NDPE Implementation Reporting Framework

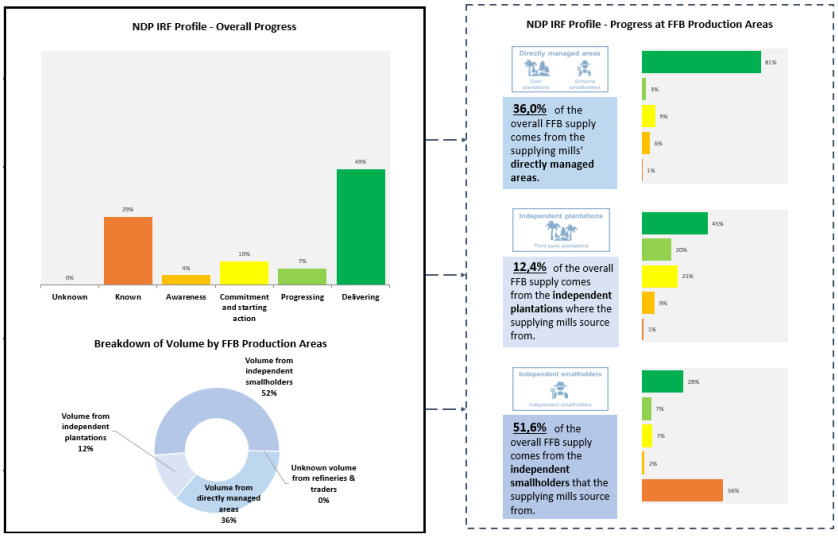

January – December 2025

In 2015, ADM committed to No Deforestation, No Peat and No Exploitation (NDPE) and has since worked to communicate our expectations to our suppliers and take actions to reinforce our goals.
ADM is a member of the Palm Oil Collaboration Group (POCG) and has actively participated in the NDPE IRF Working Group to drive progress on reporting against NDPE criteria, including the evolution of the IRF methodology toward IRF v.6.0.
The IRF is a standardized framework used to report progress toward NDPE commitments within the palm oil supply chain. With the transition from Version 5.8 to Version 6.0, stricter requirements were introduced regarding traceability, monitoring and verification, supplier engagement, and continuous improvement. For more information on the NDPE Implementation Reporting Framework, please see this website.
The following IRF Version 6.0 profile is based on information provided by ADM's suppliers and is part of our third-party verification process.
