Astra Agro Lestari	Reports of land disputes and resistance by local citizens in the following concessions: - PT Mamuang (Pangang Kayu) - PT Lestari Tani Telada (PT LTT) - PT Agro Nusa Abadi (PT ANA)	Wahli	Indirect with parent company via third party suppliers/traders.	<p>Our direct supplier has engaged with Astra Agro Lestari on all listed cases and provided us with an update of occurrences. Please see the summary below.</p> <p>PT Mamuang - holds a positive relationship with the local community. They are the legal owners of the land which is shown by the operating permits they hold for the land. Nevertheless, they still engaged and negotiated with the complainants through a mediation process with local authorities. An agreement was not reached and a member of the complainant parties engaged in activities that resulted in conviction of criminal charges. This decision was made by legal authorities and courts.</p> <p>PT LTT - additional information has been requested by PT LTT in order to investigate the unverified alleged land grab. It was clarified by PT LTT that there are no outsourcing activities for its operations. Pricing runs in accordance with the regulation set by the Minister of Agriculture of the Republic of Indonesia.</p> <p>PT ANA - all relevant permits are in place and laws complied with. Community rights are always respected, and land tenure is obtained through processes that include the community and agreement is reached.</p> <p>Our direct supplier has explained that they try and engage with WAAU/RECO in hope of being able to verify allegations and support efforts to identify, develop, and implement resolutions that are accepted by all parties, but so far without success. PKG is also providing our direct supplier with information of the progress update, including PT AAL's engagement with the Conflict Resolution Unit to evaluate their current practices in relation to human rights: <a href="https://bit.ly/3d8K6T6">https://bit.ly/3d8K6T6</a>.</p> <p>Summary provided by PKG: <a href="https://www.wilmar-international.com/doc/default-source/default-document-library/sustainability/grievance/bp-ewective-summary_assessment-by-ecounvartara_-_final.pdf?sfvrsn=4f6b1a0d_2">https://www.wilmar-international.com/doc/default-source/default-document-library/sustainability/grievance/bp-ewective-summary_assessment-by-ecounvartara_-_final.pdf?sfvrsn=4f6b1a0d_2</a></p> <p>PKG will continue to closely monitor developments and continue to report via PKG Palm Grievance Tracker: <a href="https://aia.gdn.com/885949/PKG_PSG_Palm_Grievance_Tracker.pdf">https://aia.gdn.com/885949/PKG_PSG_Palm_Grievance_Tracker.pdf</a></p> <p>PT AAL will fully align with the direction of the Team regarding who is the rightful owner of the concerned overlapping land. The settlement of overlapping land ownership is done by the Team for Settlement of Plantation Land Disputes in North Morowali District formed by the Regent of North Morowali. AAL has also published their response to the allegations on their website. Our direct supplier will continue to follow up with AAL to develop and implement an action plan. (October 2022).</p> <p>AAL announced at the end of March that they have commissioned an independent third party, EcoQuintara (EKS), to conduct an in-depth investigation of the grievances raised by Iof, including a land tenure study to identify land ownership in relation to the three concessions and a community needs assessment. <a href="https://www.astra-agro.co.id/wp-content/uploads/2023/03/Statement-AAL-EcoQuintara_-_Appointment-of-an-independent-Third-Party.pdf">https://www.astra-agro.co.id/wp-content/uploads/2023/03/Statement-AAL-EcoQuintara_-_Appointment-of-an-independent-Third-Party.pdf</a></p> <p>Our direct supplier held a planned status meeting with AAL to discuss progress made against the agreed action plan. Key outcomes of the meeting are as follows: AAL confirmed they have worked with independent partner Conflict Resolution Unit (CRU) to review and design a Human Rights Due Diligence (HRDD) strategy and that they will pilot their HRDD strategy at two sites over the next 15 months. AAL shared with our direct supplier that they have hired experts to help support Astra with stakeholder communication. AAL agreed to grant our direct supplier access to documentation to help review their land-use certificates related to the three concessions highlighted: PT Agro Nusa Abadi, PT Lestari Tani Teladan and PT Mamuang. Our direct supplier urged AAL to provide regular updates on their actions and share these on their public grievance log. (April 2023)</p> <p>On 12 May 2023, PT AAL published their <a href="https://www.astra-agro.co.id/wp-content/uploads/2023/05/progress-update-ecounvartara.pdf">https://www.astra-agro.co.id/wp-content/uploads/2023/05/progress-update-ecounvartara.pdf</a> where they stated, EcoQuintara will be engaging at a local and national level.</p> <p>Our direct supplier continues its engagement with PT AAL and all other relevant stakeholders in working towards resolution of the case.</p> <p>In late May 2023, ENS began the field verification process. A kick off meeting between ENS and WAAU was scheduled; unfortunately, WAAU did not participate at the last minute. Nonetheless, ENS commenced the field visits to affected communities of PT LTT, PT ANA, and PT Mamuang. By early June 2023, ENS had completed the field visits and the initial interviews with local government officials and community representatives, with the aim to identify locations of disputed land claims.</p> <p>ENS conducted second phase of on-the-ground interviews starting from late June 2023 to verify findings from the initial interviews and to conduct further interviews with community members.</p> <p>In early August 2023, field data collection was reported to be nearing completion, and ENS will progress into analysis phase. ENS will periodically revisit the field to clarify any specific issues that may arise. Please refer to the following reports:</p>	Monitoring	30-Aug-23
