123	QL Resources Sdn Bhd	Reports of deforestation in the following concessions: - PT Pipit Mutiara Indah	Rapid Response 21, 27, 28	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that they conducted a field visit to PT PMI in early 2020 to check the compliance on the NDPE policy and the guidance they had provided to QL Resources Group. The group committed to the Development Recovery Plan for Non-Compliant Land Clearing and has displayed considerable progress on its commitments. ADM will continue to monitor the case. QL need to publish recovery area boundary in public domain. Due to non-compliance to the NDPE policy, ADM's direct supplier have ceased sourcing from QL Group of companies where the last purchase was in November 2019. Several meetings have taken place since then to guide QL Group of companies to the compliance of NDPE policy and meeting the re-entry criteria. A field visit to PT PMI was conducted in January 2020 to assess the situation on the ground and develop an action plan for PT PMI to close the gaps identified during the field visit. In April 2020, QL Group met all the criteria stipulated in the re-entry criteria, including their commitment to the Development of Recovery Plan for Non-Compliant Land Clearing to NDPE policy at group level incurred from January 2016 onwards. Based on detailed review of documentation, reports and letter of commitment from QL Group, ADM's direct supplier Suspension Committee have given due consideration of this process and have lifted the suspension on QL Group in April 2020.	Monitoring	7/10/2024
152	Astra Agro Lestari	Reports of land disputes and resistance by local citizens in the following concessions: - PT Mamuang (Passang Kayu)	Walhi	Indirect with parent company via third party suppliers/traders.	7/10/24: Three companies—namely, PT Lestari Tani Teladan, PT Mamuang, and PT Agro Nusa Abadi—operate in South Sulawesi, West Sulawesi, and Central Sulawesi as subsidiaries of ADM's direct supplier. Several critical issues have been identified, including overlapping claims with local communities, allegations of land grabbing, criminalization, concerns regarding plasma partnerships, activities conducted beyond the boundaries of the Cultivation Right (HGU), and operations being conducted without the necessary HGU permits. Our direct supplier has engaged with Astra Agro Lestari on all listed cases and provided us with an update of occurrences. Please see the summary below. PT Mamuang - holds a positive relationship with the local community. They are the legal owners of the land which is shown by the operating permits they hold for the land. Nevertheless, they still engaged and negotiated with the complainants through a mediation process with local authorities. An agreement was not reached and a member of the complainant party engaged in activities that resulted in conviction of criminal charges. This decision was made by legal authorities and courts. PT LTT - additional information has been requested by PT LTT in order to investigate the unverified alleged land grab. It was clarified by PT LTT that there are no outsourcing activities for its operations. Pricing runs in accordance with the regulation set by the Minister of Agriculture of the Republic of Indonesia. PT ANA - all relevant permits are in place and laws complied with. Community rights are always respected, and land tenure is obtained through processes that include the community and agreement is reached. Our direct supplier has explained that they continue to invest resources to try and engage with WALHI/FE0 in hope of being able to verify allegations and support efforts to identify, develop, and implement resolutions that are accepted by all parties, but so far without success. P&G is also providing our direct supplier with information of the progress update, including PT AAL's engagement with the Conflict Resolution Unit to evaluate their current practices in relation to human rights: https://bit.ly/3xtRtXk . Summary provided by P&G: https://www.wilmar-international.com/docs/default-source/default-document-library/sustainability/griance/eg-executive-summary_assessment-by-ecosantara_-_final.pdf?sfvrsn=9df1a0d_2 P&G will continue to closely monitor developments and continue to report via P&G Palm Grievance Tracker: https://t1.04cdm.com/695946674/files/doc_downloads/eg/PG_ESG_Palm_Oil_Grievance_Tracker.pdf . PT ANA will fully align with the direction of the Team regarding who is the rightful owner of the concerned overlapping land. The settlement of overlapping land ownership is done by the Team for Settlement of Plantation Land Disputes in North Morowali District formed by the Regent of North Morowali. AAL has also published their response to the allegations on their website. Our direct supplier will continue to follow up with AAL to develop and implement an action plan. (October 2022). AAL announced at the end of March that they have commissioned an independent third party, EcoNusantara(ENS), to conduct an in-depth investigation of the grievances raised by FoE, including a land tenurial study to identify land ownership in relation to the three concessions and a community needs assessment. https://www.astra-agro.co.id/wp-content/uploads/2023/03/Joint-Statement-AAL-EcoNusantara_Appointment-of-an-Independent-Third-Party.pdf Our direct supplier held a planned status meeting with AAL to discuss progress made against the agreed action plan. Key outcomes of the meeting are as follows: AAL confirmed they have worked with independent partner Conflict Resolution Unit (CRU) to review and design a Human Rights Due Diligence (HRDD) strategy and that they will pilot their HRDD strategy at two sites over the next 15 months. AAL shared with our direct supplier that they have hired advisory firm to support Astra with stakeholder communication. AAL agreed to grant our direct supplier access to documentation to help review their land-use certificates related to the three concessions highlighted: PT Agro Nusa Abadi, PT Lestari Tani Teladan and PT Mamuang. Our direct supplier urged AAL to provide regular updates on their actions and share these on their public grievance log. (April 2023) On 12 May 2023, PT AAL published their https://www.astra-agro.co.id/wp-content/uploads/2023/05/progress-update-ecosantara.pdf where they stated, EcoNusantara will be engaging at a local and national level. Our direct supplier continues its engagement with PT AAL and all other relevant stakeholders in working towards resolution of the case. In late May 2023, ENS began the field verification process. A kick off meeting between ENS and WALHI was scheduled; unfortunately, WALHI did not participate at the last minute. Nonetheless, ENS commenced the field visits to affected communities of PT LTT, PT ANA, and PT Mamuang. By early June 2023, ENS had completed the field visits and the initial interviews with local government officials and community representatives, with the aim to identify locations of disputed land claims. ENS conducted second phase of on-the-ground interviews starting from late June 2023 to verify findings from the initial interviews and to conduct further interviews with community members. In early August 2023, field data collection was reported to be nearing completion, and ENS will progress into analysis phase. ENS will periodically revisit the field to clarify any specific issues that may arise. Please refer to the following reports: PT AAL has published the progress updates on the independent verification. For more information related to the activities, please refer to the reports as follow: https://www.astra-agro.co.id/wp-content/uploads/2023/05/Progress-Update-on-Independent-Third-Party-Verification-1.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/06/Progress-Update-on-Independent-Third-Party-Verification-June-9th-2023.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/06/Progress-Update-on-Independent-Third-Party-Verification-23-June-2023.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/07/Progress-Update-on-Independent-Third-Party-Verification-7-Juli-2023-1.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/07/Progress-Update-on-Independent-Third-Party-Verification-21-Juli-2023.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/08/Progress-Update-on-Independent-Third-Party-Verification-4-Agustus-2023.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/09/9th-Progress-Update-on-Independent-Third-Party-Verification.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/08/8th-Progress-Update-on-Independent-Third-Party-Verification.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/09/9th-Progress-Update-on-Independent-Third-Party-Verification.pdf https://www.astra-agro.co.id/wp-content/uploads/2023/09/10th-Progress-Update-on-Independent-Third-Party-Verification.pdf	Monitoring	7/10/2024
289	Astra Agro Lestari (AAL)	Land grabbing, human rights, and governance violations illegal palm oil cultivation ongoing intimidation criminalization of environmental human rights defenders operations without required permits.	Friends of the Earth - https://foe.org/wp-content/uploads/2024/06/AAL_CultivatingConflict_Eng_final.pdf	Indirect via third party suppliers/traders	Our direct suppliers are engaging with AAL to implement appropriate measure to improve practices at AAL concessions, and make sure the situation on site is not violating any of ADM policies. A well-directed and measurable plan, agreed upon by all parties, will help to resolve disputes and conflicts. 1- Concession permits within forest areas and deforestation The presence of concessions in forest areas does not necessarily imply deforestation, as the status of forest areas does not always mean that the area is still forested. If verified that AAL's subsidiaries indeed have concessions overlapping with forest areas, the regulation on encroachment as stipulated in Law No. 6 of 2023 on Job Creation will be applied to these subsidiaries. The biggest challenge is the almost complete lack of public access to this information, as all details of the process and information are managed by the government and are exempt from public disclosure. The government only provides general information such as the number of companies and the area included in categories of articles 110A and 110B. 2- Implementation of FPIC mechanisms as an initial remediation process The argument by AAL and EcoNusantara that the absence of an FPIC mechanism at the start of company operations renders FPIC irrelevant now is incorrect, as Indonesian civil law principles and Supreme Court jurisprudence allow for this to be addressed. 3- Repeated intimidation of communities In its report, FoE reveals that two women from Rio Mukti Village have experienced repeated intimidation by AAL staff in the field, who questioned the reason for their opposition and pressured them to retract their statements and demands. This repeats various instances of intimidation and criminalization previously carried out by AAL's subsidiaries in the past.	Monitoring	7/8/2024
288	Abdi Budi Mulia (ABM)	Allegations of land clearing	Mighty Earth - Report 44	Indirect via third party suppliers/traders.	We have been engaging with our direct supplier and it was determined that the land clearing was carried out by local communities, in areas not in control of ADM's supplier, for the purpose of mix agriculture farming, including paddy, corn as well as oil palm cultivation. PT KHS carried out plasma development since January 2024 following pressure received by both local communities and the local government. Nevertheless, PT KHS has ceased all land clearing activities since May 2024 to mitigate risk of potential deforestation and has committed to conduct relevant assessments, including integrated HCV-HCSA assessment, before resuming plasma development. This decision and action is prior to the release of Mighty Earth Report 44 Hunterbrook Media published a report on May 29, within two hours after their first inquiry from Hunterbrook Selected Research, alleging that Wilmar facilities in Xingjiang may be non-compliant with its policies due to "extensive state-sponsored forced labor policies". No information or evidence was provided other than location of facilities in Xingjiang. No sourcing from these facilities was attributed to ADM. Both companies are committed to compliance with local laws and regulations protecting workers' rights. In addition, each company has its own human rights policy that explicitly states forced labor is not allowed in their operations or supply chains, with the policies applying both to the companies and their business affiliates. ADM has reached out to Wilmar for additional information regarding due diligence related to the facilities.	Closed	7/8/2024
287	Wilmar International Ltd	Allegation pertaining to ADM's ownership interest in Wilmar	Hunterbrook Media	ADM is connected to Wilmar through 20% ownership-stake and ADM executive on Wilmar's Board	ADM has contracted with a prison entity on a rehabilitation program that is designed to allow prisoners with upcoming release dates to begin working to build skills and knowledge that will enable a smooth transition to life after incarceration. These employees receive the same training and safety gear as all employees, and are paid the same rate. We are investigating implementation of the program with ILO guidance to ensure prison labor is voluntary.	In progress	7/8/2024
