5, 2020: https://bit.ly/35OrQ9Q PT KAP has sent written confirmation to HCSA about conserving the remaning 150 Ha "disputed HCSA forest" which led HCSA to close the case. The statement can be found here: https://bit.ly/3kt8sbp	4. Closed	28-Oct-21
230	PT Cipta Cakra Murdaya Case 10 in Report	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - PT Hardaya Inti Plantation	Forest Peoples Programme	Demanding accountability	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the case from 2012 was fully settled in 2014 through mediation by regional and provincial governments. PT HIP has clarified that they operate in accordance with all relevant legal permits. The land acquisition process was guided by national legal requirements, where they have provided due compensation for the land. The company has also carried out environmental management and monitoring in accordance with the AMDAL and RPL RKL documents to guide their operational practices. The plantation has also achieved ISPO certification since 2017, reaffirming their sustainability commitments and compliance to the relevant legal framework.	4. Closed	15-Sep-21
229	PT Kurnia Luwuk Sejati	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - PT Kurnia Luwuk Sejati	Forest Peoples Programme	Demanding accountability	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that in 2010 the community held a demonstration regarding PT KLS' business activities on allegedly illegally owned land. During the demonstration there was destruction of property and machinery by the local community. Therefore, law enforcement and authorities were involved to settle the dispute.	4. Closed	15-Sep-21
226	PT SMART tbk (GAR)	PalmOil - Indonesia - Direct	Environment - Deforestation & Conversion	Reports of NDPE violations in the following concessions: - PT Kresna Duta Agrindo	Forest Peoples Programme	Demanding accountability	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that there are no outstanding disputes with the community and KDA. Other issues listed in the report have been addressed and closed. KDA obtains all operational permits necessary, and monitors and audits its environmental impact assessment (AMDAL) requirements every six months. Monthly audits to ensure that requirements set by authorities are complied with are also conducted. Pricing of FFB is conducted using the price of the Indonesian Plantation Department as a reference and open market pricing. Final prices are openly communicated to farmer coops, farmers groups, and agents.	4. Closed	15-Sep-21
224	Bukit Asam	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth	Rapid Response Report 35	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that TP BSP clarified that there was no deforestation taking place as the area was planted with other crops prior converting to palm. Supporting documentation including field verification report and photos have been submitted to prove their claim, where it was found that the vegetation on the ground consists of mixture of other crops, which is mostly rubber and coffee. To ensure that their activities are aligned with the NDPE requirement, the supplier has also agreed to commit to moratorium. Relevant assessments will have to be carried out prior resuming their land clearing to ensure their compliance to NDPE.	4. Closed	15-Sep-21

200	SIPEF	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Tolan Tiga Indonesia - Land dispute, evictions, criminalisation	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the articles mention a recent demonstration at the premises of PT Tolan Tiga Indonesia. This was a follow up action by Kelompok Tani Bersatu (KTB) over an old claim which has gone through many years of communications and has long settled in court over 10 years ago. To date there have been at least 3 demonstrations, all coinciding with local political elections. Although the issue has been settled legally, a group of farmers under KTB have brought up this issue and utilized demonstrations as a means to communicate to PT Tolan Tiga Indonesia. It was during the most recent demonstration on 13th – 18th July 2020 that two of the KTB members were reported to the police for causing property damage. Based on the witness, video and photographic evidence provided the police have arrested the suspects.	4. Closed	7-Dec-20

HAL is located in the APL area covering 4,690 hectares and in the Production Forest Area covering an area of 1,310 hectares. The part of the land that is included in the Production Forest area is not cultivated.	4. Closed	7-Dec-20
