

Invested in your brand's success

Partnering with ADM unlocks world-class resources and capabilities across our global grain supply chain that deliver a competitive edge.

CUSTOM INGREDIENTS

Increase production efficiency. Reduce production costs.

We're industry leaders in grain sourcing and processing, supplying hundreds of foundational ingredients and custom solutions at our core:

Flours

Starches

Sweeteners

Baking Mixes

With years of industry experience and unparalleled technical expertise, we'll help you develop tailor-made solutions that can:

CUT DOWN
on run times

MINIMIZE
wasted materials

SOLVE
challenges that
affect efficiency
or raise costs

That way, your focus can be meeting your business goals and ensuring consumer satisfaction with winning products.

FLEXIBLE DEMAND FULFILLMENT

Your ingredients
how you need them,
when you need them

With our flexible manufacturing and integrated transportation network, you can ensure your operations continuously run as efficiently as possible.

Globally, we boast:

16 corn
processing plants
with a daily grind capacity of
2.5 million bushels

35 wheat mills
with a daily processing capacity of
800,000 bushels

Allowing us to be **close to**
the crop and supply points
where you need it most.

From farm to ingredient, we provide supply reliability and consistently deliver high-quality products while at the same time helping you:

Keep production on schedule.

Scale the quantity of ingredients,
depending on your goals and needs.

Deliver products exactly when you
need them with flexible scheduling.

ADVANTAGED ASSET NETWORK

Connecting the dots to your final product

We are uniquely positioned to streamline your manufacturing process, connecting you to different points of production and transportation facilities through our integrated supply chain for better strategic planning.

Thanks to our vast transportation network and years of experience in logistical planning, our infrastructure is unmatched.

And with over 100 years of developing our deep market knowledge and robust infrastructure, we've nurtured customer trust by combining expertise across:

Solid grower connections

Globally recognized origination services

World-class logistics and transportation

Strategically located manufacturing footprint and a coordinated supply chain

SUSTAINABLE SOURCING

Achieve your sustainability goals

ADM is your go-to sustainability partner with the commitment, expertise, and scale to create meaningful change. Whether you simply source ingredients or partner more deeply with us on regenerative agriculture, choosing ADM as your supply partner creates an impact that can also help achieve your goals.

The ADM difference

Ambitious environmental goals

Targets across GHG emissions, energy, water, and waste.

Regenerative agriculture leadership

ADM has direct grower connections and experience in scaling programs while expanding our programs across millions of acres around the world.

Supply chain scale

Our vast footprint and extensive climate-smart portfolio, including wheat and corn, provides convenience and consistency.

We take addressing your climate goals seriously and are equipped to help you reduce your supply chain environmental impact and address stakeholder expectations.

Partner with us

Partnering with ADM means you're adding a global leader in nutrition to your team. With over a century of industry expertise armed with innovators, researchers, developers, and more, our mission is to help you bring tomorrow's big ideas into market. We're your partner every step of the way, from initial concept to delivery of the finished product.

Reach out to us today to explore how we can help you optimize your processes and drive growth.