286	ADM Brazil	Report of deforestation related to soy	Aidenvironment	No direct or indirect connection between	On May 2024, ADM received the 20 th Realtime Deforestation Monitoring (RDM 20) report including nine case studies linking deforestation and fire events to the soy and cattle supply chains in Brazil's Cerrado, Pantanal and Amazon biomes.	Closed	7/8/2024
285	SLC Agricola	Reports of human rights and environmental violations	EarthSight	Direct cotton supplier	ADM engaged with SLC Agricola who is an active supplier of ADM to have additional information regarding a report publicly available in the media by an NGO with alleged Human Rights and environmental issues linked to farms operated by SLC Agricola. In less than 24 hours, SLC responded with documents and evidence which were also publicly available and accessible to the general public in different medias. All areas in operation have been legally cleared under the Brazilian Forest Code legislation and have the proper licenses. Regarding the area in the Capão Modesto region in Bahia, which the Report claims to have a land dispute, SLC explained that they have a land lease of a farm where they plant cotton which has its legal reserve allocated in a different property/area located 40km away from where they operate (as the Forest code from the country legislation allows). The NGO Report claims that this area, where the legal reserve is allocated, is linked to human rights conflicts as there is a dispute on property rights. SLC presented the documents of the land titles and licenses of the land in dispute, demonstrating who is the rightful owner of the land. About the deforestation accusation of over 1000 hectares in Fazenda Palmares, the company presented evidence that this area of native vegetation, which was never - and still is not - in production, was affected by a natural fire in 2022, something common in the dry season in the Cerrado biome. They have presented documents showing that this unintentional fire, which was fought and controlled by them, was reported to the local environmental authorities. Furthermore, the company has shown that the area is recovering its original native vegetation and is not being used for agricultural purposes.	Closed	7/8/2024
284	Prison Labor in U.S Supply Chains	Reports of elevated risk for human rights violations	Associated Press	Employment through work-release programs	ADM has contracted with a prison entity on a rehabilitation program that is designed to allow prisoners with upcoming release dates to begin working to build skills and knowledge that will enable a smooth transition to life after incarceration. These employees receive the same training and safety gear as all employees, and are paid the same rate. We are investigating implementation of the program with ILO guidance to ensure prison labor is voluntary.	In progress	7/8/2024
283	Prison Labor in U.S Supply Chains	Reports of elevated risk for human rights violations	Associated Press	Direct purchase	ADM received an inquiry from the Associated Press. The reporter noted elevated risks for human rights violations in various U.S supply chains linked to prison labor. ADM began looking into its supply chains for instances of violations to its Human Rights Policy. ADM has identified a direct supplier who has not been able to provide sufficient documentation to confirm all conditions specified by the ILO for voluntary prison labor have been satisfied. Until such evidence is provided, ADM has ceased doing business.	Suspended	7/8/2024

No.	Group	Issues	Reported by	Relationship	Progress	Status	Last Update
282	Prison Labor in Southeast U.S Peanut Supply Chain	Reports of elevated risk for human rights violations	Associated Press	Indirect via third party commissioned agent	ADM received an inquiry from the Associated Press. The reporter linked prison labor to ADM's subsidiary, Golden Peanut. ADM communicated to the AP and its customers that our policies explicitly prohibit forced labor of any kind in our operations and supply chains. The supplier in question is indirectly linked to Golden Peanut through a 3rd party commissioned agent. The supplier has not been able to provide sufficient documentation to confirm all conditions specified by the ILO for voluntary prison labor have been satisfied. ADM has communicated to our direct supplier that we are unable to accept grain from the prison until such evidence is provided.	Suspended	7/8/2024
290	ADM Brazil	Soy supply chain issue: Sourcing grains indirectly grown illegally on Indigenous territory in South of Brazil	REUTERS	INDIRECT soy sourced from COOPs that allegedly purchased soy from Indigenous	ADM engaged with suppliers mentioned and both confirmed there was no commercial relationship or soy sourced from the areas mentioned in the report we received. It is important to note that those two areas are on a process to "officially" become Indigenous Reservations under local legislation, so there are still private areas farming soy legally today within the boundaries of the area that eventually may become an Indigenous Reservation. The COOPs have an extensive network of country elevators spread throughout the state. 1 COOP has a country elevator close to these 2 areas.	Closed	6/12/2024
210	Sime Darby Plantation Berhad and its subsidiaries, joint ventures, and affiliated entities in Malaysia	Reports of human rights violations	U.S. Customs and Border Protection	Direct with parent company.	ADM reached out to direct supplier for investigation. Sime Darby (SD) is in the process of clarifying with the U.S. Customs and Border Protection (CBP) what the exact allegations against them are in order to be able to rectify what has caused the implementation of the Withhold Release Order (WRO). SD has openly engaged with the CBP and Liberty Shared, the issuers of the petition to the CBP, and provided a list of their existing practices in relation to the areas of concern outlined in the petition: https://bit.ly/3ogrxwq SD has been reporting on the progress of its Human Rights and Labor Program for a number of years: https://bit.ly/3Mmh5JO PwC was appointed to strengthen SD's human rights compliance. In order to maintain its RSPO certification, SD must also undergo annual third party audits, which include stringent requirements on labor practices. The latest audit findings of the RSPO did not generate any red flags against SD. However, the RSPO will also conduct an investigation: https://bit.ly/39wX1w8 SD appointed Impact Ltd. to conduct a third party labor assessment of their Malaysian plantations. The outcome of this assessment and the resulting corrective action plan to address issues found shall be a key step towards lifting the CBP's WRO.	Closed	4/17/2024
189	Sumber Jaya Indahnusa	Kota Tengah - Land dispute, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that land compensation for the community has been carried out. The HGU permit expires in 2021, our direct supplier recommends that 500 ha of land claimed by the Malay community be used as plasma as a conflict resolution effort, even though the company had previously provided plasma with an area of approximately 5000 ha. The company wants to maintain the 500 ha because the land is in the HGU which will be extended. Therefore our direct supplier also suggests that SJI identify the history of land ownership of 500 ha when it was first obtained and identification of Malay tribes about their relationship with the original owner of the land (from which tribe, is it recognized by the district / provincial customary institutions) and conduct participatory CSR (social) programme analysis with communities affected by company activities.	Closed	4/17/2024
185	Garuda Food/ Garuda Bumi Perka	Garuda Bumi Perka - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed. The main problem that has emerged in publicly reported information (which has been confirmed) is complaints from residents regarding environmental issues. Tracing results with stakeholders indicated that the main problem was poor social relations with the village head, who played a role in the Mesuji area. The mill has fixed the problem and currently relations with the community are quite good.	Closed	4/17/2024
179	Bengkulu Sawit Lestari	Bengkulu Sawit Lestari - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. The land dispute is being verified in the field. The location permit has indeed expired, but it has no impact on operations because they already have an IUPB. A location permit is only a preliminary permit from the regional government to initiate the compensation process. Currently in the verification process with the village head and local community leaders. The audit team is still on the plantation. So the results of the investigation are not final. Our direct supplier also informed us that the news on waste was incorrect. Based on the Decree of the Minister of Environment and Forestry no SK 696 / Menlik / Setjen / Kum.1 / 12/2017 dated 15 December 2017, the results of the performance improvement assessment (Proper) program have been issued and PT. BSL gets the blue proper. PT BSL mill is a is used as a pilot in South Bengkulu regarding waste management. After the news appeared in the newspaper, the BSL team contacted the local environmental agency. The results of the examination found that the upstream and downstream river water in the waste storage outlet was in line with the standard.	Closed	4/17/2024
115	PT.Socfindo	Risk of sourcing from the Singkil-Benglung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM conducted a risk analysis of its mill list using the Global Forest Watch Pro Palm Risk Analysis Tool. Socfindo (Aek Loba) and Socfindo (Pks Tanah Gambus) both have a low overall threat index value. ADM will continue to monitor the development of these values.	Closed	4/17/2024
291	ADM Brazil	Reports of land clearing related to soy	Might Earth Rapid Repose - Soy Report	No direct connection identified between the farm and ADM	ADM received a notice from Might Earth in February 2024, as a part of their Rapid Response - Soy Report, that a farm located in Mato Grosso State and within 50km of an ADM grain silo had allegedly cleared land and native vegetation in 2023. After investigating, it was determined that this farm does not supply to ADM and the owner was not found to have been a supplier to ADM from any other farms.	Closed	2/26/2024
281	First Resources	Reports of deforestation claiming connection Fango Agro Plantation (FAP) Agri, New Borneo and Clandyry Anky Abadi (CAA)	The Gecko Project	Indirect via third party suppliers/traders.	Based on an investigation carried out, it was confirmed that First Resources, CAA, FAP and New Borneo are separate entities. First Resources mentioned that FAP Agri is a separated entity but one of First Resources suppliers. FAP Agri has been demonstrating good commitment to sustainability with HCV Assessment and compliance with First-Resources' NDPE policy. First Resources claimed that it operates respectfully of its NDPE policy and RSPO is an additional proof of non-deforestation.	Closed	1/31/2024
228	PT Inti Nusa Sejahtera/ PT Capitol	Reports of NDPE violations in the following concessions: - PT Mitra Austral Sejahtera	Forest Peoples Programme: Demandign accountability	Indirect with parent company via third party suppliers/traders.	The case is currently under review by the RSPO Complaints Panel. ADM recognizes and heeds the RSPO's Complaints System and is monitoring the outcome through the RSPO case tracker: https://rspo.my.site.com/Complaint/s/case/50090000028ErzsAAC/detail . PT's decision letter has been furnished: https://rspo.my.salesforce.com/sfcrp/#90000000Yoi/a/0o000000ddo/6KzFMyMgMQBKU_ruJLUMG57V1pdXetQOCbu_QqgYf The Appeals Panel's decision letter is delivered: https://rspo.my.salesforce.com/sfcrp/#90000000Yoi/a/G800000109qs/AgKNKStq1F_0g6hYhLVDJ59b3BfCPSH7valQyAbS	Monitoring	1/31/2024
39	Ta Ann Group	Reports of deforestation in the following concessions: - Ladang Selezu Sdn Bhd	Mighty Earth Rapid Response Report 15	Indirectly with parent company via third party suppliers/traders.	Our supplier is investigating the allegation and a field verification on the deforestation allegation in the week of 23rd July. Moratorium of land clearing has been put in place while investigation is ongoing. A field assessment was done by the supplier's team and it was verified that clearing activities were done outside the concession boundaries of Ladang Selezu. Ta Ann Group is suspended due to unresolved case.	Suspended	1/31/2024