184	Citra Sawit Harum	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Citra Sawit Harum - Land dispute, indigenous persons affected	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that CSH has committed to its NDPE policy: The status of the Citra Harum Sawit SHM land is APL (non-forest estate land) and there used to be community rubber plants, but the area was controlled by the surrounding village community. Citra Harum Sawit stated that in SHM there had never been any conflicts with indigenous peoples, and there were no indigenous people living in SHM. For the surrounding village community, Citra Harum Sawit also recruits them as employees. Our direct supplier also works with local communities to transport FFB.	4. Closed	7-Dec-20
183	Ciptamas Bumi Selaras	PalmOil - Indonesia - Indirect	Human Rights - Land Dispute	Ciptamas Bumi Selaras - Land dispute, waste dumping	Global Witness		ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the Bengkulu Province Horticultural and Plantation Food Crops Office conducted mediation during a meeting on April 4, 2019 which was attended by community representatives from Kulik Sialang Hamlet, PT CBS, Kaur Regency Land Office, POLDA Bengkulu, and the Agriculture Office of Kaur Regency. The results of the meeting are as follows: 1. PT CBS participated in the clarification by facilitating land measurement activities for the people of Kulik Sialang Hamlet around the PT CBS concession area, where part of the land belonging to the Dusun Kulik Sialang community that does not overlap with the PT CBS HGU is immediately processed in the application for certificates and land certificates has been published and submitted to the people of Kulik Sialang Hamlet in 2019. 2. PT CBS asks the people of Dusun Kulik sialang if there is Terasir land in the PT CBS concession area to be able to show a copy of proof of their land ownership for clarification with proof of land ownership held by PT CBS, so if the Terasir land has never been for sale and purchase to PT CBS, PT CBS will conduct an Enclave process on the land. However, until now PT CBS has not received a copy of the proof of land ownership held by the people of Kulik Sialang Hamlet and continues to wait for the results of the community land measurement process carried out by the Kaur Regency land office. 3. Until now, PT CBS periodically provides outreach to the people of Kulik Sialang Hamlet that PT CBS is committed to clamping and not utilizing land and will not clear land in community areas, if anyone is in the HGU area and has never been traded to PT CBS. 4. In addition, PT CBS always maintains good communication and relationships with the community in the PT CBS work area, one of which is Kulik Sialang Hamlet, by implementing CSR programs, where one of them is for Kulik Sialang Hamlet, PT CBS also provides assistance. Ciputra Plantation verbally denied any wrongdoing in terms of waste allegations and stated that there had been visited by the Dinas Lingkungan Hidup who did not find any issues.	4. Closed	7-Dec-20

143	NPC Resource Bhd	PalmOil - Malaysia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions: - PT Sumber Alam Selaras	Mighty Earth	Rapid Response Report 23, 25, 26, 27, 29	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT SAS was affected by fires due to the extreme dry weather conditions in Indonesia. Parts of their current plantations were affected, as well as some conservation areas. Aidenvironment confirms that fires caused this land change, not deforestation. NPC Resources and PT SAS both have no open burning policies and will work on fire prevention methods. They also commit to carry out HCV/HCS assessment, no peat development and FPIC: https://www.npc.com.my/PublicStatement13Sep2018.pdf HCV and HCSA reports have been completed and peer reviewed. NPC is drafting an action plan based on findings and recommendations of the assessments.	4. Closed	29-Jun-20
142	Incasi Raya	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth	Rapid Response Report 23	ADM reached out to direct supplier. Our direct supplier informed us that the concession does not belong to Incasi Raya. PT MAL is located in Kalimantan Barat while the location of the report is in central Kalimantan .	4. 134	Goodhope	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Reports of deforestation in the following concessions: - PT Rim Capital	Mighty Earth	Rapid Response Report 22	ADM reached out to direct supplier for investigation. Our direct supplier informed us they have been in contact with PT Rim Capital, who takes the allegations very serious. PT Rim Capital confirms that one land clearing is outside of their concession and the other occurred during landfires on community-owned areas. This was found out after a team of village heads and community representatives investigated. Local authorities acknowledged the verification and report stating the company did not commit the fires. PT Rim Capital has a NDPE policy in place since May 2017. Please see the below links: Goodhope's official statement can be found here: http://bit.ly/2EhArF2 The field verification report can be found here: http://bit.ly/2LQfXYm http://bit.ly/2PA2STW	4. Appendix

List of ineligible grievances (grievances not linked to ADM supply chain).