Runding Putra Perdana	Reports of deforestation in the following concessions: - Mahmudin plantation	RAN - Rainforest Action Network	Indirect via third party supplier/traders.	<p>PT AAL has published the onerous updates on the independent verification. For more information related to the activities, please refer to the reports as follow:</p> <p>ADM reached out to its direct supplier for investigation. Our direct supplier provided detailed information on the allegations.</p> <p>Our direct supplier informed that PT RPP has achieved 100% TTP and they are able to check the sourcing information. PT RPP is checking sources and will take action accordingly. Our indirect supplier was linked to Mahmudin plantation through their supplier FBB supplier.</p> <p>A series of meetings and engagement with PT RPP was carried out thereafter. A field verification has been carried from 1 to 5 November 2022 to verify the allegation and support the development of action plan to address the issues identified. The field visit concluded Mahmudin plantation has a certificate of ownership (SHM) covering an area of 29 hectares.</p> <p>There is no clear data provided in the report linking the non-compliant smallholder land parcels to the palm oil dealer that supplies PT RPP.</p> <p>The outcome of the investigation has been shared, discussing the action plan with RAN on 1 December 2022. The final field verification report has also been shared with RAN on 21 December 2022.</p> <p><a href="https://www.wilmar-international.com/doc/default-source/default-document-library/sustainability/grievance/ewr_summary_viol_report_rpp_cvil_mahmudin_nov_2022_gpr_wilmar.pdf?sfvrsn=470e2b72_2">https://www.wilmar-international.com/doc/default-source/default-document-library/sustainability/grievance/ewr_summary_viol_report_rpp_cvil_mahmudin_nov_2022_gpr_wilmar.pdf?sfvrsn=470e2b72_2</a></p> <p>In the meantime, our direct supplier continues to engage with PT RPP and monitor the implementation of the action plan.</p> <p>A verification field visit was conducted to assess the progress of the agreed action plan. <a href="https://www.goldenagri.com.sg/sustainability-dashboard/ViewFile_docs/gdgs/generative_summary_mar_2023_vistwilmaw13042023hs.pdf">https://www.goldenagri.com.sg/sustainability-dashboard/ViewFile_docs/gdgs/generative_summary_mar_2023_vistwilmaw13042023hs.pdf</a></p> <p>In May 2023, a follow up field visit was carried out. PT RPP has achieved 100% TTP and its staff have been trained on the traceability system. After a delayed start on the traceability mapping process due to unforeseen circumstances, the traceability work on CV B's and Mr Mahmudin's suppliers began in March and May 2023 respectively. Thus, a timeline for 100% TTP to September 2023 has been received. During this visit, the field team also discussed with Mr. Mahmudin on the progress of the land release of the 4 hectares.</p> <p>In early June 2023, a meeting with Balai Konservasi &amp; Sumber Daya Alam, BKSDA (Agency of Conservation and Natural Resources) took place as the authority for management and monitoring of RSWR, and Balai Pemantapan Kawasan Hutani, BPKH (Agency of Forest Area Consolidation Center) as the authority for boundary marking of RSWR, with the aim to understand the management and monitoring of RSWR, and process of releasing land occupied by community within the RSWR.</p> <p>In June 2023, another follow up field visit was carried out. Mr. Mahmudin was not available to meet with field team during field visit. The field team was later informed that Mr. Mahmudin was not willing to sign the commitment letter to release the 4 hectares. Consequently, PT RPP and CV B have issued a statement on 13 July 2023 to exclude Mr. Mahmudin from their supply chain. With this latest development, Our direct supplier included Mr. Mahmudin on its list of "high risk" FBB supplier, where indirect suppliers operating within the 50km radius of the Leuser Ecosystem will be notified on the development of this case. Mr. Mahmudin's FFB will only be allowed to enter their supply chain when the case is resolved to our satisfaction.</p>	Monitoring	30-Aug-23
Pinehill Pacific Bhd	Reports of deforestation in the following concessions: - PT Makmur Jawa Malindo	Mighty Earth Rapid Response Report 18, 19, 27, 28	Indirect with parent company via third party suppliers/traders.	<p>ADM reached out to direct supplier for investigation. We were informed that Pinehill Pacific Bhd has divested their Malaysian operations and they are no longer associated with PT NKM.</p> <p>Jun-22: No purchase reflected as of H2 2023 data.</p>	Suspended	30-Aug-23