279	Mentari Group	Reports of deforestation and/or peatland development in the following concessions: -PT Alamsari Lestari	Rapid Response Report 42	Indirect via third party suppliers/traders.	ADM reached out to its supplier for investigation. ADM identified that PT Risman Scham Palm Indonesia is potentially linked through a indirect supplier. On April 5, 2022, according Permata Hijau group grievance website received information that PT. Alamsari Lestari, owned by Mentari Group, was allegedly involved in clearing 6 hectares of peatland and developing 45 hectares of peatland in January and February 2022. PHG engaged with Mentari Group on April 6, 2022, seeking clarification. On June 15, 2022, Mentari Group confirmed that PT. Alamsari Lestari's concession included peatland and was acquired in 2019. Mentari Group explained that the land clearing was a recovery/replanting of unproductive areas previously cleared and planted by the previous owner but poorly managed. PT ASL gave several statements on the progress that has been made regarding to the case, such as conducted a moratorium, commitment to NDPE, HCV/HCSA and soil survey. ADM has reached out to direct supplier to request evidence on the implementation of such claims, to keep monitoring for evidence of solved land conflicts with local communities and to suspend sourcing from PT Risman Scham Palm.	Suspended	12/29/2023
277	NaturAceites	Allegations with respect to human rights	Christliche Initiative Romero e.V.	Indirect via third party suppliers/traders.	ADM reached out to its supplier for investigation. Our direct supplier provided an official statement by NaturAceites on the allegations raised in February 27, 2023 towards violations to the land rights of the Maya. NaturAceites strongly ratifies its non-involvement or influence in this situation. ADM will continue to monitor the case.	Closed	12/29/2023
241	Sumber Tani Agung Tbk	The company is sourcing from PT Sawit Sukses Sejati, who allegedly violates NDPE policies.	Mighty Earth Rapid Response Report 39	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Sawit Sukses Sejati (SSS) used to supply FFB to their supplier, PT Sumber Tani Agung (STA) but they are no longer a consistent supplier to PT STA after they built their own mill in 2022. There were some ad hoc FFB delivery to STA in 2022 when PT SSS' mill running into operational issues. When the allegation of deforestation on PT SSS was brought to PT STA's attention, PT STA has immediately shared the Rapid Response report 39 with PT SSS for investigation. In the meantime, PT STA has ceased sourcing from PT SSS. PT Teguhkarsa Wanalestari, PT Asia Sawit Lestari and PT Prima Mas lestari have denied to be associated or buying from PT SSS. It was found that ADM is linked to Sikarakara mill, PT Rimba Mujur Mahkota/Pasifik Agro Sentosa was allegedly sourcing from PT SSS. Sikarakara mill/PT Rimba Mujur Mahkota/Pasifik Agro Sentosa group have confirmed that PT SSS is no longer in their supply chain (last purchase was in January 2023). Our direct supplier has confirmed that PT STA has	Closed	12/29/2023
240	Jernih Kemboja	Reports of deforestation and/or peatland development in the following concession: - PTD 1815	Mighty Earth Rapid Response Report 38, 40	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. ADM is requesting information from direct supplier to clarify the situation. Effective March 31, 2022, our direct supplier suspend Jernih Kemboja Sdn. Bhd from its supply chain following evidence of deforestation in Malaysia obtained via satellite imagery. Our direct suppliers began an engagement process with Jernih Kemboja Sdn. Bhd to support their efforts that meet our policies standards. Sep-22-Concluded investigations have confirmed that there is non-compliance to the No Deforestation commitment in the NDPE Policy. Therefore, our direct suppliers have stop purchasing from Jernih Kemboja from September-22 onwards and will continue engaging with them to meet the requirements in their re-entry criteria. Our direct supplier has also updated and registered this case on their public grievance log. Kindly refer here for more information: https://www.wilmar-international.com/sustainability/grievance-procedure	Closed	12/29/2023
220	Wings Agro	Reports of deforestation and/or peatland development in the following concessions: - PT Gawi Makmur Kalimantan	Mighty Earth Rapid Response Report 34	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that the Wings Group has reiterated its commitment to land development guided by and in adherence with HCV and HCS assessments. Direct supplier is no longer sourcing from PT GWK or sourcing from Wings Agro. Dec-21: No purchase data as of H2 2021 traceability data. Based on an analysis carried out, Wings Agro issued an NPDE commitment and did not carry out deforestation in 2023.	Closed	12/29/2023
217	First Resources	Reports of deforestation and/or peatland development in the following concessions: - PT Gawi Makmur Kalimantan	Aidenvironment	Indirect with parent company via third party suppliers/traders.	The case is currently under review by the RSPO Complaints Panel. ADM recognizes and heeds the RSPO's Complaints System and is monitoring the outcome through the RSPO case tracker: https://sforce.co/3wlmxfH The Secretariat is preparing the Briefing Note along with the full chronology of the recent developments. The CP has deliberated the Complaint and the Decision Letter has been furnished to the parties.	Closed	12/29/2023
216	Bumi Gading Prima (BGP)	Reports of deforestation and/or peatland development in the following concessions: - PT Bumi Aero	Mighty Earth Rapid Response Report 33	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that they have reached out PT Bumi Agro Prima (BAP). PT BAP agreed to a land clearing moratorium and have signed a commitment stating so: https://bit.ly/2PvdW2f . Given the moratorium commitment, our direct supplier has decided to close this case for monitoring. In 2023. Mulia Gadine Mas Group did not carry out deforestation. Group has been considered for removal from the suspended list	Closed	12/29/2023
153	Group Olmeca	Reports of human rights violations - Reforestadora de Palma de Peten SA (REPSA)	RAN - Rainforest Action Network	No direct or indirect connection between ADM and the parent company or mill.	ADM adopts a no buy position on the company. The social issues that occurred at REPSA have been resolved, REPSA has been considered for removal from the suspended list in May 2022.	Closed	12/29/2023
116	NaturAceites	Allegations with respect to human rights	Reuters	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that he immediately engaged Naturaceites following the allegations. To date, evaluations conducted by neutral third parties have shown that Naturaceites has been in compliance with the sustainable palm oil policy from our supplier.	Closed	12/29/2023

107	PT. Bumi Daya Agrotamas	• Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM adopts a no buy position on the company. From 2016-2023, BDA did not carry out deforestation. So, they had no liability.	Closed	12/29/2023
70	Pinehill Pacific Bhd	Reports of deforestation in the following concessions: -PT Makmur Jaya Malindo	Mighty Earth Rapid Response Report 18, 19, 27-28	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. We were informed that Pinehill Pacific Bhd has divested their Malaysian operations and they are no longer associated with PT MJM. Jun-22: No purchase reflected as of H2 2021 data. Based on an analysis of the Might Earth report, PT Makmur Jaya Malindo is a subsidiary of Pinehill Pacific Bhd. PT Makmur Jaya Malindo has no liability because it did not carry out deforestation in 2016-2023	Closed	12/29/2023
26	Unknown Group	Reports of deforestation, clearance prep, Stracking lines in the following concessions: -PT Krida Dharma Kahuripan	Mighty Earth Rapid Response Report 5, 6, 11, 12	No direct or indirect connection between ADM and the parent company or mill.	ADM adopts a no buy position on the company. PT Krida Dharma Kahuripan did not carry out deforestation in 2016-2023. PT Krida Dharma Kahuripan has been considered for removal from the suspended list	Closed	12/29/2023
24	Unknown Group	Reports of deforestation in the following concessions: -PT Condong Garut	Mighty Earth Rapid Response Report 4	No direct or indirect connection between ADM and the parent company or mill.	ADM adopts a no buy position on the company. PT Condong Garut is owned by Mr. Hutomo Mandala Putra. No deforestation was carried out from 2016-2023., has been considered for removal from the suspended list	Closed	12/29/2023
280	Wings Agro	Reports of deforestation and peat development in the following concession: - PT GAWI Makmur Kalimantan	Rapid Response 34	Indirect via third party suppliers/traders.	ADM's direct supplier confirmed is no longer from PT Gawi Makmur Kalimantan and Wings Agro group. There is no linkage to ADM since 2021 Q4. Based on an analysis carried out, Wings Agro issued an NPDE commitment and did not carry out deforestation in 2023.	Closed	12/28/2023
276	Runding Putra Persada	Reports of deforestation in the following concessions: - Mahmudin plantation	RAN - Rainforest Action Network	Indirect via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier provided detailed information on the allegations: Our direct supplier informed that PT RPP has achieved 100% TTP and they are able to check the sourcing information. PT RPP is checking sources and will take action accordingly. Our indirect supplier was linked to Mahmudin plantation through their supplier FBB supplier. A series of meetings and engagement with PT RPP was carried out thereafter. A field verification has been carried from 7 to 15 November 2022 to verify the allegation and support the development of action plan to address the issues identified. The field visit concluded Mahmudin plantation has a certificate of ownership (SHM) covering an area of 29 hectares. There is no clear data provided in the report linking the non-compliant smallholder land parcels to the palm oil dealer that supplies PT RPP	Monitoring	8/30/2023
278	AAK/AarhusKarlshamn AB	Reports of deforestation and/or peatland development in the following concessions: -Tesso Nilo Mills	Upfield / Sveriges Natur	Indirect via third party suppliers/traders.	ADM reached out to its supplier for investigation. Our direct supplier provided information on the allegations first raised in 2018. Sveriges Natur's reported a list of 20 mills that extract oil from illegally-grown palm fruit inside Tesso Nilo, which is then shipped to customers worldwide. According to the report each mill supplies palm oil to a slew of international businesses, including AAK. Our direct supplier has confirmed that they don't source directly from Tesso Nilo landscape. In 2018 all mills committed to either blacklisting or strengthening monitoring against trucks and dealers in the report. In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas. They have commitments and SOPs against sourcing from illegal concessions in the landscape and will socialize them again with suppliers. In line with our expectations of engaging in high priority landscapes, we advocate for our direct suppliers to collect traceability to plantation data in these areas. (July 2018) Our trading partners confirmed they do not source from the Tesso Nilo park and the surrounding National parks. Supplying mills to our trading partners (mills mentioned in the EOF report) have been visited by our trading partners and are undergoing the ART transformation program as well as a traceability to plantation program. Our direct supplier initiated dialogues with suppliers after receiving the report, clarifying that they do not directly purchase Fresh Fruit Bunches (FFB) from the mentioned area. They expect their crude palm oil suppliers to comply with their Sustainability Policy. Field audits will be conducted, and a corrective action plan will be developed based on the findings. Our direct supplier attended multi-stakeholder meetings to discuss the establishment of a task force to address illegal farming in the park	Under Investigation	7/3/2023
164	FGV Holdings Berhad and its subsidiaries and joint ventures	Reports of deforestation and human rights violations	US Border Customs	Indirect via third party suppliers/traders	ADM reached out to its direct suppliers and FGV for investigation. FGV assures their commitment to respecting human rights and to upholding labour standards. In March 2020, FGV published an action plan to address labor issues and commit to aligning its practices with the Fair Labor Association's Principles of Fair Labor and Responsible Sourcing for Companies with Agricultural Supply Chains (Principles): https://www.fgvholdings.com/wp-content/uploads/2020/03/Background-and-Summary-of-FGV-Action-Plan-2020.pdf FGV has been engaging with the Fair Labor Association who published a report regarding FGV's action plan:	Monitoring	5/31/2023
274	ADM Brazil - BA/PI	Reports of fire events for and land clearing soy and cattle	Aid Environment Realtime Deforestation Monitoring- soy and cattle supply chains #12	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report.	On may 2023, ADM received the Realtime Deforestation Monitoring- soy and cattle supply chains #12. Among the 10 farms, ADM made recent negotiations with one of them (Fazenda Tapera). The producer who appears in the report is not an ADM supplier, but we do have commercial relations with other members of the Orth family who owns farms in the region of Correntina/BA. ADM has sourced from one of several CARs that make up the Fazenda Tapera in year 2023. The CAR from where we sourced soy has NO embargoed areas. The recently land clearing has all the authorizations/licenses in accordance with the local forest code and has NOT planted SOY yet in the cleared area. The area that has been cleared is not a forest, but conversion of native vegetation. The investigation concluded that there was no sourcing from the reported farms, the analyses were made by remote sensing and consultation of our grain purchase systems. We will closely monitor land use change in the properties listed to make sure they are in compliance with the local legislation and our No Deforestation Policy.-#28F34[@Progress]:#27F29F34[@Progress]	Closed	5/18/2023