ID	Reported Group	Supply Chain (Commodity-Country-Relationship)	Grievance Category	Description of the Grievance	Reported By	Reporting Source	Investigation Updates & Actions Taken by ADM	Status	Last Update
319	Brazil - Three properties listed in the tracker report	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of deforestation linked to soybean production in Brazil	Mighty Earth	Right of Reply - Rapid Response Deforestation Monitoring Program	18-Jul-2026: The complementary investigation concluded that none of the deforestation cases presented in the report is linked to soy ADM has sourced, or in breach of ADM' policies. 13-Nov-2025: ADM has received additional information related to the case, which is currently under review by the sustainability team. As a result, the status of this grievance has been updated to "Under Investigation". 06-Oct-2025: ADM received an email inquiry regarding three properties in Brazil that are suspected of being involved in deforestation for soybean production. Based on the information provided in cases 1 and 3, geospatial analysis of the indicated areas (SNCI: 9500257101563, 9014311006928, 9014310159895, and 9999623580024) reveals that deforestation occurred in the area. However, there was no conversion to agriculture, and the area is currently not being used for grain cultivation. Furthermore, no grain purchase transactions have been conducted from the indicated origination area or with the property owners of the area. For case 2, historical satellite imagery (Sentinel and Landsat) of the indicated and monitored area (SNCI: 6310190087299) shows no evidence of deforestation or land conversion after 2020. The area remains covered with native vegetation, and there are no indications of grain planting for the 2025 harvest.	4. Closed	18-Jul-26
NR18	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Report of deforestation related to soy supply chain in Mato Grosso	Mighty Earth	Mighty Earth/ICV	17-Jun-2026: ADM received by e-mail the Soy-linked deforestation alerts (Mighty Earth/ICV) including 26 case studies linking deforestation and natural ecosystem conversion in the Brazilian Amazon and Cerrado biomes. The investigation concluded that none of the deforestation cases presented in the report is linked to soy ADM has sourced, or in breach of ADM' policies.	4. Closed	3-Jul-26
NR 17	Citadel Investment Corporation	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Nusamas Griya Lestari	Mighty Earth	Rapid Response report 57	03-06-2026: Our direct supplier confirmed that ADM is not linked to this group.	2. Monitoring	3-Jun-26
NR 16	Saraswanti Group	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of land clearing -PT Saraswanti Sawit Makmur	Mighty Earth	Rapid Response Report 56	16-Apr-2026: Not linked to ADM's supply chain, either directly or indirectly.	4. Closed	16-Apr-26
NR 14	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of peatland development in the PT Sepalar Yasa Kartika, PT Wira Usahatama Lestari, PT Antang Sawit Perkasa concession between January 2023 and September 2025	Mighty Earth	Rapid Response report 53	02-Dec-2025: Multi-imagery visual assessments, including water, soil, and vegetation analyses, indicate that the areas previously classified as "peat" are, in fact, mineral soils, seasonal wetlands, or kerangas ecosystems.	4. Closed	2-Dec-25
NR 15	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegations of peatland development in the PT Borneo Sawit Gemilang	Mighty Earth	Rapid Response report 53	02-Dec-2025: The clearing is classified as community clearing, not company-driven.	4. Closed	2-Dec-25
NR 13	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against Rinwood Group, at the Rich Venture Plantation Sdn Bhd concession	Mighty Earth	Rapid Response report 52	03-Nov-2025: ADM has no direct link to this group. We have reviewed the allegations with support from our 3rd party and found that: - The area under LPF/0056 is licensed as a mixed forest plantation (bamboo and timber), not an oil palm concession. - The activities observed were selective logging and land preparation consistent with the forestry permit. - No evidence of oil palm conversion or palm oil supply chain connection was identified	4. Closed	3-Nov-25
NR 10	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Sintang Agro Mandiri (Prima Lestari Investama)	Mighty Earth	Rapid Response report 50	23-Sep-2025: The clearing was in 2012 and conducted by local communities.	4. Closed	23-Sep-25
NR 11	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Cemar Lestari (Global Palm Resources Group)	Mighty Earth	Rapid Response report 50	23-Sep-2025: The clearing was conducted by local communities and not on peatland.	4. Closed	23-Sep-25
NR 12	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Kalimantan Agro Pusaka (Djohan Brothers)	Mighty Earth	Rapid Response report 50	23-Sep-2025: The alert location is outside their HGU (cultivation permit) boundary.	4. Closed	23-Sep-25
NR 7	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Jalin Vaneo (Pasifik Agro Sentosa)	Mighty Earth	Rapid Response report 50	23-Sep-2025: The land clearing occurred in 2016, and based on the HCV/HCS assessment, the area was determined to be neither a High Conservation Value (HCV) area nor a forested area. The Ministry of Environment and Forestry (KLHK) conducted a field verification and confirmed that the site is not classified as peatland. This finding was further corroborated by the Directorate General for Environmental Pollution and Degradation Control (Ditjen PPKL) during their verification in October 2024.	4. Closed	23-Sep-25