Tsahi Hutani Abadi Group	Reports of deforestation in the following concessions: - PT Krung Lestari Jaya	Mighty Earth Rapid Response Report 9	No direct or indirect connection between ADM and the parent company or mill.	<p>THA made significant progress on its sustainability program and has been publicly reporting updates through its first two progress reports. THA signed a letter of intent with Yayasan Konservasi Alam Nusantara (YKAN), which is an affiliate of The Nature Conservancy. This collaboration has enabled field assessments and development of recovery plans to support THA's sustainability commitments.</p> <p>Golden Agri Resources (GAR) has acquired THA (PT Krung Lestari Jaya, PT Rimba Rayatama Jaya and PT Harapan Rimba Raya) and are now part of GAR's operations. GAR will follow the RSPO Remediation and Compensation Procedure to address and past deforested lands by the purchased entities in the West Kutai/ East Kalimantan area.</p> <p>THA published 1st progress report in its NDRP implementation. See here <a href="https://bit.ly/37R6Gu4">https://bit.ly/37R6Gu4</a></p> <p>THA published 2nd progress report <a href="https://bit.ly/2JMPH2H">https://bit.ly/2JMPH2H</a></p> <p>GAR announced the acquisition of PT Tsahi Hutani Abadi ("THA"), PT Krung Lestari Jaya, PT Rimba Rayatama Jaya and PT Harapan Rimba Raya.</p> <p>THA entities have become part of GAR own operations. GAR will no longer continue the re-entry engagement with THA. Instead, as an RPO-member, GAR will follow the RSPO Remediation and Compensation Procedure (RACP) to address any past deforestation by the acquired companies and also to comply with the RSPO F&amp;C.</p>	Closed	30-Aug-23
NaturAcetes	Allegations with respect to human rights	Christiche Initiative Romero e.V.	Indirect via third party supplier/traders	<p>ADM reached out to its supplier for investigation. Our direct supplier provided an official statement by NaturAcetes on the allegations raised in February 27, 2023 towards violations to the land rights of the Maya. NaturAcetes strongly ratifies its non-involvement or influence in this situation.</p> <p>ADM will continue to monitor the case.</p> <p>ADM reached out to its supplier for investigation. Our direct supplier provided information on the allegations first raised in 2018. Sventega Nier's reported a list of 20 mills that extract oil from illegally grown palm fruit inside Tesso Nilo, which is then shipped to customers worldwide.</p> <p>According to the report each mill supplies palm oil to a slew of international businesses, including AAK. Our direct supplier has confirmed that they don't source directly from Tesso Nilo landscape.</p> <p>In 2018 all mills committed to either blacklisting or strengthening monitoring against mills and dealers in the report. In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas. They have commitments and SOPs against sourcing from illegal concessions in the landscape and will socialize them again with suppliers.</p> <p>In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas. (July 2018)</p> <p>Our trading partners confirmed they do not source from the Tesso Nilo park and the surrounding National park. Supplying mills to our trading partners (mills mentioned in the COF report) have been visited by our trading partners and are undergoing the ART transformation program as well as a traceability to plantation program.</p> <p>Our direct supplier initiated dialogues with suppliers after receiving the report, clarifying that they do not directly purchase Fresh Fruit Bunches (FFB) from the mentioned area. They expect their crude palm oil suppliers to comply with their sustainability Policy. Field audits will be conducted, and a corrective action plan will be developed based on the report. Our direct supplier attended multi-stakeholder meetings to discuss the establishment of a responsible oil palm farming in the park.</p> <p>ADM will keep engaging with direct suppliers to follow up on the clarification provided by the suppliers and planned field verification at the supplier factories with a third-party consultant.</p>	Monitoring	03-Jul-23

Sumber Tani Agung Tbk	The company is sourcing from PT Sawit Sukses Sejati, who allegedly violates NDPE policies.	Mighty Earth Rapid Response Report 39	Indirect with parent company via third party supplier/traders.	<p>ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Sawit Sukses Sejati (SSS) used to supply FFB to their supplier, PT Sumber Tani Agung (STA) but they are no longer a consistent supplier to PT STA after they built their own mill in 2022. There were some ad hoc FFB delivery to STA in 2022 when PT SSS's mill running into operational issues. When the allegation of deforestation on PT SSS was brought to PT STA's attention, PT STA has immediately shared the Rapid Response report 39 with PT SSS for investigation. In the meantime, PT STA has ceased sourcing from PT SSS. PT Teguhkarsa Wanalestari, PT Asa Sawit Lestari and PT Prima Mas Lestari have been identified to be associated or buying from PT SSS. It was found that ADM is linked to Skaralara mill. Skaralara mill, PT Rimba Mujur Mahkota/Pasifik Agro Sentosa group was allegedly sourcing from PT SSS. Skaralara mill/PT Rimba Mujur Mahkota/Pasifik Agro Sentosa group have confirmed that PT SSS is no longer in their supply chain [last purchase was in January 2022]. ADM Brazil - BA/PI	Reports of fire events for land clearing soy and cattle	Aid Environment - Realtime Deforestation Monitoring- soy and cattle supply chains #12	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report.	