234	Padasa Enam Utama	Reports of NDPE violations in the following concessions: - Koto Kampar	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier provided detailed information on both allegations. 1) Suspected development of plantations in the convertible production forest (HPK) and protected forest (HL) in Koto Kampar - our direct supplier informed us that this is a legacy issue. PT PEU (Koto Kampar) had obtained legal permits for its land and operations long before the area was categorized/designated as forest zone. PT PEU is a holder of an HGU title No. 14/HGU/BPN/92 issued by the National Land Agency in 1992. HGU is the highest "rank/strata" of land title a palm oil company can possibly obtain. The government (National Land Agency) wouldn't have granted the HGU title for PT PEU if there had been a forest one overlapping issue. PT PEU is also a holder of ISPO certificate. Legality is the most important aspect in ISPO's principles and Criteria. See Principle No.1 in the table here: https://peraturan.go.id/common/dokumen/bn/2020/bn1377-2020.pdf	Monitoring	5/8/2023
195	Rezeki Kencana	Rezeki Kencana - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2017. Based on the assessment, an action plan and a number of development programs were developed. Overall, based on the visit, our direct supplier said that waste is fairly well managed. However, some follow up actions were agreed upon: Appoint and assign a person in charge to carry out environmental management and monitoring at the unit level; File records in L3 warehouse; Strengthen efforts to manage empty bunches and solid citation; Our direct supplier continues to engage PT RK and monitor the progress. Our direct supplier has stop purchasing from PT Rezeki Kencana and there is currently no links to Rezeki Kencana. Julong group/Rezeki has re-entered our supply chain. Our direct supplier engaged our T1 supplier & are pending their response from further investigations.	Monitoring	5/8/2023

236	Rimbunan Hijau	Reports of various NDPE violations including environmental degradation, deforestation, and human rights and health and safety	Global Witness - The True Price of Palm Oil	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that they have been engaging with RH. An array of documents were provided rebutting the allegations. The documents included written statements and consent from landowners to ascertain FPIC, communication with Royal Papa New Guinea (PNG) Constabulary, agreement with landowner company issued by PNG National Court, and a field visit report by an independent consultant. The documents shared have not addressed the matter of a lack of Personal Protective Equipment (PPE) provided to workers. This will be further investigated. On the matter of allegations of violence and harassment, RH clarified that police presence was approved by the Royal PNG Constabulary, and no malpractice was identified upon investigations of authorities including the Ombudsman Commission. On the point of deforestation and environmental degradation issues, RH clarified that all legal requirements are met. Compliance is monitored by the PNG Forest Authority Project supervisor onsite. Additionally, our direct supplier has been engaging with RH since 2018 on NDPE compliance. A commitment to conduct HCV-HCS assessment prior to any new land clearing was made. Our direct supplier is also engaging with RH on the matter of PPE provisions and health and safety practices. Report can be found https://www.globalwitness.org/en/campaigns/forests/true-price-palm-oil/resources-library updated in June 14th, 2022.	Monitoring	3/29/2023
231	PT Tasma Puja	Reports of NDPE violations in the following concessions: - Batang Cenaku	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier provided detailed information on the allegations: 1) Our direct supplier has verified that PT TP had obtained all mandatory legal permits (LLOK in 2006; IUP in 2007) long before the alleged area was designated as a forest area by the Government of Indonesia in 2014 and 2016. When the legal permits were issued, the land did not overlap with a designated forest area. The government revisited and addressed these legacy issues in Undang-Undang Cipta Kerja in late 2020, giving 3 years for the companies with such legacy issues to fulfil the requirements in accordance with the regulations of law in the forestry sector. To address the current overlap permit to the Ministry of the Environment and Forestry of Indonesia and also to the provincial government of Riau. 2) Suspected of accommodating, purchasing, processing, selling, and marketing oil palm products from illegally-grown plantations in Bukit Betabuh protected forest in Indragiri Hulu Regency - PT TP has stated that a survey to the farm is always carried out as a due diligence against each of their new FFB suppliers to check the FFB quality and make sure that the farm is not located in forest zone. The photos show a truck delivering CPO/Oil to a refinery, not FFB's from the farm inside Bukit Betabuh National Park to the mill. Further supporting evidence is being sought as the basis for continued investigation and engagement with PT TP. Our direct supplier has registered PT Tasma Puja's Batang Cenaku mill in one of their programs to help them achieve 100% traceability by the end of 2022 as they currently have TTP of roughly 90%.	Monitoring	3/29/2023
223	Chora Agro Resources	Reports of NDPE violations in terms of land rights, labor rights, and environmental concerns in the following concession: - PT Mitra Abadimas Sejahtera	Local community stakeholders, cooperatives, and oil palm farmers.	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that they are already engaging with PT MAS. However, PT MAS is currently undergoing a management takeover which will delay investigations. PT MAS has provided clarification on all allegations raised. A meeting with the grievance raiser has been proposed. ADM will continue to monitor this case. Our direct supplier carried out a field visit to PT MAS to investigate the allegations. The grievance team conducted document review, as well as interviews with PT MAS and surrounding communities to verify the allegations. The outcome of the field investigation corroborated the clarifications provided to our direct supplier. In general, PT MAS is operating legally as they have already obtained all legal permits, including location permit, plantation business permit (IUP) and land use permit (Hak Guna Usaha, HGU). They have also fulfilled their plasma obligations as well as provided compensation for land acquisition to the previous landowner. It is important to note that there are no community settlements, buildings, graves and community houses within the boundaries of PT MAS's IUP and HGU. On the matter of labour conditions, majority of workers are from local communities of Subah sub-district and they appeared to have good relationship with PT MAS. PT MAS has also provided documentation proof that their workers welfare is protected, including insurance coverage.	Closed	3/29/2023
209	Astra Agro Lestari	Sari Aditya Loka 1 - Land dispute, evictions, violent confrontation, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that Covid-19 protocol was to ensure only personnel of PT SAL entered the premises. A confrontation resulted in unrest, upon which local police was called to avoid any further conflict. Mediation efforts are ongoing, and PT SAL has been providing assistance to the community and the Orang Rimba peoples in the surrounding area. AAL's public response can be found under: https://bit.ly/2Ub1GU In AAL Response letter, it stated that AAL has provided assistance in form of education, healthcare, and economic opportunities to the orang Rimba dating back to 2001 so as to improve their quality of life. AAL is also committed to a NDPE policy and publishes its sustainability report both annually and quarterly which is publicly available.	Monitoring	3/29/2023
272	ADM Brazil - AM/MT	Reports of fire events for soy and cattle	Aid Environment Realtime Deforestation Monitoring- soy and cattle supply chains #8	No direct or indirect connection between ADM and the farms or farmers.	On January 2023, ADM received the Realtime Deforestation Monitoring- soy and cattle supply chains #8. ADM did not source soy from any of the farms listed on the report RDM #8. The analyses were made by remote sensing and consultation of our grain purchase systems.	Closed	2/28/2023
273	Sarawak Oil Palm/Shin Yang	Reports of deforestation and peat development in the following concession: - IPE/018	Rapid Response 15,18,19,20,21	Indirect via third party suppliers/traders.	ADM's direct supplier last purchase from SOP was in Nov'19. Clearings were found to be in a non-palm entity. However, SOP/Shin Yang is no longer in our indirect supplier's supply chain since Jan - Jun'20. ADM may resume trade with SOP/Shin Yang if re-entry requirements are followed.	Suspended	2/27/2023
113	PT. Bangun Sampurna Lestari	* Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that they have sent a letter to them to make sure they are aware of the issue and ask for actions taken/planned especially on their traceability progress.	Closed	2/27/2023
88	Tunas Baru Lampung / Sungai Budi Group	Reports of deforestation in the following concessions: - PT Samora Usaha Jaya (B)	Rapid Response 19 & Chain Reaction Research	Indirectly with parent company via third party suppliers/traders.	ADM direct supplier confirmed that is no longer sourcing from TBL. Direct supplier's last purchase from TBL was in 2018.	Suspended	2/27/2023
10	Incasi Raya Group	Reports of deforestation, peat development and peat forest development in the following concessions:	Mighty Earth Rapid Response Report 10	Indirectly with parent company via third party suppliers/traders.	ADM's direct supplier investigation confirmed that their land clearing is guided by the outcome of the assessments. PT SIAL has already conducted HCS and HCV since 2017. PT SIAL has immediately ceased the land clearing and reiterated their commitment of moratorium. SIAL is expected to submit a recovery plan to commensurate with the scale of their non-compliant development. Despite the moratorium since March 2019, there are non-compliances detected in 2019 and 2021 for fires (213 ha) and peat forest clearance (26 ha) respectively.	Closed	2/27/2023
271	ADM Brazil - BA/MA/MT	Reports of fire events for soy and cattle	Aid Environment Realtime Deforestation Monitoring- soy and cattle supply chains #7	Direct connection between ADM and the farms or farmers.	On November, 2022, ADM received the Realtime Deforestation Monitoring- soy and cattle supply chains #7.	Under Investigation	12/9/2022
243	Ta Ann Group	Reports of deforestation and/or peatland development in the following concessions: - LPF 0010	Mighty Earth Rapid Response Report 35	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that they were investigating the case prior to the publication of EIA. However, direct suppliers confirmed that it has suspended PT PSM since Aug 2022 due to the deforestation case. PT PSM has found to sell FFB to one of our indirect suppliers. Our direct suppliers has engaged them and they have stopped purchasing from PT PSM. Direct supplier is no longer linked to PT PSM.	Suspended	11/29/2022
154	Permata Hijau	Omitting mills from mill list that are tied to deforestation	RAN - Rainforest Action Network	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that Permata Hijau acknowledges and regrets this lapse in their mill list. They also commit to cease all sourcing from the mill in question, investigate their standard operating procedures, update their mill list, share no purchase list with our direct supplier, and issue a public statement. Our direct supplier is engaging with PH on discussion to verify their traceability report and mill list, as well as mediating dialogue between RAN and PH. Our direct supplier sent alerts to those supplier mills that KA has been deemed non-compliant with the direct supplier Social and Environmental Policy. We asked them to check and confirm that KA is not in their supply chain. All the supplier mills have confirmed that KA is not in their supply chain. In addition, according to information/sources from the field, KA owns and operates its own palm oil mill, and all FFB from KA's estate are supplied to KA mill. No purchase, our direct suppliers has taken necessary actions to prevent Kallista Alam mill to be in their supply chain.	Closed	11/29/2022