NR 8	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Munte Waniq Jaya Perkasa (TSH Resource)	Mighty Earth	Rapid Response report 50	23-Sep-2025: The issue stems from community encroachment due to unclear village boundaries between two villages, Kampung Ponaq and Kampung Muara Tae. Years ago, the land in question had already been compensated to Kampung Ponaq. However, Kampung Muara Tae later laid claim to the same land, leading to disputes and encroachment into the area.	4. Closed	23-Sep-25
NR 9	ADM	PalmOil - Indonesia - Indirect	Environment - Deforestation & Conversion	Allegation of deforestation against PT Lahan Agro Inti Ketapang (Meadows Capital Ltd)	Mighty Earth	Rapid Response report 50	23-Sep-2025: Both mills, Mitra Abadimas Sejahtera (MAS) and Fajar Saudara Kusuma (Sebawi), have ceased sourcing from PT LAIK since 12 Sept 2023 and 19 June 2023, respectively.	4. Closed	23-Sep-25
NR 6	ADM	Cotton - China - Indirect	Human Rights - Working Conditions	Allegation linking ADM to Yihai Kerry over sourcing cottonseed products tied to human rights violations in China	Pulitzer Center	https://pulitzercenter.org/stories/world-sanctioned-xinjiang-cotton-china-turned-it-chicken-feed	19-Sep-2025: Following a thorough assessment of its global supply chains, ADM found no evidence of sourcing cottonseed products for animal nutrition processing from Yihai Kerry.	4. Closed	19-Sep-25

267	Brazil - Twelve properties as listed in the report in municipalities of Bahia and Mato Grosso	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of land clearing for soy and cattle	Mighty Earth	Rapid Response Soy and Cattle Report 1	07-Nov-24: After years of close monitoring the reported properties, ADM has closed the grievance. Nonetheless, we continue to conduct supply chain due diligence to guarantee compliance with legislation and our policies. 13-Jul-19: The investigation concluded that there was no sourcing from the reported deforestation areas. We will closely monitor land use change in the properties listed to make sure they are in compliance with the local legislation and our No Deforestation Policy.	4. Closed	7-Nov-24
296	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Report of deforestation related to soy supply chain in Maranhao and Bahia	Mighty Earth	Rapid Response	In August 2024, ADM received the Rapid Response Soy Report including two case studies linking deforestation and natural ecosystem conversion in the Brazilian Amazon and Cerrado biomes. The investigation concluded that none of the deforestation cases presented in the report is linked to soy ADM has sourced, or in breach of ADM’ policies.	4. Closed	10-Sep-24
287	Wilmar International Ltd	N/A - China - Other	Human Rights - Working Conditions	Allegation pertaining to ADM’s ownership interest in Wilmar	Hunterbrook Media		Hunterbrook Media published a report on May 29, within two hours after their first inquiry from Hunterbrook Selected Research, alleging that Wilmar facilities in Xingjiang may be non-compliant with its policies due to “extensive state-sponsored forced labor policies”. No information or evidence was provided other than location of facilities in Xingjiang. No sourcing from these facilities was attributed to ADM. Both companies are committed to compliance with local laws and regulations protecting workers’ rights. In addition, each company has its own human rights policy that explicitly states forced labor is not allowed in their operations or supply chains, with the policies applying both to the companies and their business affiliates. ADM has reached out to Wilmar for additional information regarding due diligence related to the facilities.	4. Closed	8-Jul-24
291	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of land clearing related to soy	Mighty Earth	Rapid Repose - Soy Report	ADM received a notice from Mighty Earth in February 2024, as a part of their Rapid Repsonse - Soy Report, that a farm located in Mato Grosso State and within 50km of an ADM grain silo had allegedly cleared land and native vegetation in 2023. After investigating, it was determined that this farm does not supply to ADM and the owner was not found to have been a supplier to ADM from any other farms.	4. Closed	26-Feb-24
274	ADM	Soybean - Brazil - Direct	Environment - Deforestation & Conversion	Reports of fire events for and land clearing soy and cattle	Aid Environment	Realtime Deforestation Monitoring- soy and cattle supply chains #12	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report. https://www.fgvholdings.com/wp-content/uploads/2020/03/Background-and-Summary-of-FGV-Action-Plan-2020.pdf	4. Closed	18-May-23
244	ADM	Soybean - Brazil - Indirect	Environment - Deforestation & Conversion	Realtime Deforestation Monitoring- soy and cattle supply chains #3	Aid Environment		ADM did not source soy from any of the farms listed on the report RDM #3 in the crop year 2021/2022. The analyses were made by remote sensing and consultation of our grain purchase systems.	4. Closed	24-Jun-22
270	ADM	Soybean - Brazil - Indirect	Environment - Deforestation & Conversion	Reports of land clearing for soy and cattle	Aid Environment	Realtime Deforestation Monitoring- soy and cattle supply chains #3	In June, 2022, ADM received the Realtime Deforestation Monitoring- soy and cattle supply chains #3. ADM did not source soy from any of the farms listed on the report RDM #3 in the crop 2021/2022. The analyses were made by remote sensing and consultation of our grain purchase systems.	4. Closed	24-Jun-22
166	Not Applicable	N/A - China - Indirect	Human Rights - Working Conditions	Reports of Human Rights Violations in the Xinjiang Uygur Autonomous Region	Bell		ADM investigated any possible links to sourcing from the region in question. There are no direct links, and no identifiable indirect links. The vast majority of ADM’s indirect purchasing process in the APAC region contains a compliance clause/human right clauses. ADM is currently in process of publishing standard indirect purchasing terms and conditions for the APAC region containing a human rights clause.	4. Closed	7-Dec-20