<p>On may 2023, ADM received the Realtime Deforestation Monitoring- soy and cattle supply chains #12.</p> <p>Among the 10 farms, ADM made recent negotiations with one of them (Faenda Taperai). The producer who appears in the report is not an ADM supplier, but we do have commercial relations with other members of the Orth family who owns farms in the region of Correntina/BA. ADM has sourced from one of several C&amp;As that make up the Faenda Taperai in year 2023. The CAR from where we sourced soy has NO embargoed areas. The recently land clearing has all the authorizations/licenses in accordance with the local forest code and has NOT planted SOY yet in the cleared area. The area that has been cleared is not a forest, but covered in native vegetation.</p> <p>The investigation concluded that there was no sourcing from the reported farms, the analyses were made by remote sensing and consultation of our grain purchase systems. We will closely monitor land use change in the properties listed to make sure they are in compliance with the local legislation and our No Deforestation Policy.</p> <p>ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed.</p> <p>Overall, based on the visit, our direct supplier said that waste is fairly well managed. However, some follow up actions were agreed upon:</p> <p>Appoint and assign a person in charge to carry out environmental management and monitoring at the unit level;</p> <p>File records in ISO warehouse;</p> <p>Strengthen efforts to manage empty bunches and solid citation;</p> <p>Our direct supplier continues to engage PT BK and monitor the progress. Our direct supplier has stop purchasing from PT Rezeki Kenca and there is currently no links to Rezeki Kenca. Julong group/Rezeki has re-entered our supply chain. Our direct supplier engaged our T1 supplier &amp; are pending their response from further investigations.</p>	Closed	18-May-23

Group of SOY Farmers/growers in Paraguay	Reports of alleged social conflicts between indigenous communities/agrarian reform settlements and SOY farmers.	Global Witness (London, UK)	Direct and indirect soy growers/suppliers	On August 26th, ADM received from Global Witness an e-mail contact requesting explanation on (7) alleged cases of social conflicts between indigenous communities/agrarian reform settlements and SOY farmers who could be link to ADM in different locations in Paraguay. Indigenous related conflicts: Hugua Po'i Loma Piru'y Campo Agu'e Ka'a Poty Colonia Yandi Agrarian reform settlements conflicts: Comunidad Centro Senta linea de Colonia Yyape So far, after assessing ge traceability of our suppliers, going over material publicly available, and interviewing suppliers named, the investigation found that: 1) There are no ADM direct or indirect suppliers' farms overlapping with indigenous Territories and/or Agrarian Reform settlements of smallholders. Most of the farms from where ADM sources directly, and for which we have traceability to farm (property polygons), are miles away from where the evictions took place. The indirect suppliers are also on a radius of action which is not close to the events cited. 2) The evictions - which had no connection with ADM suppliers - were done by the local police after court orders were given out by the competent authorities and from the info and videos available that we were able to obtain there are no signs of the use of violence. INDI (Paraguayan Indigenous Institute) representatives and Public attorneys were present in some of these evictions. 3) Spraying of pesticides. One of the farmers named as being responsible for spraying pesticides denied the accusations and showed evidence that this issue had already been clarified and rectified with the local press and also to the UN. His name was removed from the original letter that had been sent. ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that the area in question is outside of PT 88's concession area. Based on ground-truthing, the field belongs to the local community and used to be a rubber plantation. According to our direct supplier, they do not source directly from PT 88's concession area. They sent a revised map to the RSPD Membership Executive, and also provided our direct supplier with a copy of the receipt date on August 23, 2021. The map on the georSPD website will be corrected. TAP's internal policy is to not share HGU boundaries, but since they are RSPD members, they sent a revised map to the RSPD Membership Executive, and also provided our direct supplier with a copy of the receipt date on August 23, 2021. The map on the georSPD website will be corrected. Given the evidence, G&A has decided to close this case. ADM reached out to direct supplier for investigation. Our direct supplier informed us that he is engaging with the PT G55 and a field verification visit has occurred. PT G55 has laid out action plan. A sustainability officer and GIS expert have been hired to conduct traceability to