112	PT. Delima Makmur	* Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM conducted a risk analysis of its mill list using the Global Forest Watch Pro Palm Risk Analysis Tool. PT Delima Makmur has a low overall threat index value. ADM will continue to monitor the development of these values. Direct supplier, TTP is 100%, monitoring will be conducted. The disputed land identified is not in PT Delima Makmur. https://putusan3.mahkamahagung.go.id/direktori/putusan/19fc350dd7755964ab0e081cd05f0707.html . Based on the investigation by the Aceh High Prosecutor's Office (Kejaksaan Tinggi Aceh) has dropped the case. Hence, the case against PT DM and the directors has been resolved legally.	Closed	11/29/2022
109	PT. Perkebunan Lembah Bakti I	* Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that they have sent a letter to them to make sure they are aware of the issue and ask for actions taken/planned especially on their traceability progress. Sep-21: Perkebunan Lembah Bakti I & II have reached 100% TTP https://www.astra-agro.co.id/en/traceability-4/ . Our direct supplier has stated that they are no longer buying from PT Laot Bangko and PT Indo Sawit Perkasa which are deforesting inside the Leuser Ecosystem.	Closed	11/29/2022
87	Nurdin Tampubolon Corporation (NT Corp)	Reports of deforestation in the following concessions: - PT Bintang Sakti Lengana	Mighty Earth Rapid Response Report 19	Indirectly with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that HCS/HCV assessments will be used using HCSA/ALS registered assessors followed by a peer review. Furthermore, a commitment to no development on HCS/HCV/peat is in place on a group-level. Direct supplier is monitoring any further land clearance and there are no clearings in 2021 so far. Jun-22: No purchase data reflected as of H2 2021 traceability report.	Monitoring	11/29/2022
268	ADM Brazil - BA	Reports of land clearing for soy and cattle	Aid Environment Realtime Deforestation Monitoring- soy and cattle supply chains #5	Direct connection between ADM and the farms or farmers.	On September, ADM received from Aid Environment the report Realtime Deforestation Monitoring- soy and cattle supply chains #5 by e-mail contact requesting explanation on (7) alleged cases of land clearing for soy and cattle who could be link to ADM in different locations in Bahia - Brazil. Among the 7 farms, ADM made recent negotiations with two of them. The areas were opened after planting soybeans in the 2021/2022 crop, so ADM do not received soybeans from the newly opened area. We have gathered all the necessary documentation to prove the legality of the land conversion of Fazenda Santa Maria. We are waiting for the documentation of Fazenda Indiana, future negotiations were suspended until the presentation of the necessary documentation to validate the legality of the land conversion.	Closed	11/20/2022

221	Tripura Agro Persada	Reports of deforestation and/or peatland development in the following concessions: - PT Brahma Binabakti	Mighty Earth Rapid Response Report 34	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation. Our direct supplier informed us that the area in question is outside of PT BB's concession area. Based on ground-truthing, the field belongs to the local community and used to be a rubber plantation. According to our direct supplier, they do not source directly from PT Brahma Binabakti. Please see the verification report: https://bit.ly/3qOnoOI TAP's internal policy is to not share HGU boundaries, but since they are RSPO members, they sent a revised map to the RSPO Membership Executive, and also provided our direct supplier with a copy of the receipt date on August 23, 2021. The map on the geoRSPO website will be corrected. Given the evidence, GAR has decided to close this case.	Closed	8/2/2022
242	Eagle High Plantations Tbk	Reports of deforestation in the following concessions: - PT Khatulistiwa Agro Abadi / First Borneo Group	Rapid Response 40	Indirect via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT AUS is still listed in the EHP's latest Consolidated Financial Statements as receivables and payables due to the absence of an 'offset' agreement. However, EHP confirmed that their CPO purchase contract with PT AUS ended in Sep 2018 and EHP have not sold FFB to PT AUS since 9 Dec 2019 and PT AUS is on their no purchase list. Since then, EHP have not entered into transactions with PT AUS. The reason why PT AUS appears on PT EHP's annual report/ financial statement is because they still have a debt to PT EHP for their previous business transaction before 2019 and that debt is not fully paid. PT AUS and PT EHP have yet reached an agreement on the debt payment; hence, we will still foresee PT AUS being mentioned in the financial report until this issue is resolved.	Closed	8/1/2022
232	First Resources	Reports of NDPE violations in the following concessions: - Cilandra Perkasa	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. ADM is requesting information from direct supplier to clarify the situation. a. Suspected of developing plantation in forest production area (HP) and convertible production forest (HPK) in Kampar Regency, Riau b. Suspected of planting, harvesting, processing, selling, and marketing oil palm products illegally developed within a forest area. Regarding the allegation of developing on land that is within HPT and HPK area / forest area: Our direct supplier has engaged PT CP regarding the overlap of PT CP concession with a designated forest area. This overlap land matters in Indonesia involves the wider palm oil industry in Indonesia. In conducting its operations, PT. Cilandra Perkasa has obtained relevant and appropriate obligations from the government such as Izin Lokasi, Izin Usaha Perkebunan (IUP) and/or Hak Guna Usaha (HGU). To address these legacy issues, the government has updated the Omnibus Law to include Article 110A paragraph (1) "Everyone carrying out a business that has been established and having a Business Permit in a forest estate before Job Creation Law is in effect who has not fulfilled the requirements in accordance with the regulations of law in the forestry sector, must fulfill such requirements no later than three (3) years upon the effectiveness of the Job Creation Law." Fuji is closely monitoring the case and engaging our direct suppliers for updates. We will keep our stakeholders informed on this case.	Under Investigation	8/1/2022
105	PT. Global Sawit Semesta	• Palm oil grown illegally at the expense of the protected peat forests of Rawa Singkil Wildlife	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that he is engaging with the PT GSS and a field verification visit has occurred. PT GSS has laid out action plan. A sustainability officer and GIS expert have been hired to conduct traceability to plantation work. Based on the results from the verification visit, PT GSS is implementing its action plan to verify their processes to ensure raw material is procured from compliant sources. Another visit to PT GSS is planned by our direct supplier. The report can be found here: http://bit.ly/2E4moTr . An action plan was developed between direct supplier and GSS. It includes mapping of high-risk areas, which is to be shared with all FFB suppliers, request all FFB suppliers to commit to sourcing only from non-protected areas, stop FFB purchase from suppliers without a signed commitment letter, suppliers should commit to sourcing from no exploitation, respecting land rights and document traceability of FFB suppliers shed. Action plan will be monitor by direct supplier. An NDPE policy has been signed and TTP at 100%.	Closed	8/1/2022

218	First Resources	The company allegedly has ownership over Fangiono Agro Plantation (FAP) Agri and Ciandry Anky Abadi (CAA) neither of which were disclosed as being part of the	Aid Environment	Indirect via parent company via third party suppliers/traders.	ADM reached out to its direct supplier(s) for investigation and is following the case through the RSPO Complaints Panel (CP). The case is currently under review by the RSPO Complaints Panel. ADM recognizes and heeds the RSPO's Complaints System and is monitoring the outcome through the RSPO case tracker: https://askrspo.force.com/Complaint/s/case/500000003CLXepAAH/detail The case is currently pending consideration by the CP on the method of investigation.	Monitoring	5/26/2022
213	Yayasan Pelajaran Johor (Johor State Government)	Reports of deforestation and/or peatland development in the following concessions: - YPI Plantations Sdn Bhd (Ladang)	Mighty Earth Rapid Response Report 32	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that they are working YPI Plantations to identify any potential NDPE violations in the concession in question. ADM will continue to monitor this case. YPI Plantation is committed to adhere to the NDPE criteria as described in their Sustainability Policy (2021). Our direct supplier confirmed that their satellite monitoring partner has verified that there was no forest loss/ peat land conversion in 2021. ADM considers this case closed.	Closed	5/26/2022
212	Bunga	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 32	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. ADM is requesting information to our direct supplier to clarify the situation. Our direct supplier informed us that Bunga has been engaged with and have adopted a group NDPE policy as well as a moratorium for any future oil palm plantation development. Bunga mentioned that the purchasing agreement stated that the land was suitable for planting and contained only shrubs. Bunga group has confirmed that there was no clearing of any primary of secondary forest in the concession in question. ADM will continue to monitor this case. Bunga Group has a commitment to the development of a recovery plan for non-compliant land clearing to the NDPE policy at group level. ADM considers this case closed.	Closed	5/26/2022
182	Campang Tiga	Campang Tiga - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. PT Campang Tiga (CT) explained to our direct supplier that the incident was related to a land dispute with another company. The incident was reported to the police. A mediation process was also initiated by the South Sumatera Provincial Government. Our direct supplier requested further information and documents from CT, as well as checking other sources to verify the information. In 2016, our direct supplier met with CT and was told that it is pursuing mediation with the local community. It had also started legal proceedings against the company which is alleged to be involved in the incident. CT will make a public announcement when the verdict is issued by court. ADM continues to monitor the case.	Closed	5/26/2022
114	PT. Nafasindo	• Risk of sourcing from the Singkil-Bengkung region of the Leuser Ecosystem	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that they have sent a letter to them to make sure they are aware of the issue and ask for actions taken/planned especially on their traceability progress. Nafasindo provided clarification regarding the RAN allegations. It was explained that there was an error due to wrong data issued by the provincial authority (BPN Kanwil Prop Aceh). Nafasindo explained that in 2016, the company acting on the provincial and district governments' letter released 347 hectares of land that had been under its control as part of the dispute resolution between the communities in 22 villages and the company. ADM considers this case closed.	Closed	5/26/2022
106	PT. Samudera Sawit Nabati	• Palm oil grown illegally at the expense of the protected peat forests of Rawa Singkil Wildlife Reserve in the Singkil-Bengkung	RAN - Rainforest Action Network	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier engaged with PT GSS to seek responses to the allegations contained in the RAN report. Furthermore, PT SSN declared that they did not source from CV Buana Indah as mentioned in the RAN report. An on-site field verification of the allegations was conducted. It was found that there are no SOPs in the mill and that TTP was relatively low. An action plan has been laid out by PT SSN in this regard. Based on the results of the verification visit, PT SSN will implement action plans to verify their processes to ensure raw material is procured from compliant sources. A third-party will be commissioned to conduct another visit. The report can be found here: http://bit.ly/2E4moTr PT SSN has verified its achievement of 100% TTP. Our direct supplier has also engaged PT SSNN in its supplier program, which has been completed: https://bit.ly/2A0UOYD . ADM considers this case closed	Closed	5/26/2022
245	Brazil - Eighteen properties listed in the tracker report in the	Reports of land clearing for soy and cattle	Mighty Earth Rapid Response Soy and Cattle Tracker Report	No direct connection between soy sourced by ADM and areas	ADM reached out and engaged with its direct suppliers for investigation. The investigation concluded that there was no volume sourced from areas of deforestation, few suppliers had conversion. Those suppliers with conversion have sent legal land conversion authorizations/licenses, which are in accordance with the local legislation and our No Deforestation Policy. We have decided to discontinue doing business with 1 supplier until he resolves a pending issue.	Under investigation	4/4/2022
239	Dewa Rencana Perangin Angin	Reports of NDPE violations in the following concessions: - Dewa Rencana Perangin Angin	Mongabay	Indirect with parent company via third party suppliers/traders.	ADM adopts a no buy position on the company.	Suspended	3/4/2022
233	Incasi Raya	Reports of NDPE violations in the following concessions: - Sumbang Andalas Kencana	Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. ADM is requesting information to direct supplier to clarify the situation. Our direct supplier informed us that conducted an investigation, identifying that PT SAK only source FFB from their own plantation and their ex-plasma smallholder. The Plasma was developed by PT SAK and they are still supporting the core activities including maintenance, harvesting, and delivering to the PT SAK mill. ADM therefore considers this case closed.	Closed	3/4/2022
141	Bumitama Group	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 23	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that these land changes were caused by forest fires due to dry season conditions. PT ASM responded to these fires as fast as possible with their fire-response personnel. The incidents were reported to local authorities as well as the RSPO. Bumitama follows HCS/HCV approach and the NPP by the RSPO as well as working together with local communities: http://bit.ly/ws/obwh Bumitama's further clarification on the land verification: http://bit.ly/BumitamaClarificationToGAR	Closed	1/28/2022
139	Sampoerna Agro	Reports of deforestation in the following concessions: - PT Usaha Agro Indonesia	Mighty Earth Rapid Response Report 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT UAI was not involved in any deforestation activity. The land in question belongs to the community, and the landowners do not intend to turn over their land to the company. Sampoerna Agro has an NDPE commitment in place.	Closed	1/28/2022
132	Eagle High Plantations Tbk	Reports of deforestation in the following concessions: - PT Arrtu Energie Resources	Mighty Earth Rapid Response Report 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT AER was affected by fires that came from outside of their concession due to extreme dry weather conditions in Indonesia. PT AER has no intention to open new areas for palm development due to its new planting moratorium since 2017. Eagle High Plantation informed that fire prevention and management measures are being implemented. A verification visit was arranged to PT AER and an action plan has been proposed. The results of the study can be found here: https://bit.ly/2L4NYqj An update on the PT AER Action Plan can be found here:	Closed	1/28/2022
131	Bumitama Group	Reports of deforestation in the following concessions: - PT Damai Agro Sejahtera	Mighty Earth Rapid Response Report 22, 23, 26, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT DAS patrols recorded illegal logging activity in the area prior to the incident. The illegal activity has been reported to the police. In addition, the area was also impacted by forest fires in the dry season of 2019. Bumitama has an NDPE and is an RSPO member. The official response can be found here: http://ir.bumitama-agri.com/static-files/f3999275-46d9-466b-b656-53d7dfe985a PT DAS has conducted a land-use change analysis after allegations, but no land clearing was discovered. Our supplier also verified that there has been no recent deforestation in PT DAS: https://bit.ly/3cvs01U	Closed	1/28/2022
125	TSH Resources Bhd	Reports of deforestation in the following concessions: - PT Bulungan Citra Agro Persada	Mighty Earth Rapid Response Report 21	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that TSH Resources Bhd adheres to their no burning policy as an RSPO member. TSH Resources commissioned Malaysian Environmental Consultants (MEC) which found that the clearing overlaps with recent massive local community land burning in Kalimantan Utara.	Closed	1/28/2022
122	Makin	Reports of deforestation in the following concessions: - PT Cipta Karsa Kahuripan	Mighty Earth Rapid Response Report 21, 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT CKK ceased operations in 2016, and the land in question has been returned to the government. PT CKK had not performed any activity on the land. A notarized letter showing the company had ceased operations in 2016 was provided.	Closed	1/28/2022

Our direct supplier informed us that PT Perkebunan Nusantara has divested the concession in question since 2014.	Closed	1/28/2022
33	Genting Plantations Bhd	Reports of deforestation in the following concessions: - PT Citra Sawit Cemerlang	Mighty Earth Rapid Response Report 14, 15, 16, 17, 19, 23, 24, 27	Indirectly with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that the concession PT Permata Sawit Mandiri doesn't belong to Genting Plantation Bhd since 2017 after it was divested to a non-related party. Genting Plantation's official statement can be found here: http://bit.ly/2wMjoaH	Closed	1/28/2022
246	Group of SOY farmers/growers in Correntina, Bahia (BRAZIL)	Reports of alleged land tenure issues/social conflicts between traditional local communities and SOY farmers in Correntina, Bahia (Brazil)	Global Witness (London, UK)	Direct SOY growers/suppliers	On November 3rd, 2021 ADM received from Global Witness an e-mail contact requesting explanations on an alleged case of social conflict between a local traditional community called Capao do Modesto and soy growers who could be linked to ADM in Correntina, Bahia (BRAZIL). Due to Covid-19 restrictions and the short timeframe (6 days) given by GW to respond, all contacts were done over the phone. ADM opened its grievance protocol, conducted a series of individual interviews with the farmers listed in GW's report who are suppliers of ADM, and responded to Global Witness by NOV 9th. Local community members names were not disclosed by GW, making it difficult for ADM to reach out to them. A new Socio-environmental due diligence was redone on all farms under production, including the lands used as offsets which were being disputed. So far the investigation found that: 1) The lands on dispute are more than 350km from the farms from where ADM sources soy - all soy farms are in compliance with the Brazilian Forest Code and the Company's policies. Some of these farms are even certified under sustainable standard schemes. 2) The lands on disputes are owned by the farmers (legal land deeds and environmental permits/licenses were provided to ADM). These lands have no farm production, only native vegetation, and serve as offsets of native vegetation (Legal Reserves) to areas under production [150km away] 3) These private areas were being constantly trespassed by 8 local community members who were using these areas irregularly and in disagreement with the Forest Code. 4) The Farmers/owners went to court to avoid people from trespassing. The case was trialed and farmers won on 3 instances. 5) All suppliers interviewed deny having used violence or harassment against the traditional communities. 6) The investigation concluded that farmers are the legal owners of these lands. That these lands are in compliance with the Brazilian legislation and that the suppliers are in compliance with the Company's policies. No evidences of violent acts/harassment were found, and all suppliers deny this ever happened.	Under investigation	1/12/2022
238	Dharma Satya Nusantara Tbk (DSN)	Reports of deforestation and/or peatland development in the following concession:	Mighty Earth Rapid Response Report 37	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that PT Kencana Alam Permai (KAP) parent's group, Dharma Satya Nusantara Tbk (DSN) is a member of RSPO since 2008, and all of their land development for palm is bound by RSPO Principles and Criteria. DSN has also made public commitment to NDPE policy (https://bit.ly/32k8MSE) where their last land clearing activities was in 2015. Specifically on the case on PT KAP, our direct supplier has initiated engagement with DSN since October 2021 to seek clarification on deforestation alert detected through their internal monitoring programme. PT KAP has carried out field investigation and confirmed that the clearance was carried out by five local communities for farming, including paddy planting. The area in question has not been surrendered to the company as the local communities are not keen to be involved in oil palm development. Therefore, PT KAP does not have full control over the said area. The outcome of the investigation has also been shared with the head village and endorsed (https://bit.ly/3yMo5k2) by the head village accordingly. PT KAP's official response to the case is available here:	Closed	12/20/2021
237	Musim Mas	Reports of deforestation and/or peatland development in the following concession: - PT Multipersada Gatramegah	Mighty Earth Rapid Response Report 37	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct suppliers for investigation. Our direct suppliers informed us that area identified in the report is neither HCV nor HCS area. This area has been assessed and covered under the following assessment reports: a) HCV Report of PT Harisa Agro Lestari (https://bit.ly/3EcZMP) that has obtained satisfactory status (note: the area was part of PT Harisa Agro Lestari, which PT MPG officially acquired on 1st April 2018); b) HCS Report of PT Multipersada Gatramegah in 2018 that has covered the area in question (https://bit.ly/3qa10Uk) which has completed HCSA review process (https://bit.ly/3pe7PVS); c) This area has also undergone the RSPO NPP process (https://bit.ly/3spPEyf). All reports are published and available on HCVRN, HCSA, and RSPO websites, respectively.	Closed	12/20/2021
7	Felda Global Ventures Holding Bhd	Reports of peat development in the following concessions: - PT Temila Agro Abadi	Mighty Earth Rapid Response Report 9	Indirectly with parent company via third party suppliers/traders.	Our direct suppliers connected with Felda Global Ventures Holding are closely following up their actions. FGV continues to publicly reporting their progress and effort in addressing the grievances via their website: https://www.fgvholdings.com/sustainability/reports-updates/ Our direct supplier informed us that FGV has a stop work order for TAA since 2017. Please find FGV's press release here: https://www.fgvholdings.com/wpcontent/uploads/2020/03/FGVs-reply-to-Mighty-Earth-Rapid-Response-Report-20-Final.pdf	Closed	12/20/2021

193	Persada Alam Jaya	Persada Alam Jaya - Purchasing FFB grown illegally	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. Their development programs for PT PAJ included Collaboration For Transformation (CFT), traceability training, and a special traceability program called Ksatria Sawit (collaboration with our partner Koltiva) PT PAJ reported to our direct supplier that it has achieved 89% TTP for the period of Jan-Jun 2020 and is on track to achieve 100% traceability by end 2020. In April, Persada reported that it has achieved 100% TTP. Considering the progress PT PAJ has made, ADM considers this case closed.	Closed	10/28/2021
148	Capitol Group	Reports of deforestation and/or peatland development in the	Mighty Earth Rapid Response Report 25, 26, 27, 28, 29	Indirect via third party suppliers/traders	ADM reached out to direct supplier for investigation. Our direct supplier informed us that HCV/HCS has already been conducted by a qualified assessor, and the company has clarified that their land clearing was guided by the outcome of the assessments. However, some land clearance appears to have occurred inside of HCV/HCS areas due to community pressure to develop a plasma smallholders program. PT MPHS has agreed to rehabilitate the identified areas of land clearing in the recent HCV/HCS reports. PT MPHS is working closely with the Indonesian Watershed Monitoring Agency (BPDAS) and has committed to plant 30,000 trees as part of its rehabilitation program. The HCV/HCS report shall be submitted for peer review and a moratorium on any further land clearing has been in place since Q4 2020. An integrated report submitted to HCV Resource Network: https://bit.ly/3bj6163 Management plans for HCV/HCS areas were submitted in the meantime, protecting the areas while preventing similar reoccurrences. Our direct supplier is continuing engagement with and guiding PT MPHS through the peer review process as well as developing a rehabilitation plan.	Closed	10/28/2021
35	Samling Group	Reports of deforestation, clearance prep/stacking line in the following concessions: - Samling Jelaong LPP 0007 (Parts 1 & 3)	Mighty Earth Rapid Response Report 15, 18, 19, 20, 23, 25	Indirect via third party suppliers/traders	ADM adopts a no buy position on the company. 30	Samling Group	Reports of deforestation in the following concessions: - LPP/008 Marudi & Batu Belah	Mighty Earth Rapid Response Report 13, 17, 19, 20, 21, 24, 26, 28, 30, 36	Indirectly via third party suppliers/traders.	ADM adopts a no buy position on the company.	Suspended	10/28/2021