plantation work. Based on the results from the verification visit, PT G55 is implementing its action plan to verify their processes to ensure raw material is procured from compliant sources. Another visit to PT G55 is planned by our direct supplier. The report can be found here: <a href="http://bit.ly/2E4moTr">http://bit.ly/2E4moTr</a> . An action plan was developed between direct supplier and G55. It includes mapping of high-risk areas, which is to be shared with all FFB suppliers, request all FFB suppliers to commit to sourcing only from non-protected areas, stop FFB purchase from suppliers without a signed commitment letter, suppliers should commit to sourcing from no exploitation, respecting land rights and document traceability of FFB suppliers shed. Action plan will be monitor by direct supplier. An NDPE policy has been signed and TTP at 100%.	Closed	13-Oct-22
Tripura Agro Persada	Reports of deforestation and/or peatland development in the following concessions: - PT Brabwa Binabaki	Mighty Earth Rapid Response Report 34	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. ADM is requesting information from direct supplier to clarify the situation. a. Suspected of developing plantation in forest production area (HP) and convertible production forest (HPK) in Kampar Regency, Riau b. Suspected of planting, harvesting, processing, selling, and marketing of palm products illegally developed within a forest area. Regarding the allegation of developing on land that is within HPF and HPK area / forest area: Our direct supplier has engaged PT CP regarding the overlap of PT CP concession with a designated forest area. This overlap land matters in Indonesia involves the wider palm oil industry in Indonesia. In conducting its operations, PT. Clandra Perkasa has obtained relevant and appropriate obligations from the government such as (tan Loka), (tim Usaha Perkebunan (IUP) and/or Hak Guna Usaha (HGU)). To address these legacy issues, the government has updated the Omnibus Law to include Article 110A paragraph (1) "Everyone carrying out a business that has been established and having a Business Permit in a forest estate before Job Creation Law is in effect who has not fulfilled the requirements in accordance with the regulations of law in the forestry sector, must fulfil such requirements no later than three (3) years upon the effectiveness of the Job Creation Law."-. Eagle High Plantations Tbk	Reports of deforestation in the following concessions: - PT Khatulistiwa Agro Abadi / First Borneo Group - PT First Borneo Plantations / First Borneo Group (Eagle High Plantations is allegedly sourcing from PT Arjuna Utama Sawit / First Borneo Group)	Rapid Response 40	Indirect via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT AUS is still in the EHP's latest Consolidated Financial Statements as receivables and payables due to the absence of an 'offset' agreement. However, EHP confirmed that their CPO purchase contract with PT AUS ended in Sep 2018 and EHP have not sold FFB to PT AUS since 9 Dec 2019 and PT AUS is on their no purchase list. Since then, EHP have not entered into transactions with PT AUS. The reason why PT AUS appears on PT EHP's annual report/ financial statement is because they still have a debt to PT EHP for their previous business transaction before 2019 and that debt is not fully paid. PT AUS and PT EHP have yet reached an agreement on the debt payment; hence, we will still foresee PT AUS being mentioned in the financial report until this issue is resolved.	Closed	01-Aug-22

Group of SOY Farmers/growers in Correntina, Bahia (BRAZIL)	Reports of alleged land tenure issues/social conflicts between traditional local communities and SOY farmers in Correntina, Bahia (Brazil)	Global Witness (London, UK)	Direct SOY growers/suppliers	Bumtara's further clarification on the land verification: <a href="http://bit.ly/BumtaraClarificationTGAR">http://bit.ly/BumtaraClarificationTGAR</a> On November 3rd, 2021 ADM received from Global Witness an e-mail contact requesting explanations on an alleged case of social conflict between a local traditional community called Capao do Modeloto and soy growers who could be linked to ADM in Correntina, Bahia (BRAZIL). Due to Covid 19 restrictions and the short timeframe (6 days) given by GW to respond, all contacts were done over the phone. ADM opened its grievance protocol, conducted a series of individual interviews with the farmers listed in GW's report who are suppliers of ADM, and responded to Global Witness by NOV 9th. Local community members names were not disclosed by GW, making it difficult for ADM to reach out to them. A new Socio-environmental due diligence was redone on all farms under production, including the lands used as offsets which were being disputed.  So far the investigation found that: 1) The lands on dispute are more than 150km from the farms from where ADM sources soy - all soy farms are in compliance with the Brazilian Forest Code and the Company's policies. Some of these farms are even certified under sustainable standard schemes. 