1	Anglo-Eastern Plantations	Reports of deforestation in the following concessions: - PT Kahayan Agro Plantation	Mighty Earth Rapid Response Report 1, 14, 15, 18, 19, 20, 24, 25, 27, 33	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that their internal monitoring detected indications of land clearance in KAP concession (4 ha) from May to June 2019. Subsequently, Mighty Earth Rapid Response Report No.18 also mentioned 6 ha land clearing from June 15-July 15 2019 using GLAD Alert coverage. Our direct supplier informed AEP and they answered that they had stopped land clearing activities since the moratorium announcement at the end of May 2019. Our direct supplier checked the exact date of the indication of the land clearing and found AEP's statement was verified. HCSA assessment and peer review has been completed and verified. The HCSA Secretariat and AEP are in the process of discussing further actions. ADM will continue to monitor this process. A moratorium for the disputed area is in place as of May 5, 2020: https://bit.ly/35OrQ9Q PT KAP has sent written confirmation to HCSA about conserving the remaining 150 Ha "disputed HCSA forest" which led HCSA to close the case. ADM reached out to direct supplier for investigation. Our direct supplier informed us that it was not PT Arvena Sepakat, but the local communities of Kelompok Sinaga who illegally encroached the area. A police report was filed. An investigation was launched, and according to Musimmas, the local community has agreed to stop all activities in the PT Averna Sepakat concession.	Closed	7/31/2021
215	Astra International Tbk	Reports of deforestation and/or peatland development in the following concessions: - PT Agincourt Resources Tbk	Mighty Earth Rapid Response Report 33	Indirect via third party suppliers/traders.	ADM reached out to its direct suppliers for investigation. Investigations have shown that the allegations against PT Agincourt are related to the mining industry, not the palm oil industry. PT Agincourt is a different company to Astra Agro Lestari. ADM does not source any commodities from the mining industry and therefore has no connection to PT Agincourt.	Closed	6/30/2021
119	First Resources	Reports of deforestation in the following concessions: - PT Ketapang Agro Lestari	Mighty Earth Rapid Response Report 21	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that a HCS/HCV assessment had been conducted by PT KAL, and the land development was carried out based on the results. After ground verification, it was identified that "0.6 hectare of land, recommended for conservation, was cleared. This land was rehabilitated once it was identified.	Closed	6/30/2021

165	Palm - 129 entries as listed in the report	Reports of land disputes, environmental infractions, human rights violations, corruption, and deforestation.	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM has launched an investigation into the 129 listed cases provided by Global Witness. ADM reached out to its direct supplier for investigation and is requesting information to clarify the situations. Each case will be investigated and published in this grievance register as per grievance protocol. Currently, 26 cases remain under investigation.	Under Investigation	1/7/2021
201	GOLDEN AGRI/ Ivo Mas Tunggal	Ujung Tanjung - Land grab, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. ADM was informed by its direct supplier that: - The land had been acquired legally by Ivomas Tunggal and this has been explained and clarified to the raiser of the grievance in a meeting facilitated by the local government in Siak on 17/11/17. - The area of 6,505.42 Ha is entirely within the location permit and the disposal of forest area or HGU PT. Ivomas Tunegal. This is corroborated by Ministry of Forestry Decree No: 036 / Kots / II / 90 dated January 20, 1990. The company has also provided compensation for the community's land.	Closed	12/7/2020
200	SIPEF	Tolan Tiga Indonesia - Land dispute, evictions, criminalisation	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the articles mention a recent demonstration at the premises of PT Tolan Tiga Indonesia. This was a follow up action by Kelompok Tani Bersatu (KTB) over an old claim which has gone through many years of communications and has long settled in court over 10 years ago. To date there have been at least 3 demonstrations, all coinciding with local political elections. Although the issue has been settled legally, a group of farmers under KTB have brought up this issue and utilized demonstrations as a means to communicate to PT Tolan Tiga Indonesia. It was during the most recent demonstration on 13th – 18th July 2020 that two of the KTB members were reported to the police for causing property damage. Based on the witness, video and photographic evidence provided the police have arrested the suspects.	Closed	12/7/2020

198	Syaukath Agro	Syaukath Agro - Waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the waste-related issue has been resolved. A Liquid Waste Disposal Permit (IPLC) was issued in December 2019.	Closed	12/7/2020
197	Surya Utama Nabati	Surya Utama Nabati - Waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that BLHD (Environmental agency in the area) has conducted an audit, and the BOD and COD levels still meet the quality standard. The distance between the waste pond and the well is more than 500 meters and is also separated by a river.	Closed	12/7/2020
196	Sumber Sawit Nusantara	Sumber Sawit Nusantara - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that according to SSN, the case is only a public accusation and is not based on valid evidence. The DPRD member (house of representative in the area) has made a visit to the company and was invited to see the conditions directly in the field and it turns out that the allegations are not substantiated.	Closed	12/7/2020
194	Raja Marga	Raja Marga - Waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed that a site visit was conducted and a report and an action plan for RM was developed: https://bit.ly/3nKQ6Bs Our direct supplier has monitoring developments. The waste dumping issue was also verified by our direct supplier. In November 2019, the wastewater did not comply with quality standards, but measures were put in place in order to comply with quality standards again. All documentation and permits are in place.	Closed	12/7/2020
192	Parasawita	Parasawita - Land dispute, evictions, criminalization	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the news are related to PT Rapala (not Parawisa). The area used to be part of PT Parasawita but has been sold to PT Rapala.	Closed	12/7/2020
191	Multiguna Lestari Abadi	Multiguna Lestari Abadi - Waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that based on the Scofield Lab test, all quality standards are still in accordance with the standards. However, MLA also realizes that the Reteh River is widely used by people who bathe and are used for drinking water as well, therefore MLA makes land applications to plantations around the factory for liquid waste disposal. MLA has also been checked by the Dinas Lingkungan Provinsi (the Environmental Agency) and the results are clear.	Closed	12/7/2020
190	Minanga Ogan	Minanga Ogan - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that employee payroll is usually carried out between the 20th to the end of the following month (for payment of the previous month's period). For example, May 2019 wages are paid from June 20 to the end of June with a separate payment according to Employee status in order to facilitate the implementation. Due to the company's financial situation (especially in semester 1 of 2019), the payroll period has been postponed and this has been communicated to the employees. Due to the postponement, a review has been carried out regarding the implementation of the employee's salary by considering the company's financial condition and the employee's needs.	Closed	12/7/2020

186	Hutan Alam Lestari	Hutan Alam Lestari - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that based on the recommendation from the Forestry Service, it was stated that the PT. HAL is located in the APL area covering 4,690 hectares and in the Production Forest Area covering an area of 1,310 hectares. The part of the land that is included in the Production Forest area is not cultivated.	Closed	12/7/2020
184	Citra Sawit Harum	Citra Sawit Harum - Land dispute, indigenous persons affected	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that CSH has committed to its NDPE policy. The status of the Citra Harum Sawit SHM land is APL (non-forest estate land) and there used to be community rubber plants, but the area was controlled by the surrounding village community. Citra Harum Sawit stated that in SHM there had never been any conflicts with indigenous peoples, and there were no indigenous people living in SHM. For the surrounding village community, Citra Harum Sawit also recruits them as employees. Our direct supplier also works with local communities to transport FFB.	Closed	12/7/2020
183	Ciptamas Bumi Selaras	Ciptamas Bumi Selaras - Land dispute, waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the Bengkulu Province Horticultural and Plantation Food Crops Office conducted mediation during a meeting on April 4, 2019 which was attended by community representatives from Kulik Sialang Hamlet, PT CBS, Kaur Regency Land Office, POLDA Bengkulu, and the Agriculture Office of Kaur Regency. The results of the meeting are as follows: 1. PT CBS participated in the clarification by facilitating land measurement activities for the people of Kulik Sialang Hamlet around the PT CBS concession area, where part of the land belonging to the Dusun Kulik Sialang community that does not overlap with the PT CBS HGU is immediately processed in the application for certificates and land certificates has been published and submitted to the people of Kulik Sialang Hamlet in 2019. 2. PT CBS asks the people of Dusun Kulik sialang if there is Terasir land in the PT CBS concession area to be able to show a copy of proof of their land ownership for clarification with proof of land ownership held by PT CBS, so if the Terasir land has never been for sale and purchase to PT CBS, PT CBS will conduct an Enclave process on the land. However, until now PT CBS has not received a copy of the proof of land ownership held by the people of Kulik Sialang Hamlet and continues to wait for the results of the community land measurement process carried out by the Kaur Regency land office. 3. Until now, PT CBS periodically provides outreach to the people of Kulik Sialang Hamlet that PT CBS is committed to clamping and not utilizing land and will not clear land in community areas, if anyone is in the HGU area and has never been traded to PT CBS. 4. In addition, PT CBS always maintains good communication and relationships with the community in the PT CBS work area, one of which is Kulik Sialang Hamlet, by implementing CSR programs, where one of them is for Kulik Sialang Hamlet, PT CBS also provides assistance. Cioatra Plantation verbally denied any wrongdoing in terms of waste allegations and stated that there had been visited by the Dines Linakunean Hudu who did not find any issues. Our direct supplier states that BSP has been engaged with since 2016/2017. A verification visit was conducted in 2017 to follow up on a proposed action plan: http://bit.ly/2Kpq2tj A moratorium and NDPE commitment has been in place since early 2020: https://bit.ly/2Hr1du The overflow occurred due to heavy rain which the embankment (tanguul) could not withstand. The embankment has been raised and built with better materials.	Closed	12/7/2020
181	Beurata Subur Persada	Beurata Subur Persada - Waste dumping	Global Witness	Indirect with parent company via third party suppliers/traders.	Research on this case has shown that the main issue raised is that BSS does not know whom to compensate. ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they notified the Forest Peoples Programme (FPP) and the RSPO of its intention to submit New Planting Procedure (NPP) documents for plasma development in PT Paramitra Internusa Pratama (PT PIP) following public consultations. The RSPO informed our direct supplier that plasma development in PT PIP can proceed. Our direct supplier continues active dialogue with the FPP.	Closed	12/7/2020
178	Paramitra Internusa Pratama	Belian Mill - Land dispute, deforestation	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they notified the Forest Peoples Programme (FPP) and the RSPO of its intention to submit New Planting Procedure (NPP) documents for plasma development in PT Paramitra Internusa Pratama (PT PIP) following public consultations. The RSPO informed our direct supplier that plasma development in PT PIP can proceed. Our direct supplier continues active dialogue with the FPP.	Closed	12/7/2020
177	Kencana Persada Nusantara	Arya Rama Prakarsa - Land dispute, deforestation	Global Witness	Indirect with parent company via third party suppliers/traders.	This case was reported to law enforcement and went through the due process of law. ADM considers this case closed.	Closed	12/7/2020
176	Archipelago Timur Abadi	Archipelago Timur Abadi - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	This case was reported to law enforcement and went through the due process of law. ADM considers this case closed.	Closed	12/7/2020