2) The lands on dispute are owned by the farmers (legal land deeds and environmental permits/licenses were provided to ADM). These lands have no farm production, only native vegetation, and serve as offsets of native vegetation (Legal Reserves) to areas under production (150km away) 3) These private areas were being constantly trespasses by 8 local community members who were using these areas irregularly and in disagreement with the Forest Code. 4) The farmers/owners went to court to avoid people from trespassing. The case was trialed and farmers won on 3 instances. 5) All suppliers interviewed deny having used violence or harassment against the traditional communities. 6) The investigation concluded that farmers are the legal owners of these lands. That these lands are in compliance with the Brazilian legislation and that the suppliers are in compliance with the Company's policies. No evidences of violent acts/harassment were found, and all suppliers deny this ever happened.	Under investigation	12-Jan-22

Dharma Surya Nusantara Tbk (DSN)	Reports of deforestation and/or peatland development in the following concessions: - PT Kencana Alam Pernal	Mighty Earth Rapid Response Report 37	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Kencana Alam Pernal (KAP) parent's group, Dharma Surya Nusantara Tbk (DSN) is a member of RSPO since 2008, and all of their land development for palm is bound by RSPO Principles and Criteria. DSN has also made public commitment to NDPE policy ( <a href="https://bit.ly/32kM5eI">https://bit.ly/32kM5eI</a> ) where their last land clearing activities was in 2015. Specifically on the case on PT KAP, our direct supplier has initiated engagement with DSN since October 2021 to seek clarification on deforestation detected through their internal monitoring programme. PT KAP has carried out field investigation and confirmed that the clearance was carried out by the local communities for farming, including paddy planting. The area in question has not been surrendered to the company as the local communities are not keen to be involved in oil palm development. Therefore, PT KAP does not have full control over the said area. The outcome of the investigation has also been shared with the head village and endorsed ( <a href="https://bit.ly/3yM5kZj">https://bit.ly/3yM5kZj</a> ) by the head village accordingly. PT KAP's official response to the case is available here: <a href="https://bit.ly/3EcnW7f">https://bit.ly/3EcnW7f</a>	Closed	20-Dec-21
Anglo-Eastern Plantations	Reports of deforestation in the following concessions: - PT Kahayan Agro Plantation	Mighty Earth Rapid Response Report 1, 34, 35, 38, 39, 20, 24, 25, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that their internal monitoring detected indications of land clearance in KAP concession (4 ha) from May to June 2019. Subsequently, Mighty Earth Rapid Response Report No.18 also mentioned 6 ha land clearing from June to July 15, 2019 using GLAD Alert coverage. Our direct supplier informed AEP and they answered that they had stopped land clearing activities since the moratorium announcement at the end of May 2019. Our direct supplier checked the exact date of the indication of the land clearing and found AEP's statement was verified. HCSA assessment and peer review has been completed and verified. The HCSA Secretariat and AEP are in the process of discussing further actions. ADM will continue to monitor this process. A moratorium for the disputed area is in place as of May 5, 2020: <a href="https://bit.ly/35QC9Qg">https://bit.ly/35QC9Qg</a> PT KAP has sent written confirmation to HCSA about conserving the remaining 150 Ha "disputed HCSA forest" which led HCSA to close the case. Capitol Group	Reports of deforestation and/or peatland development in the following concessions: - PT Medisa Papua Nijya Selaras	Mighty Earth Rapid Response Report 25, 26, 27, 28, 29	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that HCV/HCSA has already been conducted by a qualified assessor, and the company has clarified that their land clearing was guided by the outcome of the assessments. However, some land clearance appears to have occurred inside of HCV/HCSA areas due to community pressure to develop a plasma smallholders program. PT MPHs has agreed to rehabilitate the identified areas of land clearing in the recent HCV/HCS reports. PT MPHs is working closely with the Indonesian Watershed Monitoring Agency (IPDAS) and has committed to plant 30,000 trees as part of its rehabilitation program. The HCV/HCS report shall be submitted for peer review and a moratorium on any further land clearing has been in place since Q4 2020. An integrated report submitted to HCV Resource Network: <a href="https://bit.ly/3p3k143">https://bit.ly/3p3k143</a> Management plans for HCV/HCS areas were submitted in the meantime, protecting the areas while preventing similar recurrences. Our direct supplier is continuing engagement with and guiding PT MPHs through the peer review process as well as developing a rehabilitation plan.	Closed	28-Oct-21

Gemilang Jaya Kencana Abadi/ Putra Kerintang Sawit	Putera Kerintang Sawit - Waste dumping, purchasing FFB grown illegally	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PKS was engaged with and the immediate actions were required to be put in place to ensure the purchase of illegally grown FFB is prevented in the future. Apical together with their consultants conducted a verification visit to PKS on the report by GfW. They found that appropriate actions were taken to ensure no illegal FFB sourcing ( <a href="https://www.apicalgroup.com/sustainability/grievance/apical/">https://www.apicalgroup.com/sustainability/grievance/apical/</a> ). PT PKS also attended Apical's Shared Value Program workshop in 2016 and 2017 which aims to assist their suppliers to build their capacity to adopt more sustainable practice. PT PKS has provided traceability data to Apical who continues to monitor their supply chain closely.	Monitoring	07-Jan-21
Brasil - Seven properties as listed in the report in the states of Mato Grosso, Para, and Tocantins	Reports of land clearing for soy and cattle	Mighty Earth Rapid Response Soy and Cattle Report 17	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report.	The investigation concluded that there was no sourcing from the reported deforestation areas. Not Applicable	Reports of Human Rights Violations in the Xinjiang Uygur Autonomous Region	Bell	No identifiable direct or indirect connection between ADM and the region.	ADM investigated any possible links to sourcing from the region in question. There are no direct links, and no identifiable indirect links. The vast majority of ADM's indirect purchasing process in the APAC region contains a compliance clause/human right clauses. ADM is currently in process of publishing standard indirect purchasing terms and conditions for the APAC region containing a human rights clause.	Monitoring	07-Dec-20
Tradewinds Plantation Phd.	The mill Binu Plantations seems to be linked to deforestation in the Binu Plantations Bhd. Sdn. concession.	Actiam	Indirect with parent company via third party suppliers/traders	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they engaged with Tradewinds who clarified that their team conducted ground verification of the area and confirmed that there is no clearing within Binu Plantation. The reported clearing happened outside Binu Plantation's concession which was carried out by external parties/local community.	Closed	07-Dec-20
Sime Darby	The mill Lavang (SOU 31) seems to be linked to deforestation in the Lavang estate concession	Actiam	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed that their team has checked and confirmed that the clearings detected happened outside of Sime Darby Plantation's Lavang estate boundary. The boundary marked by GFW in blue is not accurate as it overlapped with the boundary of a neighbour (external party) by the name of Watanan Estate. The clearings detected are in Watanan Estate's concession. For the estate boundary, you may look up Sime Darby's Lavang estate on their Crowscheck 2.0, which is their open source online traceability tool at the below link. In the search box, type in "Lavang". <a href="https://sd-platinum.maps.arcgis.com/apps/webappviewer/index.html?id=429b47bae64e4e87c5cf8cb0ab731">https://sd-platinum.maps.arcgis.com/apps/webappviewer/index.html?id=429b47bae64e4e87c5cf8cb0ab731</a>	Closed	07-Dec-20

Paramitra Internusa Pratama	Belian Mill - Land dispute, deforestation	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they notified the Forest Peoples Programme (FPP) and the RSPO of its intention to submit New Planting Procedure (NPP) documents for plasma development in PT Paramitra Internusa Pratama (PT PIP) following public consultations. The RSPO informed our direct supplier that plasma development in PT PIP can proceed. Our direct supplier continues active dialogue with the FPP.	Closed	07-Dec-20
Bengkulu Sawit Lestari	Bengkulu Sawit Lestari - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. The land dispute is being verified in the field. The location permit has indeed expired, but it has no impact on operations because they already have an IUPB. A location permit is only a preliminary permit from the regional government to initiate the compensation process. Currently in the verification process with the village head and local community leaders. The audit team is still on the plantation. So the results of the investigation are not final. Our direct supplier also informed us that the news on waste was incorrect. Based on the Decree of the Minister of Environment and Forestry no SK.696 / Menh / Setjen / Kum / 1 / 2020 dated 15 December 2017, the results of the performance improvement assessment (Proper) program have been issued and PT. BSL gets the blue paper. PT BSL mill is a used as a pilot in South Bengkulu regarding waste management. After the news appeared in the newspaper, the BSL team contacted the local environmental agency. The results of the examination found that the upstream and downstream river water in the waste storage outlet was in line with the standard. Research on this case has shown that the main issue raised is that BSS paid for the land they operate on and are willing to compensate those who should be compensated.	Monitoring	07-Dec-20