175	Angso Duo Sawit/Mewah	Angso Duo Sawit - Land dispute	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2016. Based on the assessment, an action plan and a number of development programs were developed. The report provided further recommendations to enable PT ADS and its supply chains to implement remedial practices. The corrective actions are intended as an opportunity to work together with ADM's direct supplier to make transformations throughout their supply chain to meet its sustainability policy.	Closed	12/7/2020
174	Agro Wijaya Industri	Agro Wijaya Industri - Waste dumping, operating without a permit	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that the DPRD (a member of the house of people representative in the region) has made an inspection visit to PT AWI together with the Environment Agency in Merangin. From the results of the PT AWI waste sample test, it is within the acceptable limits.	Closed	12/7/2020
173	Adimulia	Adimulia Agrolestari - Land dispute, watershed violations	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they reached out to AA, who confirmed that the watershed is no longer a problem. It has been managed according to applicable protocol. AA is ISPO certified and regularly audited by the ISPO. Therefore, all protocols, especially those related to waste management have been addressed through supervision of the ISPO auditors.	Closed	12/7/2020
172	Abdi Budi Mula	Abdi Budi Mula 2 - Land dispute, waste dumping, other environmental infractions	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2015. Based on the assessment, an action plan and a number of development programs were developed. PT ABM confirmed to our direct supplier that they do not have a waste problem, and that all issues regarding community demonstrations were submitted to the responsible authorities.	Closed	12/7/2020
171	Abdi Budi Mula	Abdi Budi Mula 1 - Land dispute, waste dumping, other environmental infractions	Global Witness	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they conducted a site visit in 2015. Based on the assessment, an action plan and a number of development programs were developed. PT ABM confirmed to our direct supplier that they do not have a waste problem, and that all issues regarding community demonstrations were submitted to the responsible authorities.	Closed	12/7/2020
168	Sime Darby	The mill Lavang (SOU 31) seems to be linked to deforestation in the Layang estate concession	Actiam	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed that their team has checked and confirmed that the clearings detected happened outside of Sime Darby Plantation's Lavang estate boundary. The boundary marked by GFW in blue is not accurate as it overlapped with the boundary of a neighbour (external party) by the name of Warisan Sedar. The clearings detected are in Warisan Sedar's concession. For the estate boundary, you may look up Sime Darby's Layang estate on their Crosscheck 2.0, which is their open source online traceability tool at the below link. In the search box, type in "E.Layang": https://sd-platinum.maps.arcgis.com/apps/webappviewer/index.html?id=e29b476a8c64e5e875cfa8f0ab731	Closed	12/7/2020
167	Tradewinds Plantation Phd.	The mill Binu Plantations seems to be linked to deforestation in the Binu Plantations Bhd. Sdn.	Actiam	Indirect with parent company via third party suppliers/traders.	ADM reached out to its direct supplier for investigation. Our direct supplier informed us that they engaged with Tradewinds who clarified that their team conducted ground verification of the area and confirmed that there is no clearing within Binu Plantation. The reported clearing happened outside Binu Plantation's concession which was carried out by external parties/local community.	Closed	12/7/2020
166	Not Applicable	Reports of Human Rights Violations in the Xinjiang Uyghur Autonomous Region	Bell	No identifiable direct or indirect connection between ADM and the region.	ADM investigated any possible links to sourcing from the region in question. There are no direct links, and no identifiable indirect links. The vast majority of ADM's indirect purchasing process in the APAC region contains a compliance clause/human right clauses. ADM is currently in process of publishing standard indirect purchasing terms and conditions for the APAC region containing a human rights clause.	Monitoring	12/7/2020
252	Brazil - Ten properties as listed in the report in the state of Mato Grosso	Reports of land clearing for soy and cattle	Mighty Earth Rapid Response Soy and Cattle Report 16	No direct connection between soy sourced by ADM and the areas of deforestation identified in this report.	The investigation concluded that there was no sourcing from the reported deforestation areas. We will closely monitor land use change in the properties listed to make sure they are in compliance with the local legislation and our No Deforestation Policy.	Monitoring	11/6/2020

ADM reached out to direct supplier for investigation. Our direct supplier informed us that a third-party carried out an assessment to verify that the deforestation was not committed by PT TBP: https://bit.ly/2RHfyR The official concession boundary was shared with our direct supplier, who then verified the via overlay map that the alleged	Closed	6/29/2020
149	Medco	Reports of deforestation and/or peatland development in the following concessions: - PT Energi Mitra Merauke	Mighty Earth Rapid Response Report 25	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT EMM is not part of the PT Medco Group and therefore not under their management.	Closed	6/29/2020
147	Gama	Reports of deforestation and/or peatland development in the following concessions: - PT Aero Lintas Nusantara	Mighty Earth Rapid Response Report 17, 18, 24	Indirect with parent company via third party suppliers/traders.	PT Aero Lintas Nusantara previously had no identifiable connection to a Group. Upon researching this case, ADM was able to verify that PT ALN does not belong to Gama. Please see the below link: https://www.wilmar-international.com/wp-content/uploads/2018/09/100818-aide-announcement.pdf	Closed	6/29/2020
145	TH Plantations Bhd	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 14, 23, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that the area in question is outside of Hydroflow's concession, which was verified by a third-party. In addition, a stop work order was put in place at for Hydroflow's operations since September 2018.	Closed	6/29/2020
144	PT Union Sampoerna Triputra Persada	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 23	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that the land clearing was not conducted by the company, and that the concession is outside of their boundary.	Closed	6/29/2020
143	NPC Resource Bhd	Reports of deforestation and/or peatland development in the following concessions: - PT Sumber Alam Selaras	Mighty Earth Rapid Response Report 23, 25, 26, 27, 29	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT SAS was affected by fires due to the extreme dry weather conditions in Indonesia. Parts of their current plantations were affected, as well as some conservation areas. Aidenvironment confirms that fires caused this land change, not deforestation. NPC Resources and PT SAS both have no open burning policies and will work on fire prevention methods. They also commit to carry out HCV/HCSA assessment, no peat development and FPIC: https://www.npc.com.my/PublicStatement13Sep2018.pdf HCV and HCSA reports have been completed and peer reviewed. NPC is drafting an action plan based on findings and recommendations of the assessments.	Closed	6/29/2020
142	Incasi Raya Group	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 23	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier. Our direct supplier informed us that the concession does not belong to Incasi Raya. PT MAL is located in Kalimantan Barat while the location of the report is in central Kalimantan.	Closed	6/29/2020
140	Borneo Pacific Group	Reports of deforestation and/or peatland development in the following concessions:	Mighty Earth Rapid Response Report 23	Indirect with parent company via third party suppliers/traders.	ADM adopts a no buy position on the company.	Suspended	6/29/2020
137	Kalimantan Sawit Kusama	Reports of deforestation in the following concessions: - PT Fajar Saudara Lestari	Mighty Earth Rapid Response Report 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that PT FSL was affected by the long dry season that caused a number of fire spots surrounding the concession. PT FSL has committed to a land clearing moratorium since July 2019. Please see the below links: No Development on HCS/HCV/Peat at group level since July 1, 2019: http://bit.ly/2EmiwNJ Kalimantan Sawit Kusama's official statement can be found here: http://bit.ly/2rHDIU Spatial analysis for hotspots and wildfires here: http://bit.ly/36wRpeM	Closed	6/29/2020
134	Goodhope	Reports of deforestation in the following concessions: - PT Rim Capital	Mighty Earth Rapid Response Report 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us they have been in contact with PT Rim Capital, who takes the allegations very serious. PT Rim Capital confirms that one land clearing is outside of their concession and the other occurred during landfires on community-owned areas. This was found out after a team of village heads and community representatives investigated. Local authorities acknowledged the verification and report stating the company did not commit the fires. PT Rim Capital has a NDPE policy in place since May 2017. Please see the below links: Goodhope's official statement can be found here: http://bit.ly/2EhArF2 The field verification report can be found here: http://bit.ly/2LQXym http://bit.ly/2PA25TW	Closed	6/29/2020
133	Fangiono Agro Plantation	Reports of deforestation in the following concessions: - PT Tirta Madu Sawit Jaya	Mighty Earth Rapid Response Report 22, 24, 25, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question is outside of PT Tirta Madu Sawit Jaya's concession boundary.	Closed	6/29/2020
130	Agro Sarimas Group	Reports of deforestation in the following concessions: - PT Aero Sarimas Indonesia	Mighty Earth Rapid Response Report 22	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that the concession is not involved in the land clearing, it was a fire incident, and it happened outside of their concession. Please see the below links: PT ASI's response: http://bit.ly/2PFatK7 Overlay map: http://bit.ly/2YCK8fE	Closed	6/29/2020
127	Rimbunan Hijau	Reports of deforestation in the following concessions: - Timrest Sdn Bhd	Mighty Earth Rapid Response Report 21, 27, 28	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question was not cleared by the company and is outside of Timrest Sdn Bhd's concession boundary.	Closed	6/29/2020
124	Teladan	Reports of deforestation in the following concessions: - PT Teladan Palma Perkasa	Mighty Earth Rapid Response Report 21	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question does not belong to the Teladan Group as their concession permit expired 2 years ago and no activities were ever undertaken.	Closed	6/29/2020
121	Golden Plantation Tbk	Reports of deforestation, peat forest development and clearance prep/stacking lines in the following concessions: - PT Mitra Java Aero Palm	Mighty Earth Rapid Response Report 21	Indirect via third party suppliers/traders.	ADM reached out to direct supplier for investigation. We were informed that the land clearing spots were located outside PT MJAP concession.	Closed	6/29/2020
120	Global Enterprise Sdn Bhd	Reports of deforestation in the following concessions: - PT Bulunga Surya Pratama	Mighty Earth Rapid Response Report 21, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question is outside of PT Bulunga Surya Pratama's concession boundary.	Closed	6/29/2020
118	Dhanistha Surya Nusantara	Reports of deforestation in the following concessions: - PT Sabhantara Rawi Sentosa	Mighty Earth Rapid Response Report 21, 23, 26, 27	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier confirmed that area in question is outside of PT Sabhantara Rawi Sentosa's concession boundary.	Closed	6/29/2020
98	Felda Global Ventures	Reports of deforestation in the following concessions: - PT Citra Niaga Perkasa	Mighty Earth Rapid Response Report 20	Indirect with parent company via third party suppliers/traders.	ADM reached out to direct supplier for investigation. Our direct supplier informed us that the alleged deforestation area belongs to the local community who did not give consent to FGV for land development even though the land is within FGV's "tzn Lokasi" boundary. It is understood that the land clearing activities started since Jun'19 for paddy planting purpose. Both PT CNP and PT TAA operation in FGV Kalimantan involve only maintenance of road, drains and boundary trenches and water table.	Closed	6/29/2020
97	STH Group (Sin Tek Huat)	Reports of deforestation in the following concessions: - PT Makmur Bersama Asia	Mighty Earth Rapid Response Report 20	Indirect with parent company via third party suppliers/traders.