Berkat Sawit Sejahtera	Berkat Sawit Sejahtera (Inhil) - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders. Ciptamas Bumi Selaras	Ciptamas Bumi Selaras - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	The overflow occurred due to heavy rain which the embankment (tanahkuil) could not withstand. The embankment has been raised and built with better materials. ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the Bengkulu Province Horticultural and Plantation Food Crops Office conducted mediation during a meeting on April 4, 2019 which was attended by community representatives from Kulik Siyang Hamlet, PT CBS, Kaur Regency Land Office, POLDA Bengkulu, and the Agriculture Office of Kaur Regency. The results of the meeting are as follows: 1. PT CBS participated in the clarification by facilitating land measurement activities for the people of Kulik Siyang Hamlet around the PT CBS concession area, where part of the land belonging to the Dusun Kulik Siyang community that does not overlap with the PT CBS HGU is immediately processed in the application for certified land certificates has been published and submitted to the people of Kulik Siyang Hamlet in 2019. 2. PT CBS asks the people of Dusun Kulik Siyang if there is 'Terasi' land in the PT CBS concession area to be able to show a copy of proof of their land ownership for clarification with proof of land ownership held by PT CBS, so if the Terasi land has never been for sale and purchase to PT CBS, PT CBS will conduct an Enclave process on the land. However, until now PT CBS has not received a copy of the proof of land ownership held by the people of Kulik Siyang Hamlet and continues to wait for the results of the community land measurement process carried out by the Kaur Regency land office. 3. Until now, PT CBS periodically provides outreach to the people of Kulik Siyang Hamlet that PT CBS is committed to clamping and not utilizing land and will not clear land in community areas, if anyone is in the HGU area and has never been traded to PT CBS. 4. In addition, PT CBS always maintains good communication and relationships with the community in the PT CBS work area, one of which is Kulik Siyang Hamlet, by implementing CSR programs, where one of them is for Kulik Siyang Hamlet, PT CBS also provides assistance. Ciputra Plantation verbally denied any wrongdoing in terms of waste allegations and stated that there had been visited by the Dinas Lingkungan Hidup who did not find any issues.	Closed	07-Dec-20
Citra Sawit Harum	Citra Sawit Harum - Land dispute, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that CSH has committed to its NDPE policy: The status of the Citra Harum Sawit SHM land is AP (non-forest estate land) and there used to be community rubber plants, but the area was controlled by the surrounding village community. Citra Harum Sawit stated that in SHM there had never been any conflicts with indigenous peoples, and there were no indigenous people living in SHM. For the surrounding village community, Citra Harum Sawit also recruits them as employees. Our direct supplier also works with local communities to transport FFB.	Closed	07-Dec-20
Garuda Food/ Garuda Bumi Perizaa	Garuda Bumi Perizaa - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed. The main problem that has emerged in publicly reported information (which has been confirmed) is complaints from residents regarding environmental issues. Tracing results with stakeholders indicated that the main problem was poor social relations with the village head, who played a role in the Mesul area. The mill has fixed the problem and currently relations with the community are quite good.	Monitoring	07-Dec-20

Sumber Jaya Indahnusa	Kota Tengah - Land dispute, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that land compensation for the community has been carried out. The HGU permit expires in 2021, our direct supplier recommends that 500 ha of land claimed by the Malay community be used as plasma as a conflict resolution effort, even though the company had previously provided plasma with an area of approximately 5000 ha. The company wants to maintain the 500 ha because the land is in the HGU which will be extended. Therefore our direct supplier also suggests that SI identify the history of land ownership of 500 ha when it was first obtained and identification of Malay tribes about their relationship with the original owner of the land (from which tribe, is it recognized by the district / provincial customary institutions) and conduct participatory CSR (social) programme analysis with communities affected by company activities. Brazil - Eleven properties as listed in the report in the municipalities of Bahia, Pará, Maranhão, and Mato Grosso.	Reports of land clearing for soy and cattle	Mighty Earth Rapid Response Soy and Cattle Report 14	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the articles mention a recent demonstration at the premises of PT Tolan Tiga Indonesia. This was a follow up action by Kelompok Tani Bersatu (KTB) over an old claim which has gone through many years of communications and has long settled in court over 10 years ago. To date there have been at least 3 demonstrations, all coinciding with local political elections. Although the issue has been settled legally, a group of farmers under KTB have brought up this issue and utilized demonstrations as a means to communicate to PT Tolan Tiga Indonesia. It was during the most recent demonstration on 13th - 18th July 2020 that two of the KTB members were reported to the police for causing property damage. Based on the witness, video and photographic evidence provided the police have arrested the suspects.	Closed	07-Dec